Mortal Stakes Hunters And Hunting In Contemporary America:

Mortal Stakes Jan E. Dizard, 2003 An introduction to hunting including who hunts how they compare socially and politically with nonhunters and how they see themselves and are seen by others *Guncrazy America* Frank N. Egerton, 2018-10-06 The conclusion of this professor historian emeritus is that our gun culture had its uses in establishing American civilization as slavery did But we came to recognize after a bloody civil war that slavery was a gigantic mistake and now I think it s time to realize that our gun culture was a similarly gigantic mistake though of a different kind And we need to do what we can to minimize its horrible impacts and move on to a more positive development of a humane civilization

Models for Planning Wildlife Conservation in Large Landscapes Joshua Millspaugh, Frank R. Thompson, 2011-04-28 A single resource volume of information on the most current and effective techniques of wildlife modeling *Models for Planning Wildlife Conservation in Large Landscapes* is appropriate for students and researchers alike The unique blend of conceptual methodological and application chapters discusses research applications and concepts of modeling and presents new ideas and strategies for wildlife habitat models used in conservation planning The book makes important contributions to wildlife conservation of animals in several ways 1 it highlights historical and contemporary advancements in the development of wildlife habitat models and their implementation in conservation planning 2 it provides practical advice for the ecologist conducting such studies and 3 it supplies directions for future research including new strategies for successful studies Intended to provide a recipe for successful development of wildlife habitat models and their implementation in conservation planning the book could be used in studying wildlife habitat models conservation planning and management techniques Additionally it may be a supplemental text in courses dealing with quantitative assessment of wildlife populations Additionally the length of the book would be ideal for graduate student seminar course Using wildlife habitat models in conservation planning is of considerable interest to wildlife biologists With ever tightening budgets for wildlife research and planning activities there is a growing need to use computer methods Use of simulation models represents the single best alternative However it is imperative that these techniques be described in a single source Moreover biologists should be made aware of alternative modeling techniques It is also important that practical guidance be provided to biologists along with a demonstration of utility of these procedures Currently there is little guidance in the wildlife or natural resource planning literature on how best to incorporate wildlife planning activities particularly community based approaches Now is the perfect time for a syntheistic publication that clearly outlines the concepts and available methods and illustrates them Only single resource book of information not only on various wildlife modeling techniques but also with practical guidance on the demonstrated utility of each based on real world conditions Provides concepts methods and applications for wildlife ecologists and others within a GIS context Written by a team of subject area experts *Brutal* Brian Luke, 2007 Explores the gender divide over our treatment of animals exposing the central role of masculinity in systems of animal exploitation

including hunting Luke develops a new theory of how exploitative institutions do not work to promote human flourishing but instead merely act as support for a particular construction of manhood from publisher description **Animal Lives Matter** Raymond Wacks,2024-02-13 *Animal Lives Matter* provides a comprehensive analysis of the legal philosophical and ethical aspects of animal rights It argues that the subject extends beyond the matter of our obligations towards animals to include our wider responsibilities for protecting the environment Drawing on numerous moral political legal religious and philosophical theories including utilitarianism deontology rights theory social contractarianism and the capabilities approach the author meticulously examines the questions of sentience speciesism personhood and human exceptionalism Lucid nuanced and academically rigorous this important book will be an essential resource for scholars of law politics philosophy ethics as well as policy makers and the general reader Trophy Hunting Nikolaj Bichel,Adam Hart,2023-04-11 This book gets to the heart of trophy hunting unpacking and explaining its multiple facets and controversies and exploring why it divides environmentalists the hunting community and the public Bichel and Hart provide the first interdisciplinary and comprehensive approach to the study of trophy hunting investigating the history of trophy hunting and delving into the background identity and motivation of trophy hunters They also explore the role of social media and anthropomorphism in shaping trophy hunting discourse as well as the viability of trophy hunting as a wildlife management tool the ideals of fair chase and sportsmanship and what hunting trophies are both literally and in terms of their symbolic value to hunters and non hunters The analyses and discussions are underpinned by a consideration of the complex moral and practical conflicts between animal rights and conservation paradigms This book appeals to scholars in environmental philosophy conservation and environmental studies as well as hunters hunting opponents wildlife management practitioners and policymakers and anyone with a broad interest in human wildlife relations Mortal Stakes Jan E. Dizard,2003 An introduction to hunting including who hunts how they compare socially and politically with nonhunters and how they see themselves and are seen by others **The SAGE Encyclopedia of Food Issues** Ken Albala,2015 The SAGE Encyclopedia of Food Issues explores the topic of food across multiple disciplines within the social sciences and related areas including business consumerism marketing and environmentalism In contrast to the existing reference works on the topic of food that tend to fall into the categories of cultural perspectives this carefully balanced academic encyclopedia focuses on social and policy aspects of food production safety regulation labeling marketing distribution and consumption A sampling of general topic areas covered includes Agriculture Labor Food Processing Marketing and Advertising Trade and Distribution Retail and Shopping Consumption Food Ideologies Food in Popular Media Food Safety Environment Health Government Policy and Hunger and Poverty This encyclopedia introduces students to the fascinating and at times contentious and ever so vital field involving food issues *Guns and Contemporary Society* Glenn H. Utter,2015-12-01 This three volume set examines various approaches to firearms including constitutional and legal issues public health and criminal justice concerns and perspectives

