Mortal Secrets:

Mortal Secrets Frank Tallis, 2024-03-26 A chronicle of Vienna's Golden Age and the influence of Sigmund Freud on the modern world by a clinical psychologist whose mystery novels form the basis of PBS's Vienna Blood series. Some cities are like stars. When the conditions are right, they ignite and burn with such fierce intensity that they outshine every other city on the planet. Vienna was one such city, and at the beginning of the twentieth century was the birthplace of the modern mind and the way we live today. Long coffee menus and celebrity interviews are Viennese inventions. Modern buildings were appearing in Vienna long before they started appearing in New York, and the idea of practical modern home design originated in the work of Viennese architect Adolf Loos. The place, however, where one finds the most indelible and profound impression of Viennese influence is inside your head. How we think about ourselves has been largely determined by Vienna's most celebrated resident, Sigmund Freud. In *Mortal Secrets*, Frank Tallis brilliantly illuminates Sigmund Freud and his times, taking readers into the mind of one of the most influential thinkers of the twentieth century, chronicling the evolution of psychoanalysis and opening up Freud's life to embrace the Vienna he lived in and the lives of the people he mingled with, from Gustav Klimt to Arnold Schoenberg, Egon Schiele to Gustav Mahler. *Mortal Secrets* is a thrilling book about a heady time in one of the world's most beautiful cities and its long shadow that extends through the twentieth century up until the present day. *The Secrets of Mind Power: The Secret of Success and Other Essential Works* William Walker

Atkinson, 2021-03-09 A collection of William Walker Atkinson's classic works on the power of the mind. *The Secrets of Mind Power: Ten Essential Works* is the definitive collection of William Walker Atkinson's published works. Born in 1862, Atkinson became a pioneer of the New Thought movement and wrote prolifically throughout his lifetime, leaving a vast body of published material. After his death in 1932, *The Secrets of Mind Power* is a treasury of ten of his most powerful and innovative teachings combined in a single volume. The books are included in their entirety and are faithfully reproduced as they were originally published to preserve the impact of Atkinson's work. *The Secrets of Mind Power* is part of *The Library of Spiritual Wisdom*, a beautifully designed series of curated classics written by some of the greatest spiritual teachers of all time. With books covering topics ranging from prosperity and motivation to the occult and metaphysical thought, *The Library of Spiritual Wisdom* is the definitive collection of texts from some of the most revolutionary thought leaders of the last three centuries and belongs on the shelves of home libraries everywhere.

The History of the Holy Grail Herry Lovelich, 1905 **The Ethics Police?** Robert Klitzman, 2015-03-16 Research on

human beings saves countless lives but has at times harmed the participants To what degree then should government regulate science and how The horrors of Nazi concentration camp experiments and the egregious Tuskegee syphilis study led the US government in 1974 to establish Research Ethics Committees known as Institutional Review Boards IRBs to oversee research on humans The US now has over 4 000 IRBs which examine yearly tens of billions of dollars of research all studies on people involving diseases from cancer to autism and behavior Yet ethical violations persist At the same time critics have increasingly attacked these committees for delaying or blocking important studies Partly science is changing and the current system has not kept up Since the regulations were first conceived 40 years ago research has burgeoned 30 fold Studies often now include not a single university but multiple institutions and 40 separate IRBs thus need to approve a single project One committee might approve a study quickly while others require major changes altering the scientific design and making the comparison of data between sites difficult Crucial dilemmas thus emerge of whether the current system should be changed and if so how Yet we must first understand the status quo to know how to improve it Unfortunately these committees operate behind closed doors and have received relatively little in depth investigation Robert Klitzman thus interviewed 45 IRB leaders and members about how they make decisions What he heard consistently surprised him This book reveals what Klitzman learned providing rare glimpses into the conflicts and complexities these individuals face defining science assessing possible future risks and benefits of studies and deciding how much to trust researchers illuminating more broadly how we view and interpret ethics in our lives today and perceive and use power These committees reflect many of the most vital tensions of our time concerning science and human values individual freedom government control and industry greed Ultimately as patients scientists or subjects the decisions of these men and women affect us all *Starcrossed* Katie Jane

