## **Morning Flight Of Wildfowl:**

Morning Flight, 1936      *Man and Wildfowl* Janet Kear, 2010-11-30 The involvement of humans with ducks geese and swans has probably been closer than with any other group of birds today and for several millenia past This involvement in its many aspects is the theme of this compelling and readable account by an Assistant Director of the Wildfowl and Wetlands Trust Dr Kear ranges widely from a summary of the taxonomy and natural history of wildfowl through a history of domestication world wide to wildfowling decoys conservation and captive breeding conflicts with agriculture and wildfowl in legend and literature Throughout the text abounds with little known facts and insights to intrigue the general reader and expert alike a reflection of the author s wide reading and affection for her subject Jacket illustrations by Joe Blossom

*Morning Flight* Peter Scott, 1937      **Wildfowl** Steve Madge, 2010-09-30 A summary of information on 154 species of duck geese and swans of the world intended as an identification manual for the wildfowl enthusiast that goes beyond a regional basis and is light enough to be used as a handy reference book in the field The text not only clarifies identification techniques but fully discusses problematic plumages in detail as well as providing a summary on world distribution and status complemented by clear distribution maps      *Passions for Birds* Sean Nixon, 2022-05-15 Whether as sources of joy and pleasure to be fed counted and watched as objects of sport to be hunted and killed or as food to be harvested wild birds evoke strong feelings Sean Nixon traces the transformation of these human passions for wild birds from the early twentieth century through the 1970s detailing humans close encounters with wild birds in Britain and the wider North Atlantic world Drawing on a rich range of written sources *Passions for Birds* reveals how emotional subjective and material attachments to wild birds were forged through a period of pronounced social and cultural change Nixon demonstrates how for all their differences new traditions in birdwatching and conservation field sports and bird harvesting mobilized remarkably similar feelings towards birds Striking similarities also emerged in the material forms that each of these practices used to bring birds closer to people hides and traps nets and ropes and binoculars Wide ranging in scope *Passions for Birds* sheds new light on the ways in which wild birds helped shape humans throughout the twentieth century as well as how birds themselves became burdened with multiple cultural meanings and social anxieties over time      **Life Histories of North American**
