[Recollections of Marshal MacDonald, Duke of Tarentum](#) Jacques MacDonald, 2011-06. The recollections of one of Napoleon's most dependable commanders. Among all Napoleon's marshals, MacDonald is one of the most intriguing for he bears a name more likely to be found among those highland regiments of Wellington's infantry who were among his master's most formidable enemies. Jacques MacDonald was born in Sedan in the Ardennes region of France, the son of a Jacobite Scottish exile and was a close relative of Flora MacDonald who played such a memorable role in the flight of Prince Charles Stewart to the continent after the failure of the rebellion of 1745. Born in 1765, Jacques MacDonald was of an age to ensure he would take part in the momentous events that swept through France in the late 18th century, bringing revolution, regicide, the Republic, Consulate, and Empire under Napoleon Bonaparte. Perhaps predictably, MacDonald experienced campaigns and battles throughout the Napoleonic age in most of the European theatres of the conflict, and he graphically describes those events and his part in them in this book. He was a faithful and dependable commander who lacked true military genius but whose qualities made him trustworthy, and it was for these qualities that Napoleon was consistently entrusted with independent commands. Whilst MacDonald's career cannot fail to be of interest to all students of the Napoleonic Wars, what makes this book special is its readability and MacDonald's ability to describe vividly the events he witnessed in an entertaining and informative manner. The value of his book as an historical document is further enhanced by the insights he provides into his own character, that of an obviously decent, honourable, and likeable individual. Leona editions are newly typeset and are not facsimiles; each title is available in softcover and hardback with dustjacket.

The Command And Control Of The Grand Armée: Napoleon As Organizational Designer Lieut.

Norman L. Durham, 2015-11-06. The purpose of this thesis is to investigate Napoleon Bonaparte's command and control of the Grand Armée through the lens of organizational design. Napoleon's methodology behind the design of the Grand Armée is analyzed using modern principles of organizational design. The structure that Napoleon created within his organizational design was a vast information network that served as the framework for a highly effective command and control system. This command and control network allowed Napoleon to dominate a war with his enemies within the information domain. The Grand Armée transited the European countryside with lightning speed as Napoleon outmaneuvered his enemies. Napoleon's dominance was a direct result of his organizational masterpiece that was the Grand Armée. From an organizational design perspective, Napoleon's methodology applied the ideas of others and exploited existing technology to affect his design. The reorganization of the military corps became one of the most important transformations made by Napoleon. The army corps was considered a key component in Napoleon's strategic deployments. The command and control system he engineered for

his corps was essential in the Napoleonic philosophy to march divided and fight united **Napoleon's Maxims of War (1861)** Napoleon, 2009-08 This scarce antiquarian book is a facsimile reprint of the original Due to its age it may contain imperfections such as marks notations marginalia and flawed pages Because we believe this work is culturally important we have made it available as part of our commitment for protecting preserving and promoting the world s literature in affordable high quality modern editions that are true to the original work *Napoleon's Military Maxims* Napoléon Bonaparte, David G.
