Morgenthau Era Letters Austin Joseph App, 1975 **The Liberty Lobby and the American Right** Frank Mintz, 1985-03-27 A large portion of the study is devoted to the antisemitic and anti Zionist position of the Lobby **Central Europe Journal** , 1966 *Writers Directory* NA NA, 2016-03-05 *Denying the Holocaust* Deborah E. Lipstadt, 2012-12-18 The denial of the Holocaust has no more credibility than the assertion that the earth is flat Yet there are those who insist that the death of six million Jews in Nazi concentration camps is nothing but a hoax perpetrated by a powerful Zionist conspiracy Sixty years ago such notions were the province of pseudohistorians who argued that Hitler never meant to kill the Jews and that only a few hundred thousand died in the camps from disease they also argued that the Allied bombings of Dresden and other cities were worse than any Nazi offense and that the Germans were the true victims of World War II For years those who made such claims were dismissed as harmless cranks operating on the lunatic fringe But as time goes on they have begun to gain a hearing in respectable arenas and now in the first full scale history of Holocaust denial Deborah Lipstadt shows how despite tens of thousands of living witnesses and vast amounts of documentary evidence this irrational idea not only has continued to gain adherents but has become an international movement with organized chapters independent research centers and official publications that promote a revisionist view of recent history Lipstadt shows how Holocaust denial thrives in the current atmosphere of value relativism and argues that this chilling attack on the factual record not only threatens Jews but undermines the very tenets of objective scholarship that support our faith in historical knowledge Thus the movement has an unsuspected power to dramatically alter the way that truth and meaning are transmitted from one generation to another **Catalog of Copyright Entries. Third Series** Library of Congress. Copyright Office, 1968

British Fascism After the Holocaust Joe Mulhall, 2020-10-21 This book explores the policies and ideologies of a number of individuals and groups who attempted to relaunch fascist antisemitic and racist politics in the wake of World War II and the Holocaust Despite the leading architects of fascism being dead and the newsreel footage of Jewish bodies being pushed into mass graves seared into societal consciousness fascism survived World War II and though changed survives to this day Britain was the country that stood alone against fascism but it was no exception This book treads new historical ground and shines a light onto the most understudied period of British fascism whilst simultaneously adding to our understanding of the evolving ideology of fascism the persistent nature of antisemitism and the blossoming of Britain's anti immigration movement This book will primarily appeal to scholars and students with an interest in the history of fascism antisemitism and the Holocaust racism immigration and postwar Britain **How Was It Possible?** Peter Hayes, 2015 As the Holocaust passes out of living memory future generations will no longer come face to face with Holocaust survivors But the lessons of that terrible

period in history are too important to let slip past How Was It Possible edited and introduced by Peter Hayes provides teachers and students with a comprehensive resource about the Nazi persecution of Jews Deliberately resisting the reflexive urge to dismiss the topic as too horrible to be understood intellectually or emotionally the anthology sets out to provide answers to questions that may otherwise defy comprehension This anthology is organized around key issues of the Holocaust from the historical context for antisemitism to the impediments to escaping Nazi Germany and from the logistics of the death camps and the carrying out of genocide to the subsequent struggles of the displaced survivors in the aftermath Prepared in cooperation with the Jewish Foundation for the Righteous this anthology includes contributions from such luminaries as Jean Ancel Saul Friedlander Tony Judt Alan Kraut Primo Levi Robert Proctor Richard Rhodes Timothy Snyder and Susan Zuccotti Taken together the selections make the ineffable fathomable and demystify the barbarism underlying the tragedy inviting readers to learn precisely how the Holocaust was in fact possible

Prosecution for Treason Mary Maxwell, 2011-04-29 The Constitution defines treason as levying war against the United States by persons who hold allegiance to the US in other words all Americans This author argues that violence committed against citizens by anyone who wages weather warfare she assumes Hurricane Katrina is an example or who sets epidemics in motion by laboratory created diseases such as AIDS should be prosecuted for the crime of treason As for the violent MK Ultra techniques to which thousands of children were subjected and which Congress revealed in 1975 how is it that all the perpetrators escaped punishment They would be properly designated not as Dr Strangelove s but as traitors The law is clear on this

Lying About Hitler Richard J. Evans, 2008-08-04 In ruling against the controversial historian David Irving in his libel suit against the American historian Deborah Lipstadt last April 2000 the High Court in London labeled him a falsifier of history No objective historian declared the judge would manipulate the documentary record in the way that Irving did Richard J Evans a Cambridge historian and the chief advisor for the defense uses this pivotal trial as a lens for exploring a range of difficult questions about the nature of the historian s enterprise For instance don t all historians in the end bring a subjective agenda to bear on their reading of the evidence Is it possible that Irving lost his case not because of his biased history but because his agenda was unacceptable The central issue in the trial as for Evans in this book was not the past itself but the way in which historians study the past In a series of short sharp chapters Richard Evans sets David Irving s methods alongside the historical record in order to illuminate the difference between responsible and irresponsible history The result is a cogent and deeply informed study in the nature of historical interpretation

Payaslian,2005-12-01 This comprehensive analysis of U S policy toward the Armenian Question and the Armenian Genocide focuses on the important role big business played in keeping the United States from playing a more active role in opposing the genocide notwithstanding broad public opinion calling for greater action Business interests feared antagonizing the Turkish leaders by too much of an intervention on behalf of the Armenians It surveys the historical evolution of U S policy toward the Ottoman Empire since the early nineteenth century and examines the extent to which the missionary community commercial interests and international economic and geopolitical competitions shaped U S policy during the administrations of William McKinley Theodore Roosevelt William Howard Taft and Woodrow Wilson **The Liberty Bell**,1978
