Exploring issues of contamination and concealment and the sexualization of women's bodies that occurs at menarche the authors emphasize how the politics of gender are negotiated on through women's bodies.

The Romance Of Risk Lynn E Ponton, 2008-08-06 Dr Lynn Ponton has devoted her clinical practice to a particular community teenagers in trouble. Whether these kids are struggling with peers experimenting with drugs stealing cars or having unprotected sex they have something in common they are all involved in unhealthy risk taking. And their parents are scared. How did my child get involved in this dangerous situation they ask. And what can I do. Their fears are justified today's teens have more opportunities for taking dangerous risks than ever before. But in *The Romance of Risk* Dr Ponton refutes the traditional idea that risk taking is primarily an angry power struggle with parents so called teenage rebellion and re defines it as a potentially positive testing process whereby challenge and risk are the primary tools adolescents use to find out who they are and determine who they will become. This new perspective is revealed in a series of mesmerizing tales about individual adolescents and their families. Among others we meet Jill a 13 year old thrill seeking runaway Hannah a privileged daughter of suburbia who suffers from anorexia and Joe a high school senior with a serious drinking problem. Through these stories we come to understand Dr Ponton's startling observation that teenagers must confront and experience challenge and risk along the path to self discovery. For adolescents the powerful allure of the adult world is equaled only by the fear of failing to find a place in it. Parents can ease that transition into adulthood however by promoting healthy risk taking so that dangerous options will be avoided. In *The Romance of Risk* parents will learn how they can begin to understand rather than fear adolescent risk taking and how to communicate with their children about it. After all teenagers will always romanticize risk. But with the support and guidance of parents and other adults odds are the risks they take will be the right ones.

Mother Outlaws Andrea O'Reilly, 2004-05-13 Feminist scholars of motherhood distinguish between mothering and motherhood and argue that the latter is a patriarchal institution that is oppressive to women. Few scholars however have considered how mothering as a female defined and centred experience may be a site of empowerment for women. This collection is the first to do so. *Mother Outlaws* examines how mothers imagine and implement theories and practices of mothering that are empowering to women. Central to this inquiry is the recognition that mothers and children benefit when the mother lives her life and practices mothering from a position of agency authority authenticity and autonomy.
