**Margaret Bent**

## **Motet In The Age Of Du Fay:**

**The Motet in the Age of Du Fay** Julie Emelyn Cumming, 1999      **The Motet in the Age of Du Fay** Julie E. Cumming, 2003-10-16 A re evaluation of the Latin texted motet during the age of Du Fay      **The Motet in the Late Middle Ages** Margaret Bent, 2023-11-03 A unique capacity of measured polyphony is to give precisely fixed places not only to musical notes but also to individual words in relation to them and each other The Motet in the Late Middle Ages offers innovative approaches to the equal partnership of music and texts in motets of the fourteenth century and beyond showcasing the imaginative opportunities afforded by this literal kind of intertextuality and yielding a very different narrative from the common complaint that different simultaneous texts make motets incomprehensible As leading musicologist Margaret Bent asserts they simply require a different approach to preparation and listening In this book Bent examines the words and music of motets from many different angles foundational verbal quotations and pre existent chant excerpts and their contexts citations both of words and music from other compositions function dating structure theory and number symbolism Individual studies of these original creations tease out a range of strategies ingenuity playfulness striking juxtapositions and even subversion Half of the thirty two chapters consist of new material the other half are substantially revised and updated versions of previously published articles and chapters organized into seven Parts With new analyses of text and music together new datings new attributions and new hypotheses about origins and interrelationships Bent uncovers little explored dimensions provides a window into the craft and thought processes of medieval composers and opens up many directions for future work      **Hearing the Motet** Dolores Pesce, 1998-12-10 The motet was unquestionably one of the most important vocal genres from its inception in late twelfth century Paris through the Counter Reformation and beyond Heard in both sacred and secular contexts the motet of the Middle Ages and Renaissance incorporated a striking wealth of meaning its verbal textures dense with literary social philosophic and religious reference In Hearing the Motet top scholars in the field provide the fullest picture yet of the motet s music poetic nature investigating the virtuosic interplay of music and text that distinguished some of the genre s finest work and reading individual motets and motet repertoires in ways that illuminate their historical and cultural backgrounds How were motets heard in their own time Did the same motet mean different things to different audiences To explore these questions the contributors go beyond traditional musicological methods at times invoking approaches used in recent literary criticism Providing as well a cutting edge look at performance questions and works by composers such as Josquin Willaert Obrecht Byrd and Palestrina the book draws a valuable new portrait of the motet composer Here intriguingly the motet composer emerges as a reader of the surrounding culture a musician who knew liturgical practice as well as biblical literature and its exegetical traditions who moved in social contexts such as humanist gatherings who understood numerical symbolism and classical allusion who wrote subtle memorie for patrons and who found musical models to emulate and distort Fresh broad ranging and unique Hearing the Motet makes vital reading for scholars

performers and students of medieval and Renaissance music and anyone else with an interest in the musical culture of these periods Contributors include Rebecca A Baltzer Margaret Bent M Jennifer Bloxam David Crook James Haar Paula Higgins Joseph Kerman Patrick Macey Craig Monson Robert Nosow Jessie Ann Owens Dolores Pesce Joshua Rifkin Anne Walters Robertson Richard Sherr and Rob C Wegman      **Ritual Meanings in the Fifteenth-Century Motet** Robert Michael Nosow,2012-02-02 The first large scale study of how fifteenth century motets were used across Western Europe dispelling the mysteries surrounding these outstanding works      The Cambridge History of Fifteenth-Century Music Anna Maria Busse Berger,Jesse Rodin,2015-07-16 Through forty five creative and concise essays by an international team of authors this Cambridge History brings the fifteenth century to life for both specialists and general readers Combining the best qualities of survey texts and scholarly literature the book offers authoritative overviews of central composers genres and musical institutions as well as new and provocative reassessments of the work concept the boundaries between improvisation and composition the practice of listening humanism musical borrowing and other topics Multidisciplinary studies of music and architecture feasting poetry politics liturgy and religious devotion rub shoulders with studies of compositional techniques musical notation music manuscripts and reception history Generously illustrated with figures and examples this volume paints a vibrant picture of musical life in a period characterized by extraordinary innovation and artistic achievement

