Mortuary Practices And Skeletal Remains At Teotihuacan:

Mortuary Practices and Skeletal Remains at Teotihuacan Martha Lou Sempowski, Michael W. Spence, 1994 **Art, Ideology, and the City of Teotihuacan** Janet Catherine Berlo, 1992 **Urbanization at Teotihuacán, Mexico:**

Mortuary practices and skeletal remains at Teotihuacan René Millon, 1973 *Human Sacrifice, Militarism, and Rulership* Saburo Sugiyama, 2005-03-10 Teotihuacan was one of the earliest and more populous preColumbian cities and the Feathered Serpent was its vital monument erected circa 200 AD This work explores the religious meanings and political implications of the pyramid with meticulous and thorough analyses of substantially new excavation data Challenging the traditional view of the city as a legendary sacred or anonymously governed centre the book provides significant new insights on the Teotihuacan polity and society It provides interpretations on the pyramid's location architecture sculptures iconography mass sacrificial graves and rich symbolic offerings and concludes that the pyramid commemorated the accession of rulers who were inscribed to govern with military force on behalf of the gods This archaeological examination of the monument shows it to be the physical manifestation of state ideologies such as the symbolism of human sacrifice militarism and individual centred divine authority ideologies which were later diffused among other Mesoamerican urban centres

The Maya and Teotihuacan Geoffrey E. Braswell, 2009-07-21 The contributors to this volume present extensive new evidence from archaeology iconography and epigraphy to offer a more nuanced understanding of the interaction between the Early Classic Maya and Teotihuacan Winner Choice Outstanding Academic Book 2005 Since the 1930s archaeologists have uncovered startling evidence of interaction between the Early Classic Maya and the great empire of Teotihuacan in Central Mexico Yet the exact nature of the relationship between these two ancient Mesoamerican civilizations remains to be fully deciphered Many scholars have assumed that Teotihuacan colonized the Maya region and dominated the political or economic systems of certain key centers perhaps even giving rise to state level political organizations Others argue that Early Classic rulers merely traded with Teotihuacan and skillfully manipulated its imported exotic goods and symbol sets to increase their prestige Moving beyond these traditional assumptions the contributors to this volume present extensive new evidence from archaeology iconography and epigraphy to offer a more nuanced understanding of the interaction between the Early Classic Maya and Teotihuacan Investigating a range of Maya sites including Kaminaljuyu Cop n Tikal Altun Ha and Oxkintok they demonstrate that the influence of Teotihuacan on the Maya varied in nature and duration from site to site requiring a range of models to explain the patterns of interaction Moreover they show that the interaction was bidirectional and discuss how the Maya in turn influenced Teotihuacan

Teotihuacan Matthew Robb, 2017-09-26 Founded in the first century BCE near a set of natural springs in an otherwise dry northeastern corner of the Valley of Mexico the ancient metropolis of Teotihuacan was on a symbolic level a city of elements With a multiethnic population of perhaps one hundred thousand at its peak in 400 CE it was the cultural political economic and religious center of ancient Mesoamerica A devastating fire in the city center led

to a rapid decline after the middle of the sixth century but Teotihuacan was never completely abandoned or forgotten the Aztecs revered the city and its monuments giving many of them the names we still use today Teotihuacan City of Water City of Fire examines new discoveries from the three main pyramids at the site the Sun Pyramid the Moon Pyramid and at the center of the Ciudadela complex the Feathered Serpent Pyramid which have fundamentally changed our understanding of the city's history With illustrations of the major objects from Mexico City's Museo Nacional de Antropología and from the museums and storage facilities of the Zona de Monumentos Arqueológicos de Teotihuacan along with selected works from US and European collections the catalogue examines these cultural artifacts to understand the roles that offerings of objects and programs of monumental sculpture and murals throughout the city played in the lives of Teotihuacan's citizens Published in association with the Fine Arts Museums of San Francisco Exhibition dates de Young San Francisco September 30 2017 February 11 2018 Los Angeles County Museum of Art LACMA March June 2018 *Janaab' Pakal of Palenque* Vera Tiesler, Andrea Cucina, 2017-11-07 Excavations of Maya burial vaults at Palenque Mexico half a century ago revealed what was then the most extraordinary tomb finding of the pre-Columbian world its discovery has been crucial to an understanding of the dynastic history and ideology of the ancient Maya This volume communicates the broad scope of applied interdisciplinary research conducted on the Pakal remains to provide answers to old disputes over the accuracy of both skeletal and epigraphic studies along with new questions in the field of Maya dynastic research A benchmark in biological anthropology that presents an updated study of a well-known personage the volume also offers innovative approaches to the biocultural and interdisciplinary re-creation of Maya dynastic history **Mesoamerican Plazas** Kenichiro Tsukamoto, Takeshi Inomata, 2014-04-10 This is the first book to examine the roles of plazas in ancient Mesoamerica It argues persuasively that physical interactions among people in communal events were not the outcomes of political machinations held behind the scenes but were the actual political processes through which people created negotiated and subverted social realities **FORENSIC OSTEOLOGICAL ANALYSIS** Scott I. Fairgrieve, 1999-01-01 This timely volume on case studies in forensic osteology with background information on how osteological analysis is applied to human faunal remains found in legal contexts is primarily designed for students of forensic anthropology osteology who have a background in human anatomy and/or osteology It also will be of interest to those individuals lacking this background and who may very well want to read the book for its many case studies Although many journals publish case reports there are instances when a more detailed and full description of circumstances are warranted Further beginning students initially require a more thorough treatment of the thinking behind the application of analytical techniques an important aspect that may not be covered in the professional literature Based on the foregoing the premise of this book is that each case has a unique quality and thus presents unique problems for the analyst to approach It is important for the reader to understand the limits for forensic osteology by examining not only its successes but also its failures This book presents this type of information The chapters

