Moscow In World War II:

Moscow in World War II Cathy Porter, Mark Jones, 1987 **The Greatest Battle** Andrew Nagorski, 2008 A new and beautifully researched account of what had been a poorly understood part of the war New York Review of Books A fine diplomatic and military history but its real triumph is in the voices of the survivors of the Battle of Moscow Washington Post The Battle for Moscow which took place from September 1941 to April 1942 was the biggest battle of World War II indeed the biggest battle of all time Seven million troops were involved The combined losses of both sides amounted to 2.5 million men 2 million on the Russian side Even Stalingrad immortalised in Antony Beevor's classic work involved half as many troops and less than half as many losses But most of all this battle turned the course of the whole war Hitler had declared war on the Soviet Union and hoped for a swift victory Had Moscow fallen Hitler might have won the war but in the bitter winter the Soviet army held the Germans back But Stalin committed huge strategic blunders initially refusing to arm his troops after Hitler sent his troops east without winter clothing and his reign of terror caused mass looting in Moscow and the flight of half its citizens As a result the Soviets suppressed the full story of the battle and only now have the secret archives been declassified for Andrew Nagorski to tell the full story Anyone gripped and astounded by Stalingrad will find this an amazing account of privation and attrition on an unimaginable scale Andrew Nagorski is a senior editor at Newsweek International He served two tours as Moscow bureau chief and won awards for his foreign reporting He lives in New York *The Greatest Battles in History* Charles River Charles River Editors, 2015-09-17 Includes pictures Includes accounts of the battle written by participants on both sides Includes online resources and a bibliography for further reading Includes a table of contents We underestimated the enemy's strength as well as his size and climate Heinz Guderian World War II was fought on a scale unlike anything before or since in human history and the unfathomable casualty counts are attributable in large measure to the carnage inflicted between Nazi Germany and the Soviet Union during Hitler's invasion of Russia and Stalin's desperate defense The invasion came in 1941 following a nonaggression pact signed between the two in 1939 which allowed Hitler to focus his attention on the west without having to worry about an attack from the eastern front While Germany was focusing on the west the Soviet Union sent large contingents of troops to the border region between the two countries and Stalin's plan to take territory in Poland and the Baltic States angered Hitler By 1940 Hitler viewed Stalin as a major threat and had made the decision to invade Russia In the course of this contest Russia must be disposed of Spring 1941 The quicker we smash Russia the better While a legend exists today that Hitler's strategic fecklessness destroyed Germany's chances despite the wise objections of the Wehrmacht general staff OKW the actual situation in 1941 resembled the precise reverse of this familiar historical trope The historian Robert Forczyk argues convincingly that the Fuhrer retained his full strategic acumen in 1941 until he ill advisedly adopted the suggestions of the OKW and diverted forces in a winter campaign to seize the Soviet capital leading to the Battle of Moscow The Third Reich's dictator initially viewed Moscow as a relatively trivial objective only

to be seized once the Red Army suffered defeat in detail In fact he planned a pause during the bitter Russian winter conserving German strength for a fresh offensive in spring of 1942 Wisely According to Chief of Operations Colonel Heusinger Hitler manifested an instinctive aversion to treading the same path as Napoleon Moscow gives him a sinister feeling Despite the obstructionism of the OKW General Staff centered around Fedor von Bock Franz Halder and Brauschitsch who obsessed over taking Moscow and reacted to the Fuhrer s focus on the south with open rage and contempt the southern offensive went ahead securing another stunning victory over the Soviets and seizing the economically vital Donets Basin In the meantime Stalin immolated hundreds of thousands of his own soldiers in futile attacks against Army Group Center holding the German front facing Moscow Halder ultimately drafted the plan for Operation Typhoon the October 1941 thrust towards Moscow and Hitler showed considerable reluctance to agree to the attack believing it best if the Germans suspended operations until spring Halder and his OKW clique persisted however badgering the Fuhrer until Hitler imprudently yielded to their demands The head of the Third Reich apparently succumbed to Halder s and Bock s importuning mostly due to unrestrained ebullience over the southern success He felt that at this stage nothing could go wrong In doing so he forgot the keenly insightful precept of the 17th century samurai general Oda Nobunaga who declared After a victory tighten your helmet straps Far from maintaining his focus however Hitler relaxed and let his guard down His surrender to Halder s impractical plan signaled the beginning of an ominous reversal of Wehrmacht fortunes whose seeds sprouted at the Battle of Moscow