on personal safety and self defense Recent mass shootings have led to renewed calls for additional legislation at the state and federal levels to address gun access and control In this hard hitting compilation experts delve into various aspects of firearms in America from gun control and gun rights to militia movements to school related shootings and to the recent trends in gun ownership by women Authors from varied backgrounds and viewpoints share their perspectives on the pros and cons of firearm ownership as all of the following a constitutional right a key instrument of self defense a guarantee of political freedoms and as a major factor in crime and personal injury The reference is divided into three volumes The first volume covers firearm history legislation and policy the second volume explores public opinion gun ownership trends international laws and self defense and the third considers popular debates about firearm policy including concealed carry of firearms terrorism and the ownership of firearms background checks for purchasing guns and stand your ground laws The work concludes with an informed debate on gun policy between Richard Feldman president of the Independent Firearm Owners and Paul Helmke former president of the Brady Campaign to Prevent Gun Violence

Hunting - Philosophy for Everyone Nathan Kowalsky, 2010-08-16 Hunting Philosophy for Everyone presents a collection of readings from academics and non academics alike that move beyond the ethical justification of hunting to investigate less traditional topics and offer fresh perspectives on why we hunt The only recent book to explicitly examine the philosophical issues surrounding hunting Shatters many of the stereotypes about hunting forcing us to rethink the topic Features contributions from a wide range of academic and non academic sources including both hunters and non hunters

The Capitalist Commodification of Animals Brett Clark, Tamar Diana Wilson, 2020-11-30 This volume offers analysis regarding the historical transformations in the material conditions and ideological conceptions of nonhuman animals alienated speciesism the ecological crisis that is undermining the conditions of life for all species and the capitalist commodification of animals that results in suffering death and profits

Wild Games Dennis Ray Cutchins, Eric Alden Eliason, 2009 Humans understand at least some of what it means to be human both literally and figuratively in reference to wild animals Our relationships with wildlife have traditionally been expressed in terms of hunting more recently these relationships have also been manifest as efforts to prevent hunting Hunting and fishing traditions are in fact under fire by critics at the same time that they are receding of their own accord perhaps becoming even more endangered than any of the pursued animals These traditions form the major focus of Wild Games a new collection of essays that looks at the folklore and culture of various hunting and fishing practices documenting the central importance of hunting to many rural societies even in modern times Editors Dennis Cutchins and Eric Eliason contend that hunters often don't perceive of themselves as separate from the wild but rather identify strongly with a natural order integrated with rather than standing apart from the fluctuation of ecosystems And they frequently don't see wild animals as set apart but understand them as food sources competitors friendly rivals and even equals Featuring contributions from a variety of distinguished scholars and writers including an essay by the noted folklorist Simon Bronner

on the culture of the deer camp a fascinating account of coyote tracking by Eric Eliason and an examination of the role of gender in outdoor life by Diane Humphrey Lueck this book shows how the traditions of hunting and fishing tend to bind hunter and prey into ancient patterns that often defy contemporary culture Book Jacket *Hermeneutics of Human-Animal Relations in the Wake of Rewilding* Mateusz Tokarski,2019-05-21 In consequence of significant social political economic and demographic changes several wildlife species are currently growing in numbers and recolonizing Europe While this is rightly hailed as a success of the environmental movement the return of wildlife brings its own issues As the animals arrive in the places we inhabit we are learning anew that life with wild nature is not easy especially when the accumulated cultural knowledge and experience pertaining to such coexistence have been all but lost This book provides a hermeneutic study of the ways we come to understand the troubling impacts of wildlife by exploring and critically discussing the meanings of ecological discomforts Thus it begins the work of rebuilding the culture of coexistence The cases presented in this book range from crocodile attacks to mice infestations and their analysis consequently builds up an ethics that sees wildlife as active participants in the shaping of human moral and existential reality This book is of interest not only to environmental philosophers who will find here an original contribution to the established ethical discussions but also to wildlife managers and even to those members of the public who themselves struggle to make sense of encounters with their new wild neighbors

