adventures about animals and their involvements with researchers farmers zookeepers handlers and other human beings Do animals have a sense of humor In reading these stories it is evident that they do seem to take perverse pleasure in creating scenarios that unsettle even the greatest of experts who in turn devise newer and riskier hypotheses that invariably lead them to conclude that animals are not nearly as dumb as previously thought These deftly translated accounts oblige us along the way to engage in both ethology and philosophy Combining serious scholarship with humor that will resonate with anyone this book with a foreword by noted French philosopher anthropologist and sociologist of science Bruno Latour is a must not only for specialists but also for general readers including dog owners who will never look at their canine companions the same way again
