**Contemplations on the Ten Commandments Vol. 2** H.H. Pope Shenouda III, 1993-07-02 The Ten Commandments were not meant for the times of the prophet Moses nor the times of the Old Testament but were rather addressed to every generation till heaven and earth pass away one jot or one tittle will by no means pass from the law Matt 5 18 Through Christianity the Ten Commandments were given a new meaning which coincided with the new standards understood by the believers in the New Testament So the Commandments remain the same but their concept widens as God grants with His grace an opportunity for meditation How true then was the prophet David when he said I have seen the consummation of all perfection But Your commandment is exceedingly broad Ps 119 96 This series of lectures were given in 1967 and have been published more than once Pope Shenouda III *The Ten Commandments and Human Rights* Walter J. Harrelson, 1997 The Ten Commandments and Human Rights sets out to evaluate the importance of the Ten Commandments for the life of faith today The general thesis is that the commandments are immensely important not only for Jews and Christians but for all persons seeking to find or to reaffirm a moral foundation for their life and for the life of their children their religious community and their society The fact that the commandments are put negatively is immensely important for it means that the community that claims these commandments and builds on them has to work out for itself the positive import of not having other gods not worshipping idols not profaning the sabbath not killing and stealing and committing adultery Put negatively these commitments become the groundwork for a humanly free and responsible search for the will of God for individual family and corporate life today and in any day It is true that the commandments originate in ancient Israel are central to the faith of prophets priests and sages and are claimed and made foundational by Jesus for the Christian community But these commandments also share much with for example the Universal Declaration of Human Rights which has been presented by the United Nations for adoption by all the nations of earth The Ten Commandments and Human Rights seeks to show how to

avoid moralistic use of the Ten Commandments in religious life today while still affirming that there are absolutely foundational prohibitions that can and must guide the moral life of all peoples The Ten Commandments need very little revision in order to become such a foundation for a free and responsible life today **The Story of Moses and the Ten Commandments** ,1981