The Greatest Battles in History The Battle of Moscow During World War II chronicles the operations that saw the Soviets push back the Nazis from their capital Along with pictures of important people places and events you will learn about the Battle of Moscow like never before *The Greatest Battle* Andrew Nagorski, 2007-09-18 The bestselling first authoritative account of the first colossal World War II battle between Germany and the USSR based on previously unavailable documents this is the battle that decided the war and the one that Stalin tried to cover up The battle for Moscow was the biggest battle of World War II the biggest battle of all time And yet it is far less known than Stalingrad which involved about half the number of troops From the time Hitler launched his assault on Moscow on September 30 1941 to April 20 1942 seven million troops were engaged in this titanic struggle The combined losses of both sides those killed taken prisoner or severely wounded were two and a half million of which nearly two million were on the Soviet side But the Soviet capital narrowly survived and for the first time the German Blitzkrieg ended in failure This shattered Hitler s dream of a swift victory over the Soviet Union and radically changed the course of the war The full story of this epic battle has never been told because it undermines the sanitized Soviet accounts of the war which portray Stalin as a military genius and his people as heroically united against the German invader Stalin s blunders incompetence and brutality made it possible for German troops to approach the outskirts of Moscow This triggered panic in the city with looting strikes and outbreaks of previously unimaginable violence About half the city s population fled But Hitler s blunders would soon loom even larger sending his

troops to attack the Soviet Union without winter uniforms insisting on an immediate German reign of terror and refusing to heed his generals pleas that he allow them to attack Moscow as quickly as possible In the end Hitler s mistakes trumped Stalin s mistakes Drawing on declassified documents from Soviet archives including files of the dreaded NKVD on accounts of survivors and of children of top Soviet military and government officials and on reports of Western diplomats and correspondents The Greatest Battle finally illuminates the full story of a clash between two systems based on sheer terror and relentless slaughter Even as Moscow s fate hung in the balance the United States and Britain were discovering how wily a partner Stalin would turn out to be in the fight against Hitler and how eager he was to push his demands for a postwar empire in Eastern Europe In addition to chronicling the bloodshed Andrew Nagorski takes the reader behind the scenes of the early negotiations between Hitler and Stalin and then between Stalin Roosevelt and Churchill This is a remarkable addition to the history of World War II

Moscow 1941 Rodric Braithwaite,2007-10-09 In 1941 close to one million Russian soldiers died defending Moscow from German invasion more casualties than that of the United States and Britain during all of World War II Many of these soldiers were in fact not soldiers at all but instead ordinary people who took up arms to defend their city Students dropped their books for guns released prisoners exchanged their freedom for battle and women fought alongside men on the bloody mud covered frozen road to Moscow By the time the United States entered the war the Germans were already retreating and a decisive victory had been won for the Allies With extensive research into the lives of soldiers politicians writers artists workers and children Rodric Braithwaite creates a richly detailed narrative that captures this crucial moment Moscow 1941 is a dramatic unforgettable portrait of an often overlooked battle that changed the world

The Battle of Moscow 1941-1942 Soviet General Staff,2015-06-19 The Battle of Moscow 1941 1942 The Red Army s Defensive Operations and Counteroffensive Along the Moscow Strategic Direction is a detailed examination of one of the major turning points of World War II as seen from the Soviet side The Battle of Moscow marked the climax of Hitler s Operation Barbarossa which sought to destroy the Soviet Union in a single campaign and ensure German hegemony in Europe The failure to do so condemned Germany to a prolonged war it could not win This work originally appeared in 1943 under the title Razgrom Nemetskikh Voisk pod Moskvoy The Rout of the German Forces Around Moscow The work was produced by the Red Army General Staff s military historical section which was charged with collecting and analyzing the war s experience and disseminating it to the army s higher echelons This was a collective effort featuring many different contributors with Marshal Boris Mikhailovich Shaposhnikov former chief of the Red Army General Staff and then head of the General Staff Academy serving as general editor The book is divided into three parts each dealing with a specific phase of the battle The first traces the Western Front s defensive operations along the Moscow direction during Army Group Center s final push toward the capital in November December 1941 The study pays particular attention to the Red Army s resistance to the Germans attempts to outflank Moscow from the north Equally important were the defensive operations to the south of

