**Sisterhood Questioned?** Christine Bolt, 2004 This work assesses the nature and impact of divisions in the twentieth century American and British women's movements In this lucidly written study Christine Bolt sheds new light on these differences which flourished in an era of political reaction economic insecurity polarizing nationalism and resurgent anti feminism The author reveals how the conflicts were seized upon and publicised by contemporaries and how the activists

themselves were forced to confront the increasingly complex tensions In particular the American and British Women s movements grew further apart as British women became more conscious of American money expectation of influence and opposition to the existence of Britain s empire Drawing on a wide range of sources the author demonstrates that women in the twentieth century continued to co operate despite these divisions and that feminist movements remained active right up to and beyond the second wave of feminism in the 1960s *The Darkest Days* Douglas Newton,2014-08-12 The centenary of the outbreak of the First World War may be commemorated by some as a great moment of national history But the standard history of Britain s choice for war is far from the truth Using a wide range of sources including the personal papers of many of the key figures some for the first time historian Douglas Newton presents a new dramatic narrative He interleaves the story of those pressing for a choice for war with the story of those resisting Britain s descent into calamity He shows how the decision to go to war was rushed in the face of vehement opposition in the Cabinet and Parliament in the Liberal and Labour press and in the streets There was no democratic decision for war The history of this opposition has been largely erased from the record yet it was crucial to what actually happened in August 1914 Two days before the declaration of war four members of the Cabinet resigned in protest at the war party s manipulation of the crisis The government almost disintegrated Meanwhile large crowds gathered in Trafalgar Square to hear the case for neutrality and peace Yet this cry was ignored by the government Meanwhile elements of the press the Foreign Office and the Tory Opposition sought to browbeat the government into a quick decision Belgium had little to do with it The key decision to enter the war was made before Belgium was invaded Those bellowing for hostilities were eager for Britain to enter any war in solidarity with Russia and France for the future safety of the British Empire In particular Newton shows how Prime Minister H H Asquith Foreign Minister Sir Edward Grey and First Lord of the Admiralty Winston Churchill colluded to pre empt the decisions of Cabinet to manipulate the parliament and to hurry the nation toward intervention by any means necessary **Industrializing the United States** Heather Price-Wright,2019-09-16 Breathe life into the pages of history with this primary source reader that focuses on the second Industrial Revolution in the United States *Industrializing the United States: Read Along or Enhanced eBook* Heather Price-Wright,2024-02-13 Dive deep into your exploration of history with this social studies book that piques students curiosity about history through dynamic primary sources This book focuses on the 2nd Industrial Revolution in the U S Primary sources give students unique insights and personal connections to history Examples of primary sources include images of children factory workers firefighters at the Triangle Shirtwaist Factory fire New York City circa 1900 an Underwood Typewriter ad political cartoons and many more This 32 page book includes text features that help students increase reading comprehension and their understanding of the subject Packed with interesting facts sidebars and essential vocabulary this book is perfect for reports or projects **Industrializing the United States 6-Pack for Georgia** ,2019-09-16 **A gay little women, by John Strange Winter** Henrietta Eliza V. **Arms and the Woman** Helen M. Cooper, Adrienne Auslander Munich, Susan Merrill Squier, 2000-11-15 Although the themes of women's complicity in and resistance to war have been part of literature from early times they have not been fully integrated into conventional conceptions of the war narrative Combining feminist

literary criticism with the emerging field of feminist war theory this collection explores the role of gender as an organizing principle in the war system and reveals how literature perpetuates the ancient myth of arms and the man The volume shows how the gendered conception of war has both shaped literary texts and formed the literary canon It identifies and interrogates the conventional war text with its culturally determined split between warlike men and peaceful women and it confirms that women's role in relation to war is much more complex and complicitous than such essentializing suggests The contributors examine a wide range of familiar texts from fresh perspectives and bring new texts to light Collectively these essays range in time from the Trojan War to the nuclear age The contributors are June Jordan Lorraine Helms Patricia Francis Cholakian Jane E Schultz Margaret R Higonnet James Longenbach Laura Stempel Mumford Sharon O'Brien Jane Marcus Sara Friedrichsmeyer Susan Schweik Carol J Adams Esther Fuchs Barbara Freeman Gillian Brown Helen M Cooper Adrienne Auslander Munich and Susan Merrill Squier **About Canada: Women's Rights** Penni
