Poetic License Marjorie Perloff, 1990 In Poetic License Perloff insists that despite the recent interest in opening up the canon our understanding of poetry and poetics is all too often rutted in conventional notions of the lyric that shed little light on what poets and artists are actually doing today *A Guide to Poetics Journal* Lyn Hejinian, Barrett Watten, 2013-10-21 Lyn Hejinian and Barrett Watten are internationally recognized poet critics Together they edited the highly influential Poetics Journal whose ten issues published between 1982 and 1998 contributed to the surge of interest in the practice of poetics A Guide to Poetics Journal presents the major conversations and debates from the journal and invites readers to expand on the critical and creative engagements they represent In making their selections for the guide the editors have sought to showcase a range of innovative poetics and to indicate the diversity of fields and activities with which they might be engaged The introduction and headnotes by the editors provide historical and thematic context for the articles The Guide is intended to be of sustained creative and classroom use while the companion Archive of all ten issues of Poetics Journal allows users to remix remaster and extend its practices and debates See <http://www.upne.com/0819571236.html> for more information on the digital archive The Oxford Handbook of Modern and Contemporary American Poetry Cary Nelson, 2012-02-16 The Oxford Handbook of Modern and Contemporary American Poetry gives readers a cutting edge introduction to the kaleidoscopic world of American poetry over the last century Offering a comprehensive approach to the debates that have defined the study of American verse the twenty five original essays contained herein take up a wide array of topics the influence of jazz on the Beats and beyond European and surrealist influences on style poetics of the disenfranchised religion and the national epic antiwar and dissent poetry the AIDS epidemic digital innovations transnationalism hip hop and more Alongside these topics major interpretive perspectives such as Marxist psychoanalytic disability queer and ecocritical are incorporated Throughout the names that have shaped American poetry in the period Ezra

The Marginalization of Poetry Bob Perelman, 2021-02-09 Language writing the most controversial avant garde movement in contemporary American poetry appeals strongly to writers and readers interested in the politics of postmodernism and in iconoclastic poetic form Drawing on materials from popular culture avoiding the standard stylistic indications of poetic lyricism and using nonsequential sentences are some of the ways in which language writers make poetry a more open and participatory process for the readers Reading this kind of writing however may not come easily in a culture where poetry is treated as property of a special class It is this barrier that Bob Perelman seeks to break down in this fascinating and comprehensive account of the language writing movement A leading language writer himself Perelman offers insights into the history of the movement and discusses the political and theoretical implications of the writing He provides detailed readings of work by Lyn Hejinian Ron Silliman and Charles Bernstein among many others and compares it to a wide range of other contemporary and modern American poetry A variety of issues are addressed in the following chapters The Marginalization of Poetry Language Writing and Literary History Here and Now on Paper Parataxis and Narrative The New Sentence in Theory and Practice Write the Power Building a More Powerful Vocabulary Bruce Andrews and the World Trade Center This Page Is My Page This Page Is Your Page Gender and Mapping An Alphabet of Literary Criticism and A False Account of Talking with Frank O'Hara and Roland Barthes in Philadelphia

Song of Napalm Bruce Weigl, 1991-08-01 This collection of poems by Vietnam veteran Bruce Weigl provides a searing memento of the war that refuses to be forgotten San Francisco Chronicle *Song of Napalm* is more than a collection of beautifully wrought heart wrenching and often very funny poems It s a narrative the story of an American innocent s descent into hell and his excruciating return to life on the surface Weigl may have written the best novel so far about the Vietnam War and along the way a dozen truly memorable poems Russell Banks *Song of Napalm* is one of the best books of any genre about the war and about human endurance The Kansas City Star Weigl bears true witness to the reality of war and his work takes its place alongside the strongest war poetry of this century The Hudson Review Reading these poems I am struck with something close to awe for the resilience of the human body and the human heart I can only compare *Song of Napalm* with the remarkable poetry of Wilfred Owen and Robert Graves I cherish Bruce Weigl s poetry as a great gift Larry Heinemann author of *Paco s Story* Quilt Culture Cheryl B. Torsney, Judy Elsley, 1994 As a blanket a commemorative covering and a work of art the quilt is a nearly universal cultural artifact In recent years it has been recognized as one of our most compelling symbols of cultural diversity and the power of women In this collection Cheryl B Torsney and Judy Elsley bring together eleven provocative essays on the quilt as metaphor in literature history politics and philosophy This interdisciplinary approach makes *Quilt Culture* an extraordinarily rich exploration of a cultural artifact whose meaning is far more complex than that of a simple bed covering Publishers website **The Play of Light** Ann Smock, 2021-02-01 Drawing from five contemporary French poets Jacques Roubaud Emmanuel Hocquard Danielle Collobert Anne Portugal and Jacques Jouet Ann Smock juxtaposes them and provides a milieu suitable for philosophical reflection on identity on not being and being on communication and on secrets Smock also includes thinkers such as Ludwig Wittgenstein and Giorgio Agamben who contribute to the conversation as do Jean Luc Nancy and Maurice Blanchot Though the poems considered here are often thought difficult Smock maintains a light touch throughout She writes in an accessible even pleasurable style while contributing to the scholarly study of literature at the border shared by poetry and philosophy **After the Death of Poetry** Vernon Lionel Shetley, 1993 In this deft analysis Vernon Shetley shows how writers and readers of poetry operating under very different conventions and expectations have drifted apart stranding the once vital poetic enterprise on the distant margins of contemporary culture Along with a clear understanding of where American poetry stands and how it got there *After the Death of Poetry* offers a compelling set of prescriptions for its future prescriptions that might enable the art to regain its lost stature in our intellectual life In exemplary case studies Shetley identifies the very different ways in which three postwar poets Elizabeth Bishop James Merrill and John Ashbery try to restore some of the challenge and risk that characterized modernist poetry s relation to its first readers Sure to be controversial this cogent analysis offers poets and readers a clear sense of direction and purpose and so the hope of reaching each other again Opposing Poetries Hank

