Putting an End to Worship Wars, 2009 The Influence of Music on the Development of the Church of God (Cleveland, Tennessee) Benson Vaughan, 2018-03-23 This book examines the influence of music on the development of the Church of God Cleveland Tennessee This narrative is historically driven but relies upon an interdisciplinary approach to draw on the insights of ecclesiology theology liturgiology church development and especially music This study utilizes a chronological and systematic approach to the relationship between music and the Church of God in the United States during the first 125 years of the denomination s history from 1886 to 2011 For over a century music has been an often neglected dialogue partner at the table of academic discussion and this research argues for recognition and a proper place in Pentecostal history Along with primary and secondary sources the important element of living archives is investigated in this work these are interviews with people who participated in historical music events in the Church of God The book also relies upon musical examples to explore the influence of music upon the shaping of the denomination s history and theology Beyond the Four Walls Walter Lizando Hidalgo-Olivares, 2011-07-13 Hip hop is creating an expanding ministerial and spiritual movement that is changing the socio historical landscape on a national and global level From the streets of its birthplace in the South Bronx to the barrios of Colombia in South America Hip hop is helping to create sacred spaces that are providing purpose to our marginalized youth and young adult street populations Beyond the Four Walls The Rising Ministry and Spirituality of Hip hop serves as both an autobiographical and ethnographical journey of my love and experiences with Hip hop as a professor youth minister and artist I invite the reader to explore my outlook on Hip hop which reaches far beyond the scope of its music commercialization and hood life Instead it takes another look at the unprecedented impact that Hip hop continues to have in both our secular and spiritual communities Because of its ongoing commitment to community organizing activism social justice and education Hip hop is worthy to be called a 21st Century socio political theological and spiritual movement akin to that of Rev Dr Martin Luther King Jr Ghandi Mohammed Abraham Archbishop Oscar Romero and most notably in this book Jesus Christ and Paul the Apostle **Sojourners and Strangers** Gregg R. gender perspectives The interdisciplinary approach became a necessity based on the realization that beyond the high fatalities that resulted from the pandemic people's responses to it were as eclectic as were their existential realities This volume is particularly unique because it yields space to Christianity and Islam and presents the trajectories in their practitioners response to the pandemic The authors historicize theorize and theologize these responses and present exemplar templates of coping mechanisms for religious institutions and people faced with unconventional situations bordering on religious ideals The book is a valuable resource for scholars religious leaders historians health practitioners and faith based organizations on strategies to adopt for future pandemics

Shout to the Lord Ari Y. Kelman, 2018-06-19 How music makes worship and how worship makes music in Evangelical churches Music is a nearly universal feature of congregational worship in American churches Congregational singing is so ingrained in the experience of being at church that it is often misunderstood to be synonymous with worship For those who assume responsibility for making music for congregational use the relationship between music and worship is both promising and perilous promise in the power of musical style and collective singing to facilitate worship peril in the possibility that the experience of the music might eclipse the worship it was written to facilitate As a result those committed to making music for worship are constantly reminded of the paradox that they are writing songs for people who wish to express themselves as directly as possible to God This book shines a new light on how people who make music for worship also make worship from music Based on interviews with more than 75 songwriters worship leaders and music industry executives Shout to the Lord maps the social dimensions of sacred practice illuminating how the producers of worship music understand the role of songs

as both vehicles for and practices of faith and identity This book accounts for the human qualities of religious experience and the practice of worship and it makes a compelling case for how sometimes faith comes by hearing **11 Innovations in the Local Church** Elmer L. Towns, Ed Stetzer, Warren Bird, 2007-06-05 Join three seasoned church ministry experts on an insider's tour of the most innovative churches today Discover a dozen types of innovation each with profiles of congregations that have implemented that innovation This is more than a show and tell tour however Each chapter offers a solid take away for church leaders on how to learn and apply the appropriate innovation profiled The authors also offer scripturally based assessments of both the positive and negative implications of implementing each innovation providing guidance and wisdom There are many ways to present the gospel and this timely book will serve as a springboard for church leaders scratching their heads and asking themselves What should we do next By learning from a dozen different church types church leaders can become more intentional about exploring new directions and reaching more of the world for Christ *Evangelicals in Mexico* Dinorah B. Méndez, Dinorah Mendez, 2008 Hymns as a potential tool of theological contextualisation have never been fully explored This study looks at this function of hymnody in relation to Mexican culture A sample of hymnody used by evangelicals of different traditions was selected to examine its theology and to compare which kind of hymns or songs were more reliable and appropriate to communicate the evangelical faith in the Mexican context **The Ten Most Influential Churches of the Past Century** Elmer Towns, 2015-01-20 Your Church Can Influence the World History has shown that great leaders have the ability to reach beyond the walls of their churches to influence cultures for Christ We've seen it in the Pentecostal Charismatic movement in the explosive growth of house churches in Communist China in the expansion of the Southern Baptist Convention and in the worldwide rise of praise and worship music led by Hillsong Church among other phenomena In *The Ten Most Influential Churches of the Past Century* Dr Elmer Towns presents evidence of the powerful influence of these churches and how their innovative strategies and faith accomplish these goals Then he tells how you can apply these principles to your church You will learn how some of the most influential leaders in Church history became conduits for your future ministry and how your church can experience exponential growth Most importantly you will see that the great results in these ten churches grow out of the power of the Word of God the ministry of many dedicated lay workers the faith producing ministry of great leaders all under the anointing of the Holy Spirit **Winds from the North**, 2010-06-14 Much of the scholarly focus on early twentieth century Pentecostalism is dominated by the origins debates of the United States The polarization between those who argue for Parham's theological contribution or Seymour's African American experiential contribution is well known Beyond these debates scholars typically focus on the role of Americans in the development of Pentecostalism However the Hebden mission in Toronto Canadian women and the Latter Rain revival illustrate the transnational and innovative qualities of the movement This book contextualizes the global story of Pentecostalism with some important and often neglected contributions by Pentecostals in Canada and their influence on
