Quantum Religion The Good News Of Rising Consciousness:

Quantum Religion Sylvester L. Steffen, 2011-11-30 QUANTUM RELIGION Enlarging from the Inside Out These times are scary but also hope filled scary because of degraded nature but hope filled because global religion is coming to new self understanding In a word religion means relationship good news is experienced in relationships Life itself is good news because it has built in intelligence that can avoid hurtful relationships and can choose sustainable relationships instead Global relationship religion is waking up to the tragic misdirection of imperial top down control in contrast to the ordered direction of organic life growing and enlarging from within Growing from the inside out happens incrementally with experience a little bit at a time But the good news is that consciousness of experience the ground of faith is cumulative by trial and error and reveals what is sustainable and what is not Organic relationships originated minutely but have grown to the point of being self reflective in the human person Essential to growth is change as experience has shown But political forces of self interest compete to create self serving webs of relationships that intend to dominate and control The monopoly control of Christian churches has been centered in Rome under pope kings The violence of imperial overreach came to a head in medieval times and the weight of oppression so heavy at that time drove people to rebel and demand change Denominational Christianity today is made up of reform factions of original Roman Catholicism In the present time the coming apart of imperial Roman Catholicism is happening with the resignation of Emeritus Pope Benedict XVI and with the election of Pope Francis I For the first time in the history of the Roman Catholic Church it is opening up to the organic nature of life including humankind and the incremental nature of relationships growing bit by bit from within not from the top down Cosmic nature informs all relationships with the possibility and necessity of continuity and holding together from within The mentality of dominion culture underlies the waste of nature by colonial overreach and corporate capitalism The consciousness of love grounds in the universal understandings of common wellbeing and expands in the incremental growth of complexity consciousness The affirming harmony of intentional relationships is the good news of personal social wellbeing and the condition of an uplifting and sustainable future The personal search for self identity takes on new meaning in light of understanding religion as common organic relatedness in Cosmic Earth evolution The possibility of religions coming together on grounds of universal understandings is real given the wide open potentials of communication and the continuity of diverse life inside the webs of organic evolution Beyond the benefits of the personal uplift of consciousness QUANTUM RELIGION provides cohesive insights for bringing communities to a higher sense of religion and civility and the necessary sensitivity that secures natural ecologies for future wellbeing QUANTUM RELIGION is the good news of rising consciousness

Religion and Civility Sylvester L. Steffen, 2011-11-30 RELIGION CIVILITY The Primacy of Conscience the third book of the breakthrough Second Enlightenment Trilogy reveals trial and error failures and successes of past and present civilizations Man inherits from nature hard won intelligence cortical consciousness to learn from errors of irreligion and

incivility Though more painful error is sometimes the most convincing teacher **THE POSSIBLE JOURNEY** Sylvester L. Steffen, 2006-09-07 THE POSSIBLE JOURNEY is about war and peace about disharmony and harmony about hate and love about what we choose and by which we customize habits In the course of life positives and negatives get folded together in consciousness We can blindly go on and suffer the hurts of negative implications and impose them on others or we can search them out and remove them from the menu of choices Nature equips us to do this We inherit an intuitional capacity for symbiotic accommodation but also a strong inclination toward hyped egoism One is the way of love and harmony the other is the way of discord and degradation It s not about God it s about us and our personal choices to become Godlike or otherwise Natural self reflective evolution symbiosis the option of love is ours to choose Intentional symbiosis is the way of Godhead Harmony the Way of WORD LIGHT LOVE The alternative is the way of waste of personal and social degradation the trinity of ignorance arrogance greed Coming to the wisdom of faith reason by way of trimorphic resonance is an adult divine human process of consciousness something larger and beyond the pabulum of institutional religion Our choice is to continue on the way of repressive Dominion Theology imperialism and violence or to diverge and opt the way of Liberation Theology love for one another openness and intentional accommodation THE POSSIBLE JOURNEY aspires to be a lifetime guide for growth into adult faith and fulfilled living Let it be your guide to the harmonic Way of TRUTH LIGHT LOVE Uncompromised Trust fidelity to mutuality is the best option for developing the possibilities of life For the Love of God and for Peace on Earth choose intentional symbiosis choose trust choose life **The Global Thinking Community** Sylvester L. Steffen, 2010-07 The book chronicles exchanges between the author and bloggers on the NCR National Catholic Reporter blog site now discontinued Exchanges are over upfront religious social issues While strong and varied views are aired they are respectful perhaps something of model how to reduce heat and increase light Traditional religions define faith belief doctrinally dogmatically and exercise control over belief and behavior As history shows faith and politics intertwine and agitate differences hurtful to people and nature Modern calamities can be redeemed only from within Our times confront traditions more radically than ever before namely To awaken to sustainable perspectives of quantum physical psychical evolution Remembrances from the past advance in genetic codes and are prospective open to hope Leaves are genetic lexicons on the Tree of Life We need to learn nature s economies of building on patterns of sustainable energy use Evolution s learning lets us anticipate the future and avoid imprisonment of thought fixation Evolution is symbiotic intelligence nature s pattern God s design Evolution opens to symbiotic solutions only if culture religion and politics are open to evolution Evolution s outcome of processing interdependent life and consciousness doesn t have to be terminally wasteful rather it can uplift enlighten and expose wrongdoing and importantly help end bad habits choose right thinking and keep hope alive In regards to thought processing latest thinking is a recapitulation reformulation of prior thinking Thought updating includes reformulations of faith which is how faith remains vital and religion is redeemed If one is of a mind to move beyond fixations of faith religion