Lazer, 1996-08-12 Begins a series presenting collections of survey articles pivoting around the notion of computation The inaugural topics include generalized rational approximation subject to linear constraints matrix exponential approximations in the numerical solution of differential equations unbounded fan in circuits and fixpoint semantics for a Petri net model of definite clause logic programs Each article is self contained and all assume a high sophistication in mathematics Future volumes may focus on a special subfield such as computational graph theory approximation or computability Annotation copyright by Book News Inc Portland OR

Archeology of the Circle Bruce Weigl, 1999-04-19 A tough and honest collection by one of America's foremost poets of the combat experience A treasure of wonderful simplicity and complex beauty Clarence Major author of *Configurations With Song of Napalm* Bruce Weigl established himself as a poet of incomparable power and lyric fury whose work stands as an elegy to the countless lives dramatically altered by war *Archeology of the Circle* brings together the major work of this major American poet Collected here for the first time from eight volumes of poetry spanning two decades *Archeology of the Circle* charts Weigl's literary arc toward a hard bitten and sensuous lyric Out of the horror of individual experience he has fashioned poetry that offers solace to the disillusioned and bears transcendent resonance for all of us *Archeology of the Circle* illustrates Bruce Weigl's remarkable creative achievements and signifies his own personal salvation through his writing Few poets of any generation have written so searingly into of the trauma of war inscribing its wound while refusing the fragile suture of redemption Here is the haunted utterance of diasporic selfhood a poetry of aftermath and consequence an answer to the call for an ethos of infinite obligation In this and in the breadth of his accomplishment Bruce Weigl is one of the most important poets of our time Carolyn Forch author of *The Country Between Us*

Languages of Liberation Walter B. Kalaidjian, 1989 *Selected Poems of Rita Dove* Rita Dove, 1993-09-28 Here in one volume is a selection of the extraordinary poems of Rita Dove who as the nation's Poet Laureate from 1993 to 1995 brought poetry into the lives of millions of people Along with a new introduction and poem *Selected Poems* comprises Dove's collections *The Yellow House on the Corner* which includes a group of poems devoted to the themes of slavery and freedom Museum intimate ruminations on home and the world and finally *Thomas and Beulah* winner of the Pulitzer Prize in 1987 a verse cycle loosely based on her grandparents lives Precisely yet intensely felt resonant with the voices of ordinary people Rita Dove's *Selected Poems* is marked by lyric intensity and compassionate storytelling

To the Bone Sydney Lea, 1996 This is the first comprehensive study in the English language of the commentaries of Didymus the Blind who was revered as the foremost Christian scholar of the fourth century and an influential spiritual director of ascetics The writings of Didymus were censored and destroyed due to his posthumous condemnation for heresy This study recovers the uncensored voice of Didymus through the commentaries among the Tura papyri a massive set of documents discovered in an Egyptian quarry in 1941 This neglected corpus offers an unprecedented glimpse into the internal workings of a Christian philosophical academy in the most vibrant and tumultuous cultural center of late antiquity By exploring the social context of Christian instruction in

the competitive environment of fourth century Alexandria Richard A Layton elucidates the political implications of biblical interpretation Through detailed analysis of the commentaries on Psalms Job and Genesis the author charts a profound tectonic shift in moral imagination as classical ethical vocabulary becomes indissolubly bound to biblical narrative Attending to the complex interactions of political competition and intellectual inquiry this study makes a unique contribution to the cultural history of late antiquity

Syncopations Jed Rasula, 2004-05-18 An analysis of the sustaining vitality behind contemporary American poetry from 1975 to the 2003 these 12 essays examine both exemplary innovators and the social context in which innovation is resisted acclaimed or taken for granted

Experimentalism as Reciprocal

Communication in Contemporary American Poetry Elina Siltanen, 2016-10-06 The poems of John Ashbery Lyn Hejinian and Ron Silliman may seem to offer endless small details of expression observation thought and narrative which fail to hang together even from one line to the next But as Elina Siltanen shows here this extraordinary flow of uncoordinated detail can stimulate readers to join the poets in a delightful exploration of ordinary language When readers take a poem in this spirit they actually begin to read as members of a community the community not only of themselves and other readers but also including the poet and other poets plus all the speakers of the language in which the poem is written For all these different parties that language is indeed a shared resource and the way for readers to get started is simply by recalling or imagining some of the numerous kinds of context in which the given poem s words phrases sentences could or could not be successfully used The rewards for such proactive readers are on the one hand a heightened sense of the subtle interweavings of language and life and on the other hand a freshly empowered self confidence The point being that within the community of contemporary experimental poetry poets have no more authority than readers Rejecting older cultural hierarchies they present themselves as teasing out the idiomatic serendipities of their own poems together with their readers
