National Civic Review No 3 Fall 2005:

National Civic Review, Volume 97, Number 3, Fall 2008 Michael McGrath, 2008-10-28 **The Future of Democracy** Peter Levine, 2015-01-06 We need young people to be civically engaged in order to define and address public problems Their participation is important for democracy for institutions such as schools and for young people themselves who are more likely to succeed in life if they are engaged in their communities In The Future of Democracy Peter Levine scholar and practitioner sounds the alarm in recent years young Americans have become dangerously less engaged They are tolerant patriotic and idealistic and some have invented such novel and impressive forms of civic engagement as blogs boycott movements and transnational youth networks But most lack the skills and opportunities they need to participate in politics or address public problems Levine s timely manifesto clearly explains the causes symptoms and repercussions of this damaging trend and most importantly the means whereby America can confront and reverse it Levine demonstrates how to change young people s civic attitudes skills and knowledge and equally importantly to reform our institutions so that civic engagement is rewarding and effective We must both prepare citizens for politics and improve politics for citizens

Sustaining the League of Women Voters in America Maria Hoyt Cashin, 2013-03-07 A look at the decline of civic engagement and how nonpartisan organizations like the League of Women Voters can help save and promote democracy Throughout our history civic associations have enabled democracy through citizen training education and responsible advocacy But Americans have increasingly withdrawn from such civic activity and most associations that remain lack public accountability local presence and active membership In the absence of other engagement vehicles a fundamental requirement for viable American democratic culture is lacking To consider whether democracy and associations can still be positively linked Maria Hoyt Cashin considers lessons drawn from the League of Women Voters Worldwide few associations have shown the durability success or democratic impact of the League over its long history Yet its numbers are gradually declining Forecasting the League s uncertain future Cashin suggests it may be time to give such civic associations a public boost Deftly combining contemporary political theory with empirical analysis Cashin s work reminds us that good models of democratic association such as the League of Women Voters can reconnect our practices and our principles Emily Howden Hoechst Adjunct Professor Department of Government Georgetown University Cashin makes excellent use of both theory and practice to argue persuasively that civic associations are necessary if democracy is to thrive Thomas M Kerch Adjunct Professor Department of Government and Graduate Liberal Studies Program Georgetown University A welcome story and needed message Molly Cashin reminds us nonpartisan civic activism is still possible Numbers count but so do values and the League is a sterling example Charles Yonkers Adjunct Professor Graduate Liberal Studies Program Georgetown University

Citizens Adrift Paul Howe, 2011-07-01 Many political observers struck by low turnout rates among young voters are pessimistic about the future of democracy in Canada and other Western nations Citizens in general are disengaged in politics and young people in particular are said to be adrift in a sea of apathy Others have questioned this bleak assessment arguing that youth engagement has shifted to newer forms of political and community involvement In *Citizens Adrift* Paul Howe examines past and present patterns of political and civic engagement and concludes that many young Canadians are in fact detached from the political realm Two trends underlie his findings waning political knowledge and attentiveness and generational changes in the norms and values that help sustain social

integration Putting young people back on the path towards engaged citizenship therefore requires a holistic approach one which acknowledges that democratic engagement extends beyond the realm of formal politics **Governing the**

Structural Racism Stephen Menendian,2025-06-30 This book explains how racial inequality in the United States is produced and perpetuated and what should be done about it It develops the elusive concept of structural racism presenting a precise definition that is clear and comprehensible and illustrates how it operates methodically and rigorously Many other books are long on problems and short on solutions whereas this book develops the key principles that must ground a structural reform agenda and then presents a broad ranging set of interventions organized around ten themes that will reduce racial disparities while expanding opportunity for all Unlike most books on race which focus on a particular issue or sector this book is comprehensive in its scope encompassing the vital systems that shape racial inequality in contemporary American society from education and public schools to income and wealth disparities to housing and health care to policing and the criminal justice system As such this book is the ideal text for readers seeking to learn more about structural racial inequality in society how it came to be that way and what we should do about it while deepening our understanding and challenging many misguided or simplistic prevailing notions In a time of backlash to racial justice and growing doubts about racial equity initiatives this book is a timely and necessary entry A must read for advocates students policymakers and researchers alike **More than Mayor or Manager** James H. Svara,Douglas J. Watson,2010-11-23 Different forms of city

government are in widespread use across the United States. The two most common structures are the mayor council form and the council manager form. In many large U.S. cities there have been passionate movements to change the structure of city governments and equally intense efforts to defend an existing structure. Charter change or preservation is supported to solve problems such as legislative gridlock, corruption, weak executive leadership, short range policies or ineffective delivery of services. Some of these cities changed their form of government through referendum while other cities chose to retain the form in use. More than Mayor or Manager offers in depth case studies of fourteen large U.S. cities that have considered changing their form of government over the past two decades: St. Petersburg, Florida; Spokane, Washington; Hartford, Connecticut; Richmond, Virginia; San Diego, California; Oakland, California; Kansas City, Missouri; Grand Rapids, Michigan; Dallas, Texas; Cincinnati, Ohio; El Paso, Texas; Topeka, Kansas; St. Louis, Missouri; and Portland, Oregon. The case studies shed light on what these constitutional contests teach us about different forms of government, the causes that support movements for change, what the advocates of change promised, what is at stake for the nature of elected and professional leadership and the relationship between leaders and why some referendums succeeded while others failed. This insightful volume will be of special interest to leaders and interest groups currently considering or facing efforts to change the form of government as well as scholars in the field of urban studies.

Public Administration Marc Holzer, Richard W. Schweser, 2015-09-16. Marc Holzer and Richard W. Schweser have written a fresh and highly engaging textbook for the introductory course in Public Administration. Their coverage is both comprehensive and cutting edge including not only all the basic topics: OT, budgeting, HRM, but also reflecting new realities in public administration: innovations in e-government, the importance of new technology, changes in intergovernmental relations, especially the emphasis on inter-local and shared regional resources and public performance and accountability initiatives. *Public Administration* has been crafted with student appeal in mind. Each of the book's chapters is generously illustrated with cartoons, quotes and artwork, all reinforcing the book's theme that the field of public administration is rooted in the cultural and political world. Each chapter is also supported with a listing of key terms, exercises and additional resources. The textbook is supported by one of the most comprehensive and easy to use instructors' manuals of any introductory text on the market today. It contains full lesson plans with activities to accommodate a broad range of teaching and learning styles for each chapter, PowerPoint decks for each chapter with visuals and links embedded, 8 new long-term project student presentation ideas, an updated Quotes and Notables section with biographical information and media links for each chapter, updated test questions with answer keys and updated terms and definitions for each chapter.

Civil Society and the Reform of Finance Charles McDaniel, Jr., 2015-07-16. Efforts to resolve the recent financial crisis have obscured a more deeply rooted financialization crisis that impacts not only the market economy but also the vital civic and moral traditions that support it. This book reveals the cultural influence of finance in reshaping the foundations of American civil society and proposes a return to certain first principles of the Republic to restore the nation's economic vision.

This book demonstrates how funding concerns and financial incentives revalue faith traditions educational institutions non profit organizations and even the nation s healthcare system in ways that are eroding the diversity of American culture These changes also undermine the ethical framework of both democratic government and the free market system While financial influence has diminished the value of civil society this book proposes that revitalized intermediary institutions still offer the best path forward in restoring the financial sector and more broadly enriching the American competitive ethic toward development of a more virtuous economy The book is written for an academic and professional audience offering a blueprint for the involvement of civil society with government in providing more communally integrated oversight that could contribute to a genuine democratization of finance
