A Nation-State by Construction Suisheng Zhao, 2004 This is the first historically comprehensive up to date analysis of the causes content and consequences of nationalism in China an ancient empire that has struggled to construct a nation state and find its place in the modern world It shows how Chinese political elites have competed to promote different types of nationalism linked to their political values and interests and imposed them on the nation while trying to repress other types of nationalism In particular the book reveals how leaders of the PRC have adopted a pragmatic strategy to use nationalism while struggling to prevent it from turning into a menace rather than a prop *Military Review* ,1930

China's Unequal Treaties Dong Wang, 2005-10-01 This study based on primary sources deals with the linguistic development and polemical uses of the expression Unequal Treaties which refers to the treaties China signed between 1842 and 1946 Although this expression has occupied a central position in both Chinese collective memory and Chinese and English historiographies this is the first book to offer an in depth examination of China s encounters with the outside world as manifested in the rhetoric surrounding the Unequal Treaties Author Dong Wang argues that competing forces within China have narrated and renarrated the history of the treaties in an effort to consolidate national unity international independence

and political legitimacy and authority In the twentieth century she shows China's experience with these treaties helped to determine their use of international law Of great relevance for students of contemporary China and Chinese history as well as Chinese international law and politics this book illuminates how various Chinese political actors have defined and redefined the past using the framework of the Unequal Treaties **Nationalism** Carlton J. H. Hayes, 2016-03-16 This classic volume tells the story of nationalism the fusion of patriotism with ethnic consciousness It documents the emergence of nationalism in the modern world and the way that nationalism has become a substitute for religion over the past two centuries Nationalism for Hayes draws its power from cultural and social factors primarily language Second to language are historical forces that stem from an accumulation of a people's remembered or imagined experiences Hayes bases his observations on historic European examples He sees nationalism as a religion reacting against historic Christianity and the values of the Western tradition This combination of powerful forces stresses neither charity nor the brotherhood of man Historically it has rationalized selfishness intolerance and violence The growth of nationalism Hayes observed brings not peace but war As a testament to its timeless insight Nationalism remains an informative guide despite the failure of globalization the Internet and international communications and connectivity to move us beyond the bonds of nationalism Hayes's linking of the potent forces of nationalism and religion still rings true the insurgency in Ukraine the unrest in the Middle East and tribal conflicts in Africa are all undergirded by nationalist sentiments *Foreign Relations of the People's Republic of China* John W. Building in China Jeffrey W Cody, 2021-01-15 Building in China is about striking an architectural balance between the pull of monumental tradition and the push of technological novelty Centering on the dynamic period of post imperial and pre Communist China the book focuses on the building and city planning initiatives of Henry Murphy a little known American architect who initially ventured to China in 1914 to design a campus for the Yale in China programme but who then found himself captivated by a professional and cultural challenge that lasted two decades how to preserve China's rich architectural traditions while also designing new buildings using up to date Western technologies Murphy's buildings were compromises wine in old bottles as he once called them and the book uses those tales as lenses through which to understand not only Murphy's quest to find a middle ground for his architecture in China but also to gaze at a tumultuous society facing an uncertain future Murphy's buildings were more than vessels for either aesthetic visions or technical expertise inadvertently they became political emblems as Chinese rulers such as Chiang Kai shek and Sun Yat sen's son called on Murphy for city planning advice to complement their hopes for urban reconstruction There are few serious studies of

Western architects in the twentieth century who practiced in non Western contexts and those scant studies that have been published concentrate largely on British French or Dutch examples in colonial settings Hence the book makes significant contributions to the fields of both American and Chinese architectural history **Government in Republican China** Paul Myron Anthony Linebarger,2022-09-04 DigiCat Publishing presents to you this special edition of Government in Republican China by Paul Myron Anthony Linebarger DigiCat Publishing considers every written word to be a legacy of humankind Every DigiCat book has been carefully reproduced for republishing in a new modern format The books are available in print as well as ebooks DigiCat hopes you will treat this work with the acknowledgment and passion it deserves as a classic of world literature **Victorious in Defeat** Alexander V.
