at the triennial conference of the European Association of Japanese Studies held in Budapest in August 1997 the year also marking the 125th anniversary of Iwakura's arrival this volume presents a valuable new overview of the mission as a whole with the significance and impact of the visit to each country being separately assessed A supplement to the book looks at several post Iwakura topics including a review of the mission's chief chronicler Kume Kunitake

The Political Thought of Mori Arinori Alistair Swale, 2013-10-23 This new study of the Meiji Government's controversial Education Minister and thinker Mori Arinori seeks to complement Ivan P Hall's excellent earlier biography 1973 by providing an alternative interpretation of the man and his mission namely that he is overwhelmingly closer to the social evolutionist's view of social change with a considerable debt to the writings of Spencer rather than the Utilitarian philosophy of J S Mill In other words Mori was able to develop a workable philosophy of government and administration in line with the pragmatic needs of Japanese society The book therefore will contribute to a radical rethink of Japanese perceptions of the Meiji reforms seen in their own terms

By the Waters of Babylon Arimasa Mori, 2025-04-15 *By the Waters of Babylon* is a memoir and travelogue by Mori Arimasa the influential Japanese philosopher and intellectual who interpreted European culture to postwar Japan A professor of French philosophy Mori visited Paris and came to the realization that to truly understand the significance of French and European civilization he would have to live there and immerse himself in French culture Abandoning his Tokyo professorship Mori remained in France for over two decades teaching translating and writing Written in an intimate epistolary style Mori's memoir chronicles his complex response as an outsider to a culture he so admired His observations on European art architecture literature and philosophy were highly influential to the first Japanese generation to come of age after World War II who felt a need for Japan to rejoin the global community *By the Waters of Babylon* is a compelling account of cross cultural encounters and a meditation on living and loving a culture that is so different from one's own

A Yankee in Hokkaido John McGilvrey Maki, 2002-01-01 William Smith Clark was in Hokkaido for only eight months but as John Maki's fascinating biography shows his influence has endured *A Yankee in Hokkaido* places Clark's appointment to oversee the creation of the Sapporo Agricultural College within the context of the Meiji era's drive to modernize and Westernize Japan and to settle the island of Hokkaido Maki recounts how Clark inspired his Japanese contemporaries with an idealistic vision of the future born in the United States of the late nineteenth century with agricultural expertise and pedagogical initiatives and with his devotion to the moral development of his students men who would later number among the leaders of modern Japan The work also offers the reader an intimate portrait of this extraordinary citizen of Massachusetts from childhood through Civil War action to the founding and running of the Massachusetts Agricultural College known today as the University of Massachusetts at Amherst