Moscow where the Germans sought to push forward their other encircling flank The second part deals with the first phase of the Red Army's counteroffensive which was aimed at pushing back the German pincers and removing the immediate threat to Moscow Here the Soviets were able to throw the Germans back and flatten both salients particularly in the south where they were able to make deep inroads into the enemy front to the west and northwest The final section examines the further development of the counteroffensive until the end of January 1942 This section highlights the Soviet advance all along the front and their determined but unsuccessful attempts to cut off the Germans Rzhev Vyazma salient It is from this point that the front essentially stabilized after which events shifted to the south This new translation into English makes available to a wider readership this valuable study *Architect of Soviet Victory in World War II* Richard W. Harrison, 2010-04-13 The Red Army's leading operational theorist in the 1930s Georgii Samoilovich Isserson was the mastermind behind the deep operation the cornerstone of Soviet offensive operations in World War II Drawing from an in depth analysis of Isserson's numerous published and unpublished works his arrest file in the former KGB archives and interviews with his family this book provides the first full length biography of the man The bulk of the narrative deals with the flowering of his intellectual talents from 1929 through 1941 Additional chapters deal with Isserson's arrest and his remaining 35 years 14 of which were spent in labor camps and internal exile **The Story of World War II** Henry Steele Commager, Donald L. Miller, 2010-05-11

Drawing on previously unpublished eyewitness accounts prizewinning historian Donald L Miller has written what critics are calling one of the most powerful accounts of warfare ever published Here are the horror and heroism of World War II in the words of the men who fought it the journalists who covered it and the civilians who were caught in its fury Miller gives us an up close deeply personal view of a war that was more savagely fought and whose outcome was in greater doubt than readers might imagine This is the war that Americans at the home front would have read about had they had access to the previously censored testimony of the soldiers on which Miller builds his gripping narrative Miller covers the entire war on land at sea and in the air and provides new coverage of the brutal island fighting in the Pacific the bomber war over Europe the liberation of the death camps and the contributions of African Americans and other minorities He concludes with a suspenseful never before told story of the atomic bombing of Nagasaki based on interviews with the men who flew the mission that ended the war **Central Asia in World War Two** Vicky Davis, 2023-12-14

Central Asia has long been situated at the geographical crossroads of East and West once strategically located on the ancient Silk Road The envy of the expanding Russian empire it was colonized in the 19th century by Cossacks and traders from the north This book examines how Central Asia by then part of the Soviet Union experienced population displacements on an even greater scale during the Second World War Vicky Davis analyses how troops were sent westwards into action only for waves of civilians to travel eastwards into the region evacuees refugees and even internal deportees sent into exile from their homelands in other parts of the vast Soviet Union *Central Asia in World War Two* is the first book to tackle the subject of minorities fighting for the

Soviet Union under Stalin in the Second World War Based on meticulous archival research it considers the interactions of the individual citizen and the Soviet state weaving together the experiences of over three hundred ordinary men and women in Central Asia as they coped with their new roles on the front line or in the rear Suffering incredible economic and physical hardship racism and religious oppression these mainly Muslim citizens were subjected to a forced process of Sovietization under the influence of Stalin s ubiquitous propaganda machine Davis reveals how while conscripts were all too often slaughtered or scapegoated in their regiments the women and children left at home slaved in factories and communal farms to fuel the machinery of a war taking place thousands of kilometres away She convincingly argues that the impact of forced assimilation cultural indoctrination anti-Semitism and re-education on the region were as great as the daily fight for survival in wartime The legacy of the period is almost as complex with struggles over the ownership and revision of history continuing even today

