The canzone villanesca alla napolitana Donna G. Cardamone, 2023-05-31 The printed debut of the canzone villanesca alla napolitana occurred on 24 October 1537 in Naples. Fifteen anonymous rustic songs were published by Johannes de Colonia in a pocket-sized anthology with a cover featuring three women with hoes tilling the soil. The adjective villanesca, from villano or peasant in the strict sense of the word, means rustic or crude, but in this new context it also intimates that Neapolitan poet-musicians had been affected by the instinctive lyrical traditions of everyday people. The articles in this volume trace the Neapolitan origins of this song form and its subsequent development as it spread quickly throughout Italy in a succession of editions published in Venice and Rome, providing a diverse repertory of lively songs to amuse the privileged that held and attended academies. Several studies focus on key figures in this process, notably Ferrante Sanseverino, Prince of Salerno, and Orlando di Lasso. At the same time, the author relates these developments to the contemporary political context, notably the rivalry of Spain and France for control of the Kingdom of Naples. **MS Florence, Biblioteca Nazionale Centrale, Magl. XIX, 164-167** Anthony M. Cummings, 2017-07-05 Manuscript Florence Biblioteca Nazionale Centrale Magliabechiana XIX 164 167 FlorBN Magl 164 7 has been the subject of considerable scholarly attention. The prevailing assumption had been that it was a Florentine source of the early sixteenth century. More recently, it has been argued that its provenance is not as easily determined as it first appears, and that there are Roman connections suggested by one of its codicological features. This monograph provides as full a bibliographical and codicological report on FlorBN Magl 164 7 as is currently possible. Such evidence suggests that the earlier thesis is more likely to be correct: the manuscript was copied in Florence c. 1520. After a review of the evidence for provenance and date, the repertory of the manuscript is placed in its historical and cultural context. Florence of the early sixteenth century is shown to have an organized cultural life that was characterized by the activities of such institutions as the Sacred Academy of the Medici, the famous group that met in the garden of the Rucellai, and others. FlorBN Magl 164 7 is an exceedingly interesting and important source, an eclectic repository not only of compositionally advanced settings of Petrarchan verse by the Rucellai group, including Bernardo Pisano, but also of sharply contrasting works popular in character. It is almost a manifesto of the sensibilities of preeminent Florentine cultural figures of the sort who frequented the garden of the Rucellai, and as such is a revealing document of Florentine musical taste during those crucial years that witnessed the emergence of the new secular genre we know as the Italian madrigal. **Echoing Helicon** Tim

Shephard,2014-08-18 The private studioli of Italian rulers are among the most revealing interior spaces of the Renaissance In them ideals of sober recreation met with leisured reality in the construction of a private princely identity performed before the eyes of a select public The decorative schemes installed in such rooms were carefully designed to prompt facilitate and validate the performances through which that identity was constituted Echoing Helicon reconstructs through the re interpretation of painted and intarsia decoration the role played by music musicians and musical symbolism in those performances Drawing examples from the Este dynasty despotic rulers of Ferrara throughout the Renaissance who employed such musicians as Pietrobono Tromboncino and Willaert and such artists as Tura Mantegna and Titian author Tim Shephard reaches new conclusions about the integration of musical and visual arts within the courtly environment of renaissance Italy and about the cultural work required of music and of images by those who paid for them Relying on Renaissance era source material from a wide range of disciplines as well as new approaches derived from critical and cultural theory Shephard provides a fresh look at the music of this ninety year period of the Italian Renaissance While much has been written about the studiolo by historians of art and architecture it has only recently become a growing area of interest among musicologists As the first English language monograph devoted to the music of the studiolo Echoing Helicon is a significant contribution to this developing area of research and essential reading for both musicologists and art historians specializing in the Italian Renaissance