one must admit the inadequacy of belief constrained by fixations and recognize the need for moving on to evolutionary consciousness The important next step is to take action not alone but collaboratively by group study and action the point of the Evolution Trilogyes *Word Unlimited* Sylvester L. Steffen,2011-11-30 Faith needs reasons muscle to exercise it Exercise strengthens faith if we would be strong if we would be holistic we would inform faith with reason and exercise both But the hyped faith of ancient religion still elevates itself above the exercise of reason and is now found wanting in strength The crisis of the time is religious intellectual because faith and reason remain poles apart WORD UNLIMITED Divinely Maternal is a one of a kind book the book end to the Evolution Trilogyes by Sylvester L Steffen WORD UNLIMITED blends new physics neuroscience biological science traditional philosophy evolution theology and cultural Catholicism into a practical achievable forward looking concordance informs personal ownership awareness of Divinity Consciousness and the hoped for global convergence of religion and civility opens humankind to a future dreamed of from times past by religions and civilizations alike a cultural religious harmony for the professional and general reader alike makes accessible in common the Trimorphic Resonant Method of Evolution to The Global People means for common reconciliation [www secondenlightenment org](http://www.secondenlightenment.org) [www divinicom com](http://www.divinicom.com) [www WordUnlimited com](http://www.WordUnlimited.com) [www AuthorHouse com](http://www.AuthorHouse.com) What Self-Donation Is Sylvester L. principle provides a scientific basis for linking energy and matter earth with evolved soul and body spirit *The Taboo of Subjectivity : Towards a New Science of Consciousness* Department of Religious Studies University of California B. Alan Wallace Visiting Lecturer, Santa Barbara,2000-11-09 This book takes a bold new look at ways of exploring the nature origins and potentials of consciousness within the context of science and religion Alan Wallace draws careful distinctions between four elements of the scientific tradition science itself scientific realism scientific materialism and scientism Arguing that the metaphysical doctrine of scientific materialism has taken on the role of ersatz religion for its adherents he traces its development from its Greek and Judeo Christian origins focusing on the interrelation between the Protestant Reformation and the Scientific Revolution He looks at scientists long term resistance to the firsthand study of consciousness and details the ways in which subjectivity has been deemed taboo within the scientific community In conclusion Wallace draws on William James s idea for a science of religion that would study the nature of religious and in particular contemplative experience In exploring the nature of consciousness this groundbreaking study will help to bridge the chasm between religious belief and scientific knowledge It is essential reading for philosophers and historians of science scholars of religion and anyone interested in the relationship between science and religion Miracles, Meditation, and a Higher Consciousness Tony Ughy,2016-07-22 As we go through life most of us will experience difficult times Were often at a loss about how to deal with them And when we experience spiritual intervention we may be confused and even question our reality In his book *Miracles Meditation and a Higher Consciousness A Guide to Enlightenment* author Tony Ughy shares events of spiritual interventions and miracles in his life that some will find difficult to accept Others will be able to relate to his experiences because of similar ones that have occurred in their lives Ughy also provides meditation techniques taught to him by his spirit guides These techniques will help you deal with difficult circumstances and move forward unencumbered by the emotional baggage that can accompany them Ughys spirit guides compelled him to write *Miracles Meditation and a Higher Consciousness A Guide to Enlightenment* for you people who are ready to find that there is more to life than what we can see through our two eyes It is a book to enlightenment for all who are ready to receive the message Religious Behaviour and Spiritual Experience Ashit Chandra Chakraborty,Swami Priyavratana,2015-12-23 Spiritual life and its experiences seem to elude ordinary understanding Can spiritual truths be investigated by scientific techniques Why do people take to spiritual life Is there a scientific truth behind supra normal experiences This book published by Advaita Ashrama a publication centre of Ramakrishna Math Belur Math India deals with scientific exploration of spiritual experiences and answers these questions *God: the Evidence* Ronald W. Larsen PhD,2022-09-19 The holy grail of physics is quantum gravity often called the theory of everything But any scientific theory will be incomplete without the God of the Bible Physicists claim the cosmos began with a big bang created from nothing But the word nothing is meaningless in physics Furthermore the big bang is an impenetrable barrier to whatever preceded it In addition a finite cosmos cannot contain within itself an explanation for its own existence

To claim we are here by accident explains nothing and leads to a logical dead end The cause of the universe is information in the form of mathematical laws left behind for science to discover The fundamental properties of these laws have the same attributes as the Supreme Lawgiver of Genesis An intelligible cosmos is unmistakable evidence the Creator is an Intelligent Mind The Creator s Voice is a valid scientific theory confirming the truth of Genesis God spoke the laws creating the universe out of nothing creatio ex nihilo The foundation of the universe is ethereal cosmic waves which interact according to the laws to create and sustain the illusion of reality we experience Space time energy and matter are made from quantum information nothing else is needed By a process of elimination God is the only possible explanation for everything we know The human mind is evidence consciousness is endemic to the cosmos Cosmic waves interact with the human mind in mysterious ways The cosmos relates to humans more like a great Mind than a mindless machine The god like nature of the human mind is evidence we are made imago Dei Even if God is included in a scientific theory it means little unless it can be shown God is a real Being alive present in the world and relevant to our lives *New Man for the New Millennium* Osho,2000 Osho Says It Is Imperative That We Become New Human Beings As We Enter The New Millennium He Elucidates The Seven Essential Qualities Of The New Man And Examines Issues That Have Bedevilled Generations Love Relationships Marriage Family Money Power Work And Morality Showing Us How To Let Go Of Our Past He Invites Us To Wake Up To Our Enlightenment
