[The Cambridge World History: Volume 7, Production, Destruction and Connection, 1750-Present, Part 2, Shared Transformations?](#) J. R. McNeill, Kenneth Pomeranz, 2015-04-16 Since 1750 the world has become ever more connected with processes of production and destruction no longer limited by land or water based modes of transport and communication. Volume 7 of the Cambridge World History series, divided into two books, offers a variety of angles of vision on the increasingly interconnected history of humankind. The second book questions the extent to which the transformations of the modern world have been shared, focusing on social developments such as urbanization, migration, and changes in family and sexuality, cultural connections through religion, science, music, and sport, ligaments of globalization including rubber, drugs, and the automobile, and moments of particular importance from the Atlantic Revolutions to 1989.

From Soul to Hip Hop Tom Perchard, 2017-07-05 The essays contained in this volume address some of the most visible, durable, and influential of African American musical styles as they developed from the mid 1960s into the 21st century. Soul, funk, pop, R & B, and hip hop practices are explored both singly and in their many convergences, and in writings that have often become regarded as landmarks in black musical scholarship. These works employ a wide range of methodologies, and taken together they show the themes and concerns of academic black musical study developing

over three decades While much of the writing here is focused on music and musicians in the United States the book also documents important and emergent trends in the study of these styles as they have spread across the world The volume maintains the original publication format and pagination of each essay making for easy and accurate cross reference and citation Tom Perchard's introduction gives a detailed overview of the book's contents and of the field as a whole situating the present essays in a longer and wider tradition of African American music studies In bringing together and contextualising works that are always valuable but sometimes difficult to access the volume forms an excellent introductory resource for university music students and researchers

New Histories of South Africa's Apartheid-Era Bantustans Shireen Ally, Arianna Lissoni, 2017-06-26 The bantustans or homelands were created by South Africa's apartheid regime as ethnically defined territories for Africans Granted self governing and independent status by Pretoria they aimed to deflect the demands for full political representation by black South Africans and were shunned by the anti apartheid movement In 1972 Steve Biko wrote that politically the bantustans are the greatest single fraud ever invented by white politicians With the end of apartheid and the first democratic elections of 1994 the bantustans formally ceased to

exist but their legacies remain inscribed in South Africa's contemporary social cultural political and economic landscape. While the older literature on the bantustans has tended to focus on their repressive role and political illegitimacy, this edited volume offers new approaches to the histories and afterlives of the former bantustans in South Africa by a new generation of scholars. This book was originally published as various special issues of the South African Historical Journal. Popular Music Culture Roy Shuker, 2022-03-22. This volume responds to this absence with a collection of 15 essays by scholars from a variety of music and sound-related fields, including an Afterword by Ranciere on the role of music in his thought and writing. The essays engage closely with Ranciere's existing commentary on music and its relationship to other arts in the aesthetic regime, revealed through detailed case studies around music, sound, and listening. Ranciere's thought is explored along a number of music historical trajectories, including Italian and German opera, Romantic and modernist music, Latin American and South African music, jazz, and contemporary popular music. Ranciere's work is also set creatively in dialogue with other key contemporary thinkers, including Adorno, Althusser, Badiou, and Deleuze.