Senses Regina Bendix,Donald Brenneis,2005 The essays in this volume present deeply contextualized cases of sensory experience They link senses to each other and to event sentiment emplacement identity and the ongoing shaping of social life In doing so they make a strong Joint case for the importance of taking the senses seriously not in isolation but as integral elements of culture and interaction Encyclopedia of Ecology Brian D. and contradictory experiences of armed civilian women female soldiers and opponents of gun possession How is feminism and femininity negotiated in the early 21st century by civilian and military women in a nation that fetishizes guns This book addresses this social problem by offering a comparative analysis of the particular dilemmas that gender inequality class inequality race racism and U S nationalism generate for women of diverse backgrounds who are struggling to balance conventional gender roles femininity and gendered violence in the United States *Hunting* Jan E. Dizard, Mary Zeiss Stange, 2022-10-04 The history of hunting from Stone Age hunter gatherers to today's sport hunters Hunting has a long history beginning with our hominid ancestors The invention of the spear allowed early humans to graduate from scavenging to actual hunting The famous cave paintings at Lascaux show a meticulous knowledge of animal behavior and anatomy that only a hunter would have This volume in the MIT Press Essential Knowledge series traces the evolution of hunting from Stone Age hunting and gathering to today's regulated sport hunting Humans have been hunting since we became human but did hunting make us human The authors consider and question the hunting hypothesis of human origins noting that according to this theory hunting meant hunting by men They explore hunting in the Stone Age and how beginning some ten thousand years ago the spread of agriculture led to the emergence of empires and attempts by elites to monopolize hunting They examine the democratization of hunting in the American colonies and how hunters decimated but then in the twentieth century rallied to save game animals from extinction They describe how some European and postcolonial societies have managed wildlife and hunting consider the difficulties of living with abundant wildlife even as many nongame species are disappearing and trace the implications of the increasing participation of women in hunting for the future of hunting

Encyclopedia of American Folklife Simon J. Bronner, 2015-03-04 American folklife is steeped in world cultures or invented as new culture always evolving yet often practiced as it was created many years or even centuries ago This fascinating encyclopedia explores the rich and varied cultural traditions of folklife in America from barn raisings to the Internet tattoos and Zydeco through expressions that include ritual custom crafts architecture food clothing and art Featuring more than 350 A-Z entries *Encyclopedia of American Folklife* is wide ranging and inclusive Entries cover major cities and urban centers new and established immigrant groups as well as native Americans American territories such as Guam and Samoa major issues such as education and intellectual property and expressions of material culture such as homes dress food and crafts This encyclopedia covers notable folklife areas as well as general regional categories It addresses religious groups reflecting diversity within groups such as the Amish and the Jews age groups both old age and youth gangs and contemporary folk groups skateboarders and psychobillies placing all of them in the vivid tapestry of folklife in America In addition this resource offers useful insights on folklife concepts through entries such as community and group and tradition and culture The set also features complete indexes in each volume as well as a bibliography for further research **Youth Cultures in America** Simon J. Bronner, Cindy Dell Clark, 2016-03-21 What are the components of youth cultures today This encyclopedia examines

the facets of youth cultures and brings them to the forefront Although issues of youth culture are frequently cited in classrooms and public forums most encyclopedias of childhood and youth are devoted to history human development and society A limitation on the reference bookshelf is the restriction of youth to pre adolescence although issues of youth continue into young adulthood This encyclopedia addresses an academic audience of professors and students in childhood studies American studies and culture studies The authors span disciplines of psychology sociology anthropology history and folklore The Encyclopedia of Youth Cultures in America addresses a need for historical social and cultural information on a wide array of youth groups Such a reference work serves as a corrective to the narrow public view that young people are part of an amalgamated youth group or occupy malicious gangs and satanic cults Widespread reports of bullying school violence dominance of athletics over academics and changing demographics in the United States has drawn renewed attention to the changing cultural landscape of youth in and out of school to explain social and psychological problems

Adventures in a Man's World Courtney Letts de Espil, Courtney Borden, 2005 How does it happen that a nice upper class city girl born at the turn of the 20th century and raised to expect a life of pampered luxury finds herself shivering in a frigid Saskatchewan duck blind Her husband John Borden was an avid sportsman and she accepted his invitation to join in the action So the early twentieth century woman takes up upland bird shooting waterfowling fly fishing and other outdoor sports Adventures in a Man's World is a bracing collection of smartly crafted hunting stories