Gallagher,2021-09-11 Classic fairy tale meets alien abduction in this second riveting installment in the Beauty and Her Alien series It s all very well to make out with an alien prince A few kisses should be harmless right Yet that alien prince is the only male present on the spaceship that serves as Corinne Kaminski s gilded prison Faced with a thorny status quo Corinne begrudgingly keeps plotting her escape despite her growing feelings for Del Complicating matters even more is the sudden grand entrance of Del s sisters onto the ship The two cunning princesses would be most unhappy to learn that their brother heir to the throne of Ailopt has his eye on a human girl from Montana and that said human girl returns his affection Then a chance at freedom becomes tantalizingly close just when things are heating up behind closed doors Corinne will have to decide what s more important returning home for good or taking a chance on cosmic love With one of a kind characters captivating intrigue and aching desire this next book in the Beauty and Her Alien series will enchant any fan of sci fi romance

Trust Russell Hardin,2006-03-24 This text deals with the myths surrounding the concept of trust in society and politics It examines the literature on trust to analyse public concerns about declining levels of trust both in our fellow citizens and in our governments and their officials It also explores the various manifestations of trust and distrust in public life **Son of**

Avonar Carol Berg, 2022-02-01 A violent fugitive who cannot speak who has no past A disgraced noblewoman who would rather forget her past And a world of magic that has turned against both of them Seriana Marguerite daughter of a warrior house once believed that intelligence determination and love could avert the consequences of youthful rebellion She was wrong Violating the singular tenet of the Four Realms that sorcery and all who practice it must be reported and exterminated brought torment and death to those closest to her Only her family's influence preserved her own life a mercy for which she has never been thankful Over the years Seri has adapted to poverty and exile far from royal intrigues and the politics of power But her bitter peace collapses on the day she encounters a half mad fugitive a man incapable of speech yet skilled at violence The discovery that one of his dead eyed pursuers is the man responsible for the horrors of her past forces Seri onto a path of anguished memory and ancient riddles a race to unravel the mysteries of the fugitive's identity his mission and a looming danger that could shatter the very foundation of the world Berg exhibits her skill with language world building and the intelligent development of the magic that affects and is affected by the characters The first book of the Bridge of D Arnath launches a promising new multivolume work that should provide much intelligent entertainment Booklist This is excellent dark fantasy with a liberal dash of court intrigue Highly recommended Broad Universe Shiloh, Or, Without and Within W. M. L. Jay, 1872

When Doctors Become Patients Robert Klitzman, 2008 For many doctors their role as powerful healer precludes thoughts of ever getting sick themselves When they do it initiates a profound shift of awareness not only in their sense of their selves which is invariably bound up with the invincible doctor role but in the way that they view their patients and the doctor patient relationship While some books have been written from first person perspectives on doctors who get sick by Oliver Sacks among them and TV shows like House touch on the topic never has there been a systematic integrated look at what the experience is like for doctors who get sick and what it can teach us about our current health care system and more broadly the experience of becoming ill The psychiatrist Robert Klitzman here weaves together gripping first person accounts of the experience of doctors who fall ill and see the other side of the coin as a patient The accounts reveal how dramatic this transformation can be a spiritual journey for some a radical change of identity for others and for some a new way of looking at the risks and benefits of treatment options For most however it forever changes the way they treat their own patients These questions are important not just on a human interest level but for what they teach us about medicine in America today While medical technology advances the health care system itself has become more complex and frustrating and physician patient trust is at an all time low The experiences offered here are unique resource that point the way to a more humane future *Interpretive Sociology and the Semiotic Imagination* Andrea Cossu, Jorge Fontdevila, 2024-03-12 Written by experts in interpretive sociology this volume examines semiotic models in a sociological context Contributors offer case studies to demonstrate how to do things with semiotics **Shiloh; or, Bona, Mala, and I, by W.M.L. Jay** Julia Louisa M. Woodruff, W. M. L. Jay (pseud. [i.e. Julia Louisa Matilda Woodruff.]), 1875 **Shunned**

