The Ethics and Poetics of Alterity in Asian American Poetry Xiaojing Zhou, 2006-05 Poetry by Asian American writers has had a significant impact on the landscape of contemporary American poetry and a book length critical treatment of Asian American poetry is long overdue In this groundbreaking book Xiaojing Zhou demonstrates how many Asian

American poets transform the conventional I of lyric poetry based on the traditional Western concept of the self and the Cartesian I to enact a more ethical relationship between the I and its others Drawing on Emmanuel Levinas's idea of the ethics of alterity which argues that an ethical relation to the other is one that acknowledges the irreducibility of otherness Zhou offers a reconceptualization of both self and other Taking difference as a source of creativity and turning it into a form of resistance and a critical intervention Asian American poets engage with broader issues than the merely poetic They confront social injustice against the other and call critical attention to a concept of otherness which differs fundamentally from that underlying racism sexism and colonialism By locating the ethical and political questions of otherness in language discourse aesthetics and everyday encounters Asian American poets help advance critical studies in race gender and popular culture as well as in poetry The Ethics and Poetics of Alterity is not limited however to literary studies it is an invaluable response to the questions raised by increasingly globalized encounters across many kinds of boundaries The Poets Marilyn Chin Kimiko Hahn Myung Mi Kim Li Young Lee Timothy Liu David Mura and John Yau

Asian American Poets Guiyou Huang, 2002-05-30 Even though Asian American literature is enjoying an impressive critical popularity attention has focused primarily on longer narrative forms such as the novel And despite the proliferation of a large number of poets of Asian descent in the 20th century Asian American poetry remains a neglected area of study Poetry as an elite genre has not reached the level of popularity of the novel or short story partly due to the difficulties of reading and interpreting poetic texts The lack of criticism on Asian American poetry speaks to the urgent need for scholarship in this area since perhaps more than any other genre poetry most forcefully captures the intense feelings and emotions that Asian Americans have experienced about themselves and their world This reference book overviews the tremendous cultural contributions of Asian American poets Included are alphabetically arranged entries on 48 American poets of Asian descent most of whom have been active during the latter half of the 20th century Each entry begins with a short biography which sometimes includes information drawn from personal interviews The entries then discuss the poet's major works and themes including such concerns as family racism sexism identity language and politics A survey of the poet's critical reception follows In many cases the existing criticism is scant and the entries offer new readings of neglected works The entries conclude with bibliographies of primary and secondary texts and the volume closes with a selected general bibliography