The Memory of the Second World War in Soviet and Post-Soviet Russia David L. Hoffmann, 2021-08-26 This volume showcases important new research on World War II memory both in the Soviet Union and in Russia today Through an examination of war remembrance in its various forms official histories school textbooks museums monuments literature films and Victory Day parades chapters illustrate how the heroic narrative of the war was established in Soviet times and how it continues to shape war memorialization under Putin This war narrative resonates with the Russian population due to decades of Soviet commemoration which continued virtually uninterrupted into the post-Soviet period Major themes of the volume include the use of World War II memory for political legitimation and patriotic mobilization the striking continuities between Soviet and post-Soviet commemorative practices the place of Holocaust memorialization in contemporary Russia Putin s invocation of the war to bolster national pride and international prestige and the relationship between individual memory and collective remembrance Authored by an international group of distinguished specialists this collection is ideal for scholars of Russia across a range of disciplines including history political science sociology and cultural studies

Soviet Bombers of the Second World War Jason Nicholas Moore, 2019-09-08 Soviet bombers were a varied lot during the Second World War ranging from single-engined biplanes such as the 1920 s era Polikarpov U-2 to the excellent and modern twin-engined Tu-2 medium bomber Although the use of four-engined strategic bombers was mostly limited to use of the huge Pe-8 bomber the Soviets used many other aircraft for both strategic and tactical bombing As the bombers of the Red Air Force were mainly tasked with supporting the Red Army most of the bombers were used for tactical bombing attacking tanks troop convoys trains and airfields This book will deal with both strategic bombers and tactical bombers but will concentrate on the smaller tactical bombers as this is where the Red Air Force s emphasis lay Such types as the Il-4 the Su-2 the aforementioned Tu-2 and the most important bomber of all the Il-2 Shturmovik attack bomber will be described in great detail including not only details on the aircraft themselves but how they were deployed in combat The one truly strategic bomber the Pe-8 will not be forgotten and neither will the comparatively tiny U-2 biplane which was so effective in its use as a night-time nuisance raider

directed at the suppression and punishment of war crimes Indeed steps have already been initiated to set up war crimes tribunals to prosecute those responsible for such atrocities Not to be outdone Yeltsin s Foreign Minister has also issued a call for public discussion of the idea of creating a system of international criminal justice with regard to crimes against peace and humanity other international violations of the law The precedents of the Second World War in this venue thus seem relevant once again Since the Soviet Union played a leading role in paving the way for the Nuremberg trial and respective proceedings before national tribunals and Russia as self proclaimed heir and successor to the USSR continues to exercise a great deal of influence in these matters today a look at Moscow s doctrinal and practical scorecard may prove useful for future reference The present study explores the Soviet regime s contribution to the prehistory of the Nuremberg trial i e the repertory of official acts and pronouncements as well as scholarly treatment of issues which ultimately shaped the legal complexion of the Nuremberg test Our focus in this case is on the mode of development of the style and substance of the bill of indictment until the day of the court s opening session from the standpoint of Moscow s stake in the operation The views recorded during the trial in primary or secondary sources or those expressed later are taken into account only if they shed light on the preparatory stages of the drama The subsequent evolution of Moscow s thoughts on the subject deserves a separate full scale analysis

Moscow 1941 Rodric Braithwaite,2010-12-09 The story of the invasion of Moscow told through its people Fought over a territory the size of France the Battle of Moscow in 1941 cost the Russians as many casualties as the British lost in WW1 It marked the first strategic defeat of the Wehrmacht and halted their seemingly unstoppable advance across Europe This is the story of that battle and the ordinary men and women who fought it Based on huge research and scores of interviews this book offers an unforgettable and richly illustrated narrative of the military action that took place in Moscow during 1941 It paints telling portraits of Stalin and his generals some apparatchiks some great commanders It also traces the individual stories of soldiers politicians and intellectuals writers and artists and dancers workers schoolchildren and peasants Putin s invocations in contemporary propaganda shows that the Great Patriotic War remains highly emotional for Russia and many former Socialist Republics Many of these countries must grapple with troubling legacies behind the appalling cost of victory from the role of

Stalin to the complicity of collaborationist forces from the occupied USSR in atrocities both behind the front line and the rapid Nazi advance
