Love, Sex, and Democracy in Japan during the American Occupation M. McLelland, 2012-02-13 This is the first book in English to examine through material in the popular press the radical changes that took place in Japanese ideas about sex romance and male female relations in the wake of Japan's defeat and occupation by Allied forces at the end of the Second World War

Noruei no mori 朝日新聞, 2003

Modanizumu William J. Tyler, 2008-01-04 Remarkably little has been written on the subject of modernism in Japanese fiction Until now there has been neither a comprehensive survey of Japanese modernist fiction nor an anthology of translations to provide a systematic introduction Only recently have the terms modernism and modernist become part of the standard discourse in English on modern Japanese literature and doubts concerning their authenticity vis a vis Western European modernism remain This anomaly is especially ironic in view of the decidedly modan prose crafted by such well known Japanese writers as Kawabata Yasunari Nagai Kafu and Tanizaki Jun ichiro By contrast scholars in the visual and fine arts architecture and poetry readily embraced modanizumu as a key concept for describing and analyzing Japanese culture in the 1920s and 1930s This volume addresses this discrepancy by presenting in translation for the first time a collection of twenty five stories and novellas representative of Japanese authors who worked in the modernist idiom from 1913 to 1938 Its prefatory materials provide a systematic overview of the literary movement's salient features anti naturalism cosmopolitanism the concept of the double self and actionism and describe how modanizumu evolved from its early jagged edges into a sophisticated yet popular expression of Japanese urban life in the first half of the twentieth century The modanist style characterized by youthful exuberance a tongue in cheek tone and narrative techniques like superimposition is amply illustrated Modanizumu introduces faces altogether new or relatively unknown Abe Tomoji Kajii Motojiro Murayama Kaita Osaki Midori Tachibana Sotoo Takeda Rintaro Tani Joji Yoshiyuki Eisuke and Yumeno Kyusaku It also revisits such luminaries as Kawabata Tanizaki and the detective novelist Edogawa Ranpo Key works that it culls from the modernist repertoire include Funahashi Seiichi's Diving Hagiwara Sakutarō's Town of Cats Ito Sei's Streets of Fiendish Ghosts and Kawabata's film scenario Page of Madness This volume moves beyond conventional views to place this important movement in Japanese fiction within a global context an indigenous expression born of the fission of local creativity and the fusion of cross cultural interaction

**The Aesthetics of Shadow** Daisuke Miyao, 2013-03-04 In this revealing study Daisuke Miyao explores the aesthetics of shadow in Japanese cinema in the first half of the twentieth century This term coined by the production designer Yoshino Nobutaka refers to the perception that shadows add depth and mystery Miyao analyzes how this notion became naturalized as the representation of beauty in Japanese films situating Japanese cinema within transnational film history He examines the significant roles lighting played in distinguishing the styles of Japanese film from American and European film and the ways that lighting facilitated the formulation of a coherent new Japanese cultural tradition Miyao discusses the influences of Hollywood and German cinema

alongside Japanese Kabuki theater lighting traditions and the emergence of neon commercial lighting during this period He argues that lighting technology in cinema had been structured by the conflicts of modernity in Japan including capitalist transitions in the film industry the articulation of Japanese cultural and national identity and increased subjectivity for individuals By focusing on the understudied element of film lighting and treating cinematographers and lighting designers as essential collaborators in moviemaking Miyao offers a rereading of Japanese film history *Fiamma italica rassegna mensile*