*Composing Community in Late Medieval Music* Jane D. Hatter,2019-05-02 An exploration of what self referential compositions reveal about late medieval musical networks linking choirboys to canons and performers to theorists      Where Sight Meets Sound Emily Zazulia,2021-11-02 The main function of western musical notation is incidental it prescribes and records sound But during the fourteenth and fifteenth centuries notation began to take on an aesthetic life all its own In the early fifteenth century a musician might be asked to sing a line slower faster or starting on a different pitch than what is written By the end of the century composers had begun tasking singers with solving elaborate puzzles to produce sounds whose relationship to the written notes is anything but obvious These instructions which appear by turns unnecessary and confounding challenge traditional conceptions of music writing that understand notation as an incidental consequence of the desire to record sound This book explores innovations in late medieval music writing as well as how modern scholarship on notation has informed sometimes erroneously ideas about the premodern era Drawing on both musical and music theoretical evidence this book reframes our understanding of late medieval musical notation as a system that was innovative cutting edge and dynamic one that could be used to generate music not just preserve it      **Secular Renaissance Music** Sean Gallagher,2017-07-05 Secular music of the fifteenth and sixteenth centuries encompasses an extraordinarily wide range of works and practices courtly love songs music for civic festivities instrumental music entertainments provided by minstrels the unwritten traditions of solo singing and much else This collection of essays addresses many of these practices with a focus on polyphonic settings of vernacular texts examining their historical and stylistic contexts their transmission in written

and printed sources questions of performance and composers approaches to text setting Essays have been selected to reflect the wide range of topics that have occupied scholars in recent decades and taken together they point to the more general significance of secular music within a broad complex of cultural practices and institutions **Angel Song: Medieval**

**English Music in History** Lisa Colton, 2016-12-08 Although medieval English music has been relatively neglected in comparison with repertoire from France and Italy there are few classical musicians today who have not listened to the thirteenth century song *Sumer is icumen in* or read of the achievements and fame of fifteenth century composer John Dunstaple Similarly the identification of a distinctively English musical style sometimes understood as the *contenance angloise* has been made on numerous occasions by writers exploring the extent to which English ideas influenced polyphonic composition abroad *Angel song* Medieval English music in history examines the ways in which the standard narratives of English musical history have been crafted from the Middle Ages to the present Colton challenges the way in which the concept of a canon of English music has been built around a handful of pieces composers and practices each of which offers opportunities for a reappraisal of English musical and devotional cultures between 1250 and 1460 **The Monstrous New**

**Art** Anna Zayaruznaya, 2015-04-02 Late medieval motet texts are brimming with chimeras centaurs and other strange creatures In *The Monstrous New Art* Anna Zayaruznaya explores the musical ramifications of this menagerie in the works of composers Guillaume de Machaut Philippe de Vitry and their contemporaries Aligning the larger forms of motets with the broad sacred and secular themes of their texts Zayaruznaya shows how monstrous or hybrid exempla are musically sculpted by rhythmic and textural means These divisive musical procedures point to the contradictory aspects not only of explicitly monstrous bodies but of such apparently unified entities as the body politic the courtly lady and the Holy Trinity Zayaruznaya casts a new light on medieval modes of musical representation with profound implications for broader disciplinary narratives about the history of text music relations the emergence of musical unity and the ontology of the musical work **Music and**

**Performance in the Later Middle Ages** E. Upton, 2012-12-28 This book seeks to understand the music of the later Middle Ages in a fuller perspective moving beyond the traditional focus on the creative work of composers in isolation to consider the participation of performers and listeners in music making **Music in Golden-Age Florence, 1250-1750** Anthony M.

Cummings, 2023-05-10 A comprehensive account of music in Florence from the late Middle Ages until the end of the Medici dynasty in the mid eighteenth century Florence is justly celebrated as one of the world's most important cities It enjoys mythic status and occupies an enviable place in the historical imagination But its musical historical importance is not as well understood as it should be If Florence was the city of Dante Michelangelo and Galileo it was also the birthplace of the madrigal opera and the piano *Music in Golden Age Florence 1250 1750* recounts Florence's principal contributions to music and the history of how music was heard and cultivated in the city from civic and religious institutions to private patronage and the academies This book is an invaluable complement to studies of the art literature and political thought of the late

