Mosaic of Poems Bernice Claire McCollum,1986 Middlebury College Magazine ,1985 **Morford's New Monthly Magazine** ,1879 **The Canadian Forum** ,1956 Includes critical reviews Harlem Mosaics Whit Frazier,2021-05-20

The year is 1927 and Zora Neale Hurston and Langston Hughes are feverish with youth gin and artistic ambition They are riding high on the achievements of the Harlem Renaissance the most dynamic and shocking literary movement in American history To make their mark on the world they decide to write an authentic African American opera rooted in the folktales and songs of the South Despite these lofty ambitions the messiness of everyday life and the pressures of patronage get in the way The blues opera Hughes and Hurston work so hard on never materializes At first it s simply reduced to a play Then its very ownership is brought into dispute Eventually Hughes and Hurston s friendship comes to a final and irreparable end Through all their arguments love affairs discussions and diversions the characters work to create a new modernism that is both accessible and relevant to contemporary Black life and to the generations of readers and writers artists and poets both Black and white to follow Harlem Mosaics is a fictional reimagining of true events In lyrical prose that evokes the heady 1920 s it tells a story that reads as a cautionary tale a love story and a social novel reintroducing us to these brilliant and important artists The novel includes an introduction by Marc Primus of the Afro American Folkloric Troupe who knew and produced the works of both Langston Hughes and Zora Neale Hurston *Mosaics of Knowledge* Andrew M. Riggsby,2019 Today s information technology often seems to take on a life of its own spreading into every part of our lives In the Roman world things were different Technologies were limited to small scattered social groups By examining five technologies lists tables weights and measures artistic perspective and mapping Mosaics of Knowledge demonstrates how the Romans broke up a world we might have imagined them to unite That is the recording storage and recall of information in physical media might be expected to bind together persons distant in time and space More often than not however Roman instances serve to create or reinforce the isolation of particular groups Persons in different locations whether those are geographical social or occupational had access to quite different informational resources and the overall situation is thus not controlled by the needs of any particular class or group On the one hand these constraints on use in turn constrain the development and power of individual technologies Development is slow scattered and far from one directional On the other seeming technological weaknesses can turn out to be illusory if we set them in actual use contexts Romans deploy no more but also no less computing power than needed for very narrowly defined goals This study combines detailed readings of a wide variety of evidence inscriptions small archeological finds artworks literary texts with theoretical consideration of the social cognitive and material contexts for their use to present a unique portrait of Roman IT capabilities limitations and habits The Art Journal ,1876 *Commonweal* ,1928 **Dr. William Smith's Dictionary of the Bible** Sir William Smith,1877
