Singleness in Britain, 1960-1990: Identity, Gender and Social Change Emily Priscott,2020-07-07 This book contributes to an emerging field of research looking at the significance of marital status to debates about identity and gender It examines representations and experiences of single men and women between 1960 and 1990 using a wide variety of sources including digitized British newspapers social research films and lifestyle literature Whilst much existing work focuses on the early to mid 20th centuries such as Katherine Holden s ground breaking work *The Shadow of Marriage* Singleness in England 1914 1960 this book alternatively examines the impact of the 1960s and the aftermath of changing attitudes to singleness While Holden and others such as Virginia Nicholson in *Singled Out* focus largely on social status and lived experience often through oral testimony the author is just as interested in finding new ways of looking at gender and sexuality This work starts from the premise that a distinct double standard existed in attitudes towards single men and women which continued even after the wave of legislation to improve women s status during the 1960s Examining these often vastly different expectations reveals a complex web of progress continuity and contradictions highlighting the uneven pace of social change and its frequent compromises and limitations Using theoretical approaches such as feminism and queer theory this work explores the impact of changing gender norms on issues including single fatherhood old maid stereotypes and experiences of homelessness It can be used as a study aid for 20th century British history and gender studies courses and might also interest both established academics and intellectually curious non academic readers The author has made efforts where possible to clearly explain her theoretical approaches and interventions for those who might be unfamiliar with them

WILDE NOW Pierpaolo Martino, 2023-05-08 WILDE NOW reads Oscar Wilde through our now through a contemporary sensibility and approach in which literature and popular culture interrogate and are interrogated by critical concepts and categories such as performance celebrity intermediality and consumerism This volume exceeds the shape and meaning of a critical study to turn into a drama of five different acts moments in Wilde's life and work his early performances in Dublin London and Oxford the 1882 American tour his successful season of the first half of the 1890s his prison years and finally his glorious resurrection in contemporary pop culture Most importantly WILDE NOW approaches these moments through contemporary rewritings and performances of Oscar Wilde in the fields of cinema music and literature by such artists as Al Pacino Rupert Everett Stephen Fry Gyles Brandreth David Hare David Bowie Morrissey Nick Cave Neil Tennant Gavin Friday These artists through their awareness of the importance of being playing Oscar in their specific worlds and cultural contexts will also show us that Wilde can be conceived as a subversive critical role one might successfully perform and appropriate now more than ever

[White Boys, White Noise: Masculinities and 1980s Indie Guitar Rock](#) Dr Matthew Bannister, 2013-01-28 To what extent do indie masculinities challenge the historical construction of rock music as patriarchal This key question is addressed by Matthew Bannister involving an in depth examination of indie guitar rock in the 1980s as the culturally and historically specific production of white men Through textual analysis of musical and critical discourses Bannister provides the first book length study of masculinity and ethnicity within the context of indie guitar music within US UK and New Zealand scenes Bannister argues that past theorisations of rock masculinities have tended to set up varieties of working class deviance and physical machismo as straw men oversimplifying masculinities as men behaving badly Such approaches disavow the ways that masculine power is articulated in culture not only through representation but also intellectual and theoretical discourse By re-situating indie in a historical cultural context of art rock he shows how masculine power can be rearticulated through high avant garde bohemian culture and aesthetic theory canonism negation Adorno passivity voyeurism and camp Andy Warhol and the Velvet Underground and primitivism and infantilism Lester Bangs Simon Reynolds In a related vein he also assesses the impact of Freud on cultural theory arguing that reversing binary conceptions of gender by associating masculinities with an essentialised passive femininity perpetuates patriarchal dualism Drawing on his own experience as an indie musician Bannister surveys a range of indie artists including The Smiths The Jesus and Mary Chain My Bloody Valentine and The Go Betweens from the US R E M The Replacements Dinosaur Jr Hsker D Nirvana and hardcore and from NZ Flying Nun acts

Illusions of Immortality David Giles, 2017-03-14 What drives people to crave fame and celebrity How does fame affect people psychologically These issues are frequently discussed by the media but up till now psychologists have shied away from an academic away from an academic investigation of the phenomenon of fame In this lively eclectic book David Giles examines fame and celebrity from a variety of perspectives He argues that fame should be seen as a process rather than a state of being and that celebrity has largely emerged through the technological developments of the last 150 years Part of our problem in dealing with celebrities and the problem celebrities have dealing with the public is that the social conditions produced by the explosion in mass communications have irrevocably altered the way we live However we know little about many of the phenomena these conditions have produced such as the parasocial interaction between television viewers and media characters and the quasi religious activity of fans Perhaps the biggest single dilemma for celebrities is the fact that the vehicle that creates fame for them the media is also their tormentor To address these questions David Giles draws on research from psychology sociology media and communications studies history and anthropology as well as his own experiences as a music journalist in the 1980s He argues that the history of fame is inextricably linked to the emergence of the individual self as a central theme of Western culture and considers how the desire for authenticity as well as individual privacy have created anxieties for celebrities which are best understood in their historical and cultural context
