The Surangama Sutra Ronald Epstein, PhD, David Rounds, 2012-08-06 For more than a thousand years the Surangama Sutra has been held in high regard in the Mahayana Buddhist countries of East and Southeast Asia and has been as popular as the Lotus Heart and Diamond Sutras Its wealth

of theoretical and practical instruction in living a spiritual life often made it the first major text studied by newly ordained monks particularly in the Chan tradition This Sutra is regarded as a complete and practical manual for spiritual practice that will lead to enlightenment It provides instruction on understanding one's own Buddha nature the potential within every being for becoming a Buddha The Sutra explains how and why this nature is hidden and how we can uncover it and recognize it as our own true mind The Sutra also explains why personal integrity and purity of conduct are prerequisites for spiritual awakening It presents the principles of meditation and provides guidelines for discerning correct practices from those which deviate into wrong ones It explains how our own intentional acts whether physical verbal or mental result in karmic experiences including rebirths into various levels of being both human and non human At the heart of the Sutra is the raga Mantra The Sutra promises that the practice of reciting this mantra in the context of the other practices taught in the Sutra can successfully eliminate internal or external obstacles that block the path of spiritual progress **Aviation Fire**