Handbook of Landscape Archaeology Bruno David, Julian Thomas, 2016-06-03 Over the past three decades landscape has become an umbrella term to describe many different strands of archaeology From the processualist study of settlement patterns to the phenomenologist s experience of the natural world from human impact on past environments to the environment s impact on human thought action and interaction the term has been used In this volume for the first time over 80 archaeologists from three continents attempt a comprehensive definition of the ideas and practices of landscape archaeology covering the theoretical and the practical the research and conservation and encasing the term in a global framework As a basic reference volume for landscape archaeology this volume will be the benchmark for decades to come All royalties on this Handbook are donated to the World Archaeological Congress

Architectural Heritage Revisited Ilan Vit-Suzan, 2016-04-15 By improving our understanding of how the tangible and intangible dimensions of heritage are correlated we could develop a relationship with heritage that goes beyond the mere act of conservation This book argues that we need to recognize the historic monument as a tangible aspect of a holistic expression of culture that is rooted in specific spatio temporal conditions However since the latter are constantly changing it is vital to identify an implicit contradiction with the goals of conservation As the intangible dimensions are more dynamic driven by the transmission reception and advancement of knowledge the reliance of the prevailing treatment of heritage today ossifies this relationship By examining three major heritage monuments the Pantheon Teotihuacan s Sun Pyramid and Alhambra the book shows how these sites are the product of multiple strategies and unforeseen agents accumulated through history It emphasizes how these historical trends need to be better understood in order to attain a more organic relationship with heritage and offers some recommendations that should be analyzed in participative processes of deliberation the Pantheon s continuity could be extended the Pyramid s loss accepted and Alhambra s exclusion reversed In this way the book invites people to engage heritage from a historical understanding that is open to critical reassessment dialogue and cooperation

Bioarchaeology Clark Spencer Larsen,2015-03-30 A synthetic treatment of the study of human remains from archaeological contexts for current and future generations of bioarchaeologists **Women in Ancient America** Karen Olsen Bruhns,Karen E. Gender, Households, and Society Cynthia Robin,Elizabeth M. Brumfiel,2010-03-15 This volume demonstrates how archaeological data viewed through the lens of gender studies can lead researchers to question and reformulate current models of household organization subsistence and craft production ritual performance and the structure of ancient states Challenges existing models of prehistoric society that assume the existence of rigidly binary gender systems Part of the Archaeological Papers of the American Anthropological Association Series **New Perspectives on Human Sacrifice and Ritual Body Treatments in Ancient Maya Society** Vera Tiesler,Andrea Cucina,2007-02-15 The central goal of this book is to contribute to the timely discussion and understanding of Maya sacrifice and related posthumous body manipulation Most school children in the US learn about the Maya and their practices based on their cultural and religious beliefs in their Social Studies classes But a number of new sites have been discovered giving an interdisciplinary group of researchers a channel to discuss these acts and their meaning The editors bring together not only archaeologists but anthropologists forensic anthropologists art historians and bioarchaeologists giving the volume a more complete perspective on these sites and the material culture and biological evidence found there The field of archaeology is growing to include the physical remains of ritual practice along with the material remains and this book can be seen as an example of who the study of ancient civilizations can be more comprehensive Additionally this is an international volume with scholars from the area studied which is becoming more and more important in archaeological research This will be of interest to students studying Mayan and Mesoamerican culture as well as those interested in bioarchaeology and human sacrifice **Women in Archaeology** Sandra L. López Varela,2023-07-12 This book tells the story of women in archaeology worldwide and their dedication to

advancing knowledge and human understanding In their own voices they present themselves as archaeologists working in academia or the private and public sector across 33 countries The chapters in this volume reconstruct the history of archaeology while honoring those female scholars and their pivotal research who are no longer with us Many scholars in this volume fiercely explore non traditional research areas in archaeology The chapters bear witness to their valuable and unique contributions to reconstructing the past through innovative theoretical and methodological approaches In doing so they share the inherent difficulties of practicing archaeology not only because they too are mothers sisters and wives but also because of the context in which they are writing This volume may interest researchers in archaeology history of science gender studies and feminist theory Chapter 11 is available open access under a Creative Commons Attribution 4 0 International License via link [springer com](https://www.springer.com)
