Weitz, 2015-04-27 Why did the twentieth century witness unprecedented organized genocide

Can we learn why genocide is perpetrated by comparing different cases of genocide Is the Holocaust unique or does it share causes and features with other cases of state sponsored mass murder Can genocide be prevented Blending gripping narrative with trenchant analysis Eric Weitz investigates four of the twentieth century s major eruptions of genocide the Soviet Union under Stalin Nazi Germany Cambodia under the Khmer Rouge and the former Yugoslavia Drawing on historical sources as well as trial records memoirs novels and poems Weitz explains the prevalence of genocide in the twentieth century and shows how and why it became so systematic and deadly Weitz depicts the searing brutality of each genocide and traces its origins back to those most powerful categories of the modern world race and nation He demonstrates how in each of the cases a strong state pursuing utopia promoted a particular mix of extreme national and racial ideologies In moments of intense crisis these states targeted certain national and racial groups believing that only the annihilation of these enemies would enable the dominant group to flourish And in each instance large segments of the population were enticed to join in the often ritualistic actions that destroyed their neighbors This book offers some of the most absorbing accounts ever written of the population purges forever associated with the names Stalin Hitler Pol Pot and Milosevic A controversial and richly textured comparison of these four modern cases it identifies the social and political forces that produce genocide Race and the Production of Modern American Nationalism Reynolds J. Scott-Childress, 2014-01-14 This important book addresses the ways race has both helped and hindered Americans in determining national identity Contributors consider race and American nationalism from a variety of historical and disciplinary vantage points Beginning with the aftermath of the Civil War and unfolding chronologically through to the present the essays examine a multitude of different groups Japanese Americans Chinese Americans Puerto Ricans African Americans whites Jews Irish Americans German Americans by examining race and nationalism represented in public memorials photography film classic and minor literature gender issues legal studies and more The book offers rereadings of some of the pivotal figures in American culture and politics including Herman Melville Frances Harper William James Frederic Remington Charles Francis Adams W E B DuBois George Creel Zora Neale Hurston Louis Chu and others In the course of these essays readers will learn how Americans in different periods and circumstances have grappled with the changing issues of defining race and of defining American as a race as a nationality or as both *Affordable Housing in New York* Nicholas Dagen Bloom, Matthew Gordon Lasner, 2019-12-31 A richly illustrated history of below market housing in New York from the 1920s to today A colorful portrait of the people places and policies that have helped make New York City livable Affordable Housing in New York is a comprehensive authoritative and richly illustrated history of the city s public and middle income housing from the 1920s to today Plans models archival photos and newly commissioned portraits of buildings and tenants by sociologist and photographer David Schalliol put the efforts of the past century into context and the book also looks ahead to future prospects for below market subsidized housing A dynamic account of an evolving city Affordable Housing in New York is essential reading for

**Bloodshed at Little Bighorn** Tim Lehman, 2010-05-17 Winner 2011 High Plains Book Award Nonfiction Commonly known as Custer's Last Stand the Battle of Little Bighorn may be the best recognized violent conflict between the indigenous peoples of North America and the government of the United States Incorporating the voices of Native Americans soldiers scouts and women Tim Lehman's concise compelling narrative will forever change the way we think about this familiar event in American history On June 25 1876 General George Armstrong Custer led the United States Army's Seventh Cavalry in an attack on a massive encampment of Sioux and Cheyenne Indians on the bank of the Little Bighorn River What was supposed to be a large scale military operation to force U.S. sovereignty over the tribes instead turned into a quick brutal rout of the attackers when Custer's troops fell upon the Indians ahead of the main infantry force By the end of the fight the Sioux and Cheyenne had killed Custer and 210 of his men The victory fueled hopes of freedom and encouraged further resistance among the Native Americans For the U.S. military the lost battle prompted a series of vicious retaliatory strikes that ultimately forced the Sioux and Cheyenne into submission and the long nightmare of reservation life This briskly paced vivid account puts the battle's details and characters into a rich historical context Grounded in the most recent research attentive to Native American perspectives and featuring a colorful cast of characters *Bloodshed at Little Bighorn* elucidates the key lessons of the conflict and draws out the less visible ones This may not be the last book you read on Little Bighorn but it should be the first

**A Hundred Acres of America** Michael Hoberman, 2019 In *A Hundred Acres of America* The Geography of Jewish American Literary History Michael Hoberman introduces cultural geography as an alternative approach to the immigrant model Cultural geography allows Hoberman to restore Jewish American writers to their roles as important active members of the American literary landscape from the 1850s to the present and to argue that Jewish history American literary history and the inhabitation of American geography are and always have been contiguous entities *A Hundred Acres of America* makes its case by investigating both canonical and extra canonical literary depictions of six geographies the frontier the small town the urban the suburban America as seen from Europe and Israel as seen from America Hoberman reads dozens of representative texts closely and analyzes a wide range of authors from frontier era memoirists and turn of the century native born reformers to contemporary novelists He adroitly demonstrates that Jewish American authors are not only present throughout American literary history but actively shaped this history with writings that often subverted or contradicted the ways their non Jewish peers depicted these geographies
