Quaker Testimonies & Economic Alternatives Severyn Ten Haut Bruyn, 1980 *Quaker Life*, 1989 *Pendle Hill Pamphlet[s]*, 1995 *Mennonite Life* Cornelius Krahn, 1982 **Testimony** Rachel Muers, 2015-03-31 This book brings Quaker thought on theological ethics into constructive dialogue with Christian tradition while engaging with key contemporary ethical debates and with wider questions about the public role of church communities in a post secular context The focus for the discussion is the distinctive Quaker concept and practice of testimony understood as a sustained pattern of action and life within and by the community and the individuals within it in communicative and transformative relation to its context and located in everyday life In the first section Rachel Muers presents a constructive theological account of testimony drawing on historical and contemporary Quaker sources that makes explicit its roots in Johannine Christology and pneumatology as well as its connections with other Quaker distinctives such as unprogrammed worship and non creedalism She focuses in particular on the character of testimonies as sustained refusals of specific practices and structures and on the way in which this sustained opposition gives rise to new attitudes and forms of life Articulating the ongoing relevance of this approach for theology Rachel Muers engages with the ethics of witness in contemporary Protestant theology and with a longer tradition of thought and debates about the significance of Christian asceticism In the second section she develops this general account through a series of case studies in Quaker testimony written and practised She uses each one to explore aspects of the meaning of and need for shared and individual testimony **Democracy and Learning** Ralph Ruddock, 1994

Monographic Series Library of Congress, 1981 Quaker Quicks - Money and Soul Pamela Haines, 2019-07-26 If money troubles your soul try this down to earth Quaker perspective on economies large and small The economy as we usually encounter it has nothing to do with values or faith After all the invisible hand caters to no religious belief It is all a matter of science we are assured economists have mastered the mathematical formulas for growth and prosperity Our role as individuals is simply to work consume and save each adding our bit to the sum totals of economic activity that will keep the system humming along the experts will take care of everything else This breezy values free story however is unlikely to be a comfortable fit for anyone who takes seriously the challenge of bringing our faith into the world Knotty issues around economics crop up at every turn especially if we are willing to ask the big questions What is the economy for How much is enough What needs to be equal How is well being best measured Who should decide In *Money and Soul* this search for answers through a Quaker lens gives a taste of the power of applying faith values to our economic story **Quaker Quicks - In Search of Stillness** Joanna Godfrey Wood, 2021-11-26 Joanna gives us a very helpful and meaningful exploration of Quaker stillness along with an assortment of exercises to take us along the meditative path She also talks about the obstacles that can block the process I found her quote Explore who you really are rather than who you think you are very helpful and she compares Quaker legendary writings on stillness Isa Louise Levy MA Artist Arts Psychotherapist How can we find inner
