The focus of the book complements the work we are currently doing in our school district to create reflective practitioners. The Leading through Quality Questioning Framework is a clear and concise way to get the big picture of how questioning can be used to foster a culture of continuous improvement. The chapters that follow allow the reader to put the meat on the bones of the framework. Christopher Corallo, Director of Staff Development, Henrico County Public Schools, Richmond, VA, uses quality questioning to bring out the best in your learning community. Quality questioning is a process for engaging individuals in reflection, critical thinking, and collaboration. The authors demonstrate how questions, not answers, drive school improvement and growth for a learning community. This handbook for school and district leaders applies the principles of the best-selling book *Quality Questioning* to four critical leadership functions: Maximizing individual and organizational capacity; Mobilizing individuals and groups to build ownership and commitment across a community; Mediating conflict by helping individuals find common ground and focus on shared purpose; Monitoring progress toward identified goals.
