Prophets Of Doom In An Age Of Optimism:

Prophets of Doom V. Kerry Inman,1978 **The Prophets of Doom** Neema Parvini,2023-07-27 Linear and progressive views of history have dominated the popular imagination for the past seventy years in a worldview wedded to the inexorable rise of globalisation and GDP growth at any cost However the end of the Cold War failed to produce the end of history as hoped a fact brought home to many by Russia s invasion of Ukraine in 2022 Material wealth and Progress in the name of social justice have not made people happier or more united but quite the opposite Anxiety depression fearfulness sadness loneliness and anger have all massively increased since 1970 with the male suicide rate at an all time high Western society seems to be divided against itself across every line conceivable left versus right women versus men non whites versus whites globalists versus populists the elites versus the people people who think that men can be women and vice versa versus those who insist that they cannot and so on Seventy three percent of Americans believe their country is on the wrong track with similar views reflected in Britain and across Europe The Prophets of Doom explores eleven thinkers who not only dared to contradict the dominant linear and progressive view of history but also predicted many of the political and social maladies through which we are living Old Testament Apocalyptic Stanley Brice Frost,2014-07-15 **The Case for Rational Optimism** Frank S. Robinson,2011-12-31 The Case for Rational Optimism tackles a host of challenging subjects in an engaging accessible down to earth style It is intellectually serious ceaselessly intriguing and devoid of banalities While other books in this genre tend to be oriented toward self help this volume brings evolutionary biology neuroscience psychology sociology economics and a keen sense of history to the topic Robinson begins with three goals making the case for feeling good about oneself about humanity in general and about the global situation He addresses such seemingly disparate subjects as selfi shness versus altruism mind and free will human nature and issues relating to economics technology the environment and more Unifying these ideas into a coherent philosophical whole are central concepts evolution has endowed our species with more good qualities than bad and why those qualities and our use of reason are the foundations of civilization and how and consistent with our nature we make a better world by valuing human life therefore enabling others to fl ourish in ways they freely choose The Case for Rational Optimism argues that the highly challenging conditions confronting early man created a Darwinian selective pressure for cooperation even altruism among members of a tribe Th e author fi nds evidence for this in the way our brains work and in observable human behavior He argues against existential despair over the human condition Even though there probably is no grand celestial design investing life with meaning he considers this liberating giving every person the freedom to craft their own meaning To Robinson whether sentient beings experience suff ering or joy is the only thing that matters without emotive highs and lows the Universe would hardly matter **The Age of Rights** Norberto Bobbio,2017-06-12 This book presents a valuable clarification and defence of human rights by Italy s leading political theorist **The Coming Kingdom** M. Darrol Bryant,Donald W. Dayton,1983 **Structure of International**
