Approaching Ottoman History Suraiya Faruqi, 1999-12-09 Suraiya Faruqi's scholarly contribution to the field of Ottoman history has been prodigious Her latest book represents a summation of that scholarship an introduction to the state of the art in Ottoman history In a compelling exploration of the ways that primary and secondary sources can be used to interpret history the author reaches out to students and researchers in the field and in related disciplines to familiarise them with these documents By considering both archival and narrative sources she explains why they were prepared encouraging her readers to adopt a critical approach to their findings and disabusing them of the notion that everything recorded in official documents is necessarily true While the book is essentially a guide to a complex discipline for those about to embark upon their research the experienced Ottomanist will find much that is original and provocative in its sophisticated interpretation of the field

French Trade in Istanbul in the Eighteenth Century Edhem Eldem, 2023-08-28 This work deals

with French trade in Istanbul in the eighteenth century using French and Ottoman sources and integrating the political and

social dimensions of the question It also sheds light on the financial dimension of trade particularly that of bills of exchange and monetary trade linking Istanbul to other Ottoman cities and to European financial centers Finally it tackles the issue of western economic penetration arguing that despite some signs of domination French control over the market was efficiently opposed by local actors that economic integration with the West was often realized on equal terms and that much of the domination witnessed toward the end of the century was in fact the result of French diplomatic leverage and of the gradual estrangement of non Muslim traders from the Ottoman commonwealth

Judaism in Late Antiquity 4. Death, Life-After-Death, Resurrection and The World-to-Come in the Judaisms of Antiquity Alan Avery-Peck,Jacob Neusner,2015-11-02 Thirteen foremost scholars describe the views of death life after death resurrection and the world to come set forth in the literary evidence for late antique Judaism The volume covers the view of Scripture as a whole as against other Israelite writings distinct parts of Scripture such as Psalms and the Wisdom literature apocalyptic and the non apocalyptic pseudepigraphic literature Philo Josephus the Dead Sea Scrolls earliest Christianity the Gospels in particular the Rabbinic sources the Palestinian Targums to the Pentateuch and out of material culture the inscriptional evidence The result is both to highlight the range of available perspectives on this important issue and to illuminate a central problem in the study of Judaism in late antiquity phrased neatly as One Judaism or many Here we place on display indicative components of Judaism in their full diversity leaving it for readers to determine whether the notion of a single coherent religion falls under the weight of a mass of documentary contradictions or whether an inner harmony shines forth from a repertoire of largely shared and only superficially diverse data

The Ocean of the Soul Hellmut Ritter,2003 The Ocean of the Soul is one of the great works of the German Orientalist Hellmut Ritter 1892 1971 It presents a comprehensive analysis of the writings of the mystical Persian poet Far d al D n At t r who is thought to have died at an

advanced age in April 1221 when the Mongols destroyed his home city of Nishapur in the north east of Iran The book which resulted from decades of investigation of literary and historical sources was first published in 1955 and has since remained unsurpassed not only as the definitive study of Attar's world of ideas but as an indispensable guide to understanding pre modern Islamic literature in general Quoting at length from Attar and other Islamic sources Ritter sketches an extraordinarily vivid portrait of the Islamic attitude toward life characteristic developments in pious and ascetic circles and in conclusion various dominant mystical currents of thought and feeling Special attention is given to a wide range of views on love love in all its manifestations including homosexuality and the commonplace self adoration of good looking youths Ritter's approach is throughout based on precise philological interpretation of primary sources several of which he has himself made available in critical editions

Chilton, 2015-11-02 The authors have asked of the documents of the Dead Sea Library found at Qumran a simple question how does each participate in a single Judaic religious system They propose a reading of the Scrolls from the hypothesis that all of them in one way or another rest upon one authoritative Judaism Their analysis of the Dead Sea Scrolls describes how diverse writings hold together to make a single coherent statement to stand for a religious system possessed of integrity and wisdom This account of the world view of Judaism covers principal questions addressed to any Judaic religious system the doctrine of God the Torah and matters of history wisdom and mysticism When it comes to the way of life they include the evidence of the material culture of the community as well as practical matters of religious conduct How the community's world view comes to realization is suggested by its treatment of the calendar by its provision of laws that concern women by questions of cultic and secular purity by its piety and forms of worship and views of Temple sacrifice and the like Finally with the community's definition of Israel and of itself in relationship to Israel inclusive of
