Verses Romance Roberta L. Krueger, 2005-02-17 This study challenges the view that all courtly literature promoted the social status of women Unlike previous books which focused on knights it starts from the perspective of the woman reader listener Using reader response theory feminist criticism and recent historical studies it suggests that romances taught gender roles often inviting readers to criticise and resist them **Echoes of Narcissus** Lieve Spaas, Trista Selous, 2001-01-01

In Greek mythology the beautiful Narcissus glimpsed his own reflection in the waters of a spring and fell in love But his was an impossible passion and filled with despair he pined away Over the years the myth has inspired painters writers and film directors as well as philosophers and psychoanalysts The tragic story of Narcissus in love with himself and of Echo the nymph in love with him lies at the heart of this collection of essays exploring the origins of the myth and some of its many cultural manifestations and meanings relating to the self and the self's relationship to the other Through their discussion of the myth and its ramifications the contributors to this volume broaden our understanding of one of the fundamental myths of Western culture *Pierre Loti and the Theatricality of Desire* Peter James Turberfield, 2008-01-01

Pierre Loti and the Theatricality of Desire offers an original analysis of patterns of unconscious desire observable in the life and work of the French orientalist writer Pierre Loti It aims to reconcile attitudes and conduct that have been regarded as contradictory and not amenable to analysis by locating the unconscious urges that motivate them It looks at the ambiguous feelings Loti expresses towards his mother the conflicting desires inherent in his bisexuality and his deeply ambiguous sense of a cultural identity as expressed through his cross cultural transvestism The political implications of this reappraisal are also considered offering a potential reassessment of the apparently exploitative nature of much of Loti's writing This new reading in terms of

the unconscious not only serves as a way of understanding inconsistencies but also suggests how such new interpretations can offer an alternative way of viewing the hierarchies of power his work portrays on both a sexual and political level This volume is consequently of interest to those interested in gender studies and sexual politics and offers a way of appreciating writing that might otherwise appear dated and embarrassingly sexist and colonialist in content to twenty first century readers

Artificial Generation Christina Parker-Flynn, 2021-11-19 Artificial Generation Photogenic French Literature and the Prehistory of Cinematic Modernity investigates the intersection of film theory and nineteenth century literature arguing that the depth of amalgamation that occurred within literary representation during this era aims to replicate an illusion of life and its sensations in ways directly related to broader transitions into our modern cinematic age A key part of this evolution in representation relies on the continual re emergence of the artificial woman as longstanding expression of masculine artistic subjectivity which by the later nineteenth century becomes a photographic and filmic drive Moving through the beginning of film history from Georges Méliès and other silent filmmakers in the 1890s into more contemporary movies including Alfred Hitchcock's *Vertigo* 1958 and *Blade Runner* 2049 2017 the book analyzes how films are often structured around the prior century's mythic and literary principles which now serve as foundation for film as medium a phantom form for life's representation Artificial Generation provides a crucial reassessment of the longstanding mutual exchange between cinematic and literary reproduction offering an innovative perspective on the proto cinematic imperative of simulation within nineteenth century literary symbolism

genealogy of modernity that has not yet been written The essays here also provide fascinating answers as to why these secret protagonists often became major figures in modern philosophy and literary theory and give new insights into such writers as Benjamin Barthes and Derrida *Comparative Criticism: Volume 14, Knowledge and Performance* E. Emergency Broadcasting and 1930s American Radio Edward D. Miller, 2003 The voice we hear on the radio the voice with no body attached is a key element in the history of media in the twentieth century Before television and the internet there was radio and much of what

defined the makeup of these newer media was influenced by the way radio was broadcast to people and the way people listened to it Emergency Broadcasting focuses on key moments in the history of early radio in order to come to an understanding of the role voice played in radio to describe national crises a fictional invasion from outer space and general entertainment Taking the Hindenburg disaster The War of the Worlds hoax Franklin Roosevelt's Fireside Chats and the serial mystery The Shadow as his focal points Edward Miller illustrates how the radio for the first time instantly communicated to a mass audience and how that communication where the voice counts more than the image is still at work today in television and the World Wide Web Theoretically sophisticated yet grounded in historical detail Emergency Broadcasting offers a unique examination of radio and at the same time develops a complex understanding of the media whose birth is owed to the innovations and disembodied power established by it Author note Edward D Miller is Chair of the Department of Media Culture at The College of Staten Island CUNY

Anti-Portraits: Poetics of the Face in Modern English, Polish and Russian Literature (1835-1965) Kamila Pawlikowska, 2015-10-05 Anti Portraits Poetics of the Face in Modern English Polish and Russian Literature 1835 1965 is a study of physiognomic descriptions of the face It demonstrates that writers such as George Eliot Leo Tolstoy Edgar Allan Poe Nicolay Gogol Virginia Woolf and Witold Gombrowicz vigorously resisted the belief that facial features reflect character While other studies tend to focus on descriptions which affirm physiognomy this book examines portraits which question popular face reading systems and contravene their common premise the surface depth principle Such portraits reveal that physiognomic formula is a cultural construct invented to abridge organise and regulate legibility of the human face Most importantly strange and unreadable fictional faces frequently expose the connection between physiognomic judgement and stereotyping prejudice and racism

Thinking in Images Catherine Constable, 2019-07-25 Thinking in Images addresses the current crisis in film theory by offering a new methodology for interrelating theory and film texts Drawing on the groundbreaking work of Michele Le Doeuff the author argues that philosophy is reliant on socio cultural images such as the figures of the veiled woman the femme fatale and the seductress The author traces the key role played by such images of woman in the theorisations of beauty art and truth offered by Nietzsche and his successors Derrida Kofman and Baudrillard Importantly the recognition that images are crucial to theorising means that film images have the capacity to challenge and change previous theoretical models This is demonstrated by a case study of three films from the Dietrich Sternberg cycle The Scarlet Empress The Devil is a Woman and Shanghai Express The detailed readings focus on

the ways in which Dietrich's glamorous characters challenge the theorisation of woman as a beautiful object thus offering new ways of conceptualising woman's role as the icon of beauty art and truth