Graham Thornicroft, 2006 People with mental illness commonly describe the stigma and discrimination they face as being worse than their main condition *Shunned* presents information about the nature and severity of discrimination against people with mental illness and what can be done to reduce this *Tales of my Landlord. New series, containing The Fair Witch of Glas Llyn. [With a preface by the publisher, W. Fearman.]* Tales, 1821 **Representing Sylvia Plath** Sally Bayley, Tracy Brain, 2011-08-11 Interest in Sylvia Plath continues to grow as does the mythic status of her relationship with Ted Hughes but Plath is a poet of enduring power in her own right This book explores the many layers of her often unreliable and complex representations and the difficult relationship between the reader and her texts The volume evaluates the historical familial and cultural sources which Plath drew upon for material from family photographs letters and personal history to contemporary literary and cinematic holocaust texts It examines Plath's creative processes what she does with materials ranging from Romantic paintings to women's magazine fiction how she transforms these in multiple drafts and the tools she uses to do this including her use of colour Finally the book investigates specific instances when Plath herself becomes the subject matter for other artists writers film makers and biographers **Handbook of Medical Sociology, Sixth Edition** Chloe E. Bird, Peter Conrad, Allen M. Fremont, Stefan Timmermans, 2010-11-29 The latest version of an important academic resource published about once a decade since 1963 From 'Stone-Age' to 'Real-Time' Martin Slama, Jenny Munro, 2015-04-24 There are probably no other people on earth to whom the image of the stone age is so persistently attached than the inhabitants of the island of New Guinea which is divided into independent Papua New Guinea and the western part of the island known today as Papua and West Papua From Stone Age to Real Time examines the forms of agency frictions and anxieties the current moment generates in West Papua where the persistent stone age image meets the practices and ideologies of the real time a popular expression referring to immediate digital communication The volume is thus essentially occupied with discourses of time and space and how they inform questions of hierarchy and possibilities for equality Papuans are increasingly mobile and seeking to rework inherited ideas institutions and technologies while also coming up against palpable limits on what can be imagined or achieved secured or defended This volume investigates some of these trajectories for the cultural logics and social or political structures that shape them The chapters are highly ethnographic based on in depth research conducted in diverse spaces within and beyond Papua These contributions explore topics ranging from hip hop to HIV AIDS to historicity filling much needed conceptual and ethnographic lacunae in the study of West Papua The Loss of the "Trades Increase" Richmond Barbour, 2021-03-05 Was it the Titanic of its age Christened by an optimistic King James I in December 1609 the Trades Increase was the greatest English merchant vessel of the Jacobean era a magnificent ship embodying the hopes of the nascent East India Company to claim a commanding share of the Eastern trade But the ship's launch failed when it proved too large to exit from its dock an ill fated start to an expedition that would end some three years later when a dangerously leaking Trades Increase at last reached the shores of Java While its

smaller companion vessel would sail home with handsome profits for investors the rotting hull of the great ship itself was beyond repair The Trades Increase and nearly all who sailed it perished wretchedly on the far side of the world The terrible pattern proven by this voyage with profits to an elite few in London stained by catastrophic losses in equipment and personnel abroad ignited rancorous controversy in England over the human moral and economic costs of such commerce In The Loss of the Trades Increase Richmond Barbour has written an engrossing account of the tragic expedition and of global capitalism at its hour of emergence Its sources fragmented among journals minutes and letters in the archives of the East India Company the full story of the Trades Increase is told here for the first time Earlier writers minimized the loss as a temporary setback and necessary sacrifice on the road to empire In a work informed by corporate history and postcolonial theory Barbour sees the saga of the voyage and all that produced and justified it differently as an expression of the structural conflicts operational risks and material incapacities that haunted and ultimately unraveled the British Empire and that destabilize multinational corporations global markets and our common biosphere to this day

On the Uses of the Fantastic in Modern Theatre I. Eynat-Confino, 2008-11-24 The book reveals how the fantastic is used in modern theatre as a manipulative device to encode the unspeakable and control audience response challenging conventional readings of all authors who use the fantastic
