The Real Thing Miles Orvell, 2014-08-25 In this classic study of the relationship between technology and culture Miles Orvell demonstrates that the roots of contemporary popular culture reach back to the Victorian era when mechanical replications of familiar objects reigned supreme and realism dominated artistic representation Reacting against this genteel culture of imitation a number of artists and intellectuals at the turn of the century were inspired by the machine to create more authentic works of art that were themselves real things The resulting tension between a culture of imitation and a culture of authenticity argues Orvell has become a defining category in our culture The twenty fifth anniversary edition includes a new preface by the author looking back on the late twentieth century and assessing tensions between imitation and authenticity in the context of our digital age Considering material culture photography and literature the book touches on influential figures such as writers Walt Whitman Henry James John Dos Passos and James Agee photographers Alfred Stieglitz Walker Evans and Margaret Bourke White and architect designers Gustav Stickley and Frank Lloyd Wright

Art and knowledge after 1900 James Fox, Vid Simoniti, 2023-12-12 This ground-breaking new history of modern art explores the relationship between art and knowledge from the beginning of the twentieth century to the present day. Each chapter examines artistic responses to a particular discipline of knowledge from quantum theory and theosophy to cybernetics and ethnic futurisms. The authors argue that art's incursion into other intellectual disciplines is a defining characteristic of both modernism and postmodernism. Throughout the volume poses a series of larger questions: is art a source of knowledge? If so, what kind of knowledge? And ultimately, can it contribute to our understanding of the world in ways that thinkers from other fields should take seriously.

The Photobook Patrizia Di Bello, Colette Wilson, Shamoona Zamir, 2020-08-07 The photograph found a home in the book before it won for itself a place on the gallery wall. Only a few years after the birth of photography, the publication of Henry Fox Talbot's *The Pencil of Nature* heralded a new genre in the history of the book, one in which the photograph was the primary vehicle of expression and communication or stood in equal, if sometimes conflicted, partnership with the written word. In this book, practicing photographers and writers across several fields of scholarship share a range of fresh approaches to reading the photobook, developing new ways of understanding how meaning is shaped by an image's interaction with its text and context and engaging with the visual, tactile and interactive experience of the photobook in all its dimensions. Through close studies of individual works, the photobook from fetishised objet d'art to cheaply printed booklet is explored and its unique creative and cultural contributions celebrated.

Walker Evans Svetlana Alpers, 2023-11-07 A magisterial study of celebrated photographer Walker Evans. Walker Evans 1903-75 was a

great American artist photographing people and places in the United States in unforgettable ways He is known for his work for the Farm Security Administration addressing the Great Depression but what he actually saw was the diversity of people and the damage of the long Civil War In Walker Evans renowned art historian Svetlana Alpers explores how Evans made his distinctive photographs Delving into a lavish selection of Evans s work Alpers uncovers rich parallels between his creative approach and those of numerous literary and cultural figures locating Evans within the wide context of a truly international circle Alpers demonstrates that Evans s practice relied on his camera choices and willingness to edit multiple versions of a shot as well as his keen eye and his distant straight on view of visual objects Illustrating the vital role of Evans s dual love of text and images Alpers places his writings in conversation with his photographs She brings his techniques into dialogue with the work of a global cast of important artists from Flaubert and Baudelaire to Elizabeth Bishop and William Faulkner underscoring how Evans s travels abroad in such places as France and Cuba along with his expansive literary and artistic tastes informed his quintessentially American photographic style A magisterial account of a great twentieth century artist Walker Evans urges us to look anew at the act of seeing the world to reconsider how Evans saw his subjects how he saw his photographs and how we can see his images as if for the first time