medieval and early modern eras and the quasi legendary figures in the Florentine cultural pantheon Guillaume Du Fay Alejandro Enrique Planchart,2018-09-06 This volume explores the work of one of medieval music s most important figures and in so doing presents an extended panorama of musical life in Europe at the end of the middle ages Guillaume Du Fay rose from obscure beginnings to become the most significant composer of the fifteenth century a man courted by kings and popes and this study of his life and career provides a detailed examination of his entire output including a number of newly discovered works As well as offering musical analysis this volume investigates his close association with the Cathedral of Cambrai and explores how at a time when music was becoming increasingly professionalised Du Fay forged his own identity as a composer This detailed biography will be highly valuable for those interested in the history of medieval and church music as well as for scholars of Du Fay s musical legacy

**The Song of Songs Through the Ages** Annette Schellenberg,2023-04-27 The Song of Songs is a fascinating text Read as an allegory of God s love for Israel the Church or individual believers it became one of the most influential texts from the Bible This volume includes twenty three essays that cover the Song s reception history from antiquity to the present They illuminate the richness of this reception history paying attention to diverse interpretations in commentaries sermons and other literature as well as the Song s impact on spirituality theological and intellectual debates and the arts

A Performer's Guide to Medieval Music Ross W. Duffin,2000 A Performer s Guide to Medieval Music is an essential compilation of essays on all aspects of medieval music performance with 40 essays by experts on everything from repertoire voices and instruments to basic theory This concise readable guide has proven indispensable to performers and scholars of medieval music

**The Principles and Practice of Modal Counterpoint** Douglass Green,Evan Jones,2010-11-01 Covering modal music from Gregorian chant through the seventeenth century The Principles and Practice of Modal Counterpoint is a comprehensive textbook combining stylistic composition theory and analysis music history and performance By supplementing a modified species approach with a wealth of complete musical examples and historical information this textbook thoroughly joins principle with practice providing a truly immersive experience in the study of modal counterpoint and familiarizing students with modal repertoire

**The Harvard Dictionary of Music** Don Michael Randel,2003-11-28 This classic reference work the best one volume music dictionary available has been brought completely up to date in this new edition Combining authoritative scholarship and lucid lively prose the Fourth Edition of The Harvard Dictionary of Music is the essential guide for musicians students and everyone who appreciates music

*The Cambridge History of Medieval Music* Mark Everist,Thomas Forrest Kelly,2018-08-09 Spanning a millennium of musical history this monumental volume brings together nearly forty leading authorities to survey the music of Western Europe in the Middle Ages All of the major aspects of medieval music are considered making use of the latest research and thinking to discuss everything from the earliest genres of chant through the music of the liturgy to the riches of the vernacular song of the trouv res and troubadours Alongside this account of the core repertory of monophony The

Cambridge History of Medieval Music tells the story of the birth of polyphonic music and studies the genres of organum conductus motet and polyphonic song Key composers of the period are introduced such as Leoninus Perotinus Adam de la Halle Philippe de Vitry and Guillaume de Machaut and other chapters examine topics ranging from musical theory and performance to institutions culture and collections     The Encyclopedia of Christianity Erwin Fahlbusch, Geoffrey William Bromiley, 1999 The Encyclopedia of Christianity is the first of a five volume English translation of the third revised edition of Evangelisches Kirchenlexikon Its German articles have been tailored to suit an English readership and articles of special interest to English readers have been added The encyclopedia describes Christianity through its 2000 year history within a global context taking into account other religions and philosophies A special feature is the statistical information dispersed throughout the articles on the continents and over 170 countries Social and cultural coverage is given to such issues as racism genocide and armaments while historical content shows the development of biblical and apostolic traditions This comprehensive work while scholarly is intended for a wide audience and will set the standard for reference works on Christianity Outstanding reference sources 2000 American Libraries May 2000 Comp by the Reference Sources Committee RUSA ALA

## Reviewing **Motet In The Age Of Du Fay**: Unlocking the Spellbinding Force of Linguistics

In a fast-paced world fueled by information and interconnectivity, the spellbinding force of linguistics has acquired newfound prominence. Its capacity to evoke emotions, stimulate contemplation, and stimulate metamorphosis is actually astonishing.
