Robber Barons and Wretched Refuse Robert F. Zeidel, 2020-04-15 *Robber Barons and Wretched Refuse* explores the connection between the so called robber barons who led American big businesses during the Gilded Age and Progressive Era and the immigrants who composed many of their workforces As Robert F Zeidel argues attribution of industrial era class conflict to an alien presence supplements nativism a sociocultural negativity toward foreign born residents as a reason for Americans dislike and distrust of immigrants And in the era of American industrialization employers both relied on immigrants to meet their growing labor needs and blamed them for the frequently violent workplace contentions of the time Through a sweeping narrative Zeidel uncovers the connection of immigrants to radicalisms that gave rise to widespread notions of alien subversives whose presence threatened America's

domestic tranquility and the well being of its residents Employers rather than looking at their own practices for causes of workplace conflict wontedly attributed strikes and other unrest to aliens who either spread pernicious foreign doctrines or fell victim to their siren messages These characterizations transcended nationality or ethnic group applying at different times to all foreign born workers Zeidel concludes that ironically stigmatizing immigrants as subversives contributed to the passage of the Quota Acts which effectively stemmed the flow of wanted foreign workers Post war employers argued for preserving America s traditional open door but the negativity that they had assigned to foreign workers contributed to its closing
