Fictions of Home Martin Mühlheim, 2018-04-23 This study aims to counter right wing discourses of belonging It discusses key theoretical concepts for the study of home focusing in particular on Marxist feminist postcolonial and psychoanalytic contributions The book also maintains that postmodern celebrations of nomadism and exile tend to be incapable of providing an alternative to conservative xenophobic appropriations of home In detailed readings of one film and six novels a view is developed according to which home as a spatio temporal imaginary is rooted in our species being and as such constitutes the inevitable starting point for any progressive politics

A Curriculum of Imagination in an Era of Standardization Robert Lake, 2013-03-01 A Curriculum of Imagination in an Era of Standardization In A Curriculum of Imagination in an Era of Standardization An Imaginative Dialogue with Maxine Greene and Paulo Freire a volume in Landscapes of Education Series Editors William H Schubert University of Illinois at Chicago Ming Fang He Georgia Southern University Robert Lake explores with the reader what is meant by imagination in the work of Maxine Greene and Paulo Freire and their relevance in an era of increasingly standardized and highly scripted practices in the field of education The author explores how imagination permeates every aspect of life with the intent to develop capacity with the readers to look beyond the taken for granted to question the normal to develop various ways of knowing seeing feeling and to imagine and act upon possibilities for positive social and educational change The principal aspect of the work illustrated in this book that distinguishes it from other work is that an imaginary dialogue between Maxine Greene and Paulo Freire runs through the book using actual citations from their work Each chapter starts with such a dialogue interspersed with the works of others and the author s critical

autobiographical reflections With a brief overview of the socio cultural evolution of imagination from pre literate times to the present the author explores some of the current iterations of imagination including the eugenics movement and dark imagination sensing gaps and creative critical imagination metaphors as the language of imagination and empathy as social imagination Reflecting upon emerging tensions challenges and possibilities curriculum workers face in such an era of standardization the author calls for a curriculum of imagination After providing a brief overview of the socio cultural evolution of imagination from pre literate times to the present the author looks at some of the current iterations of imagination including the eugenics movement and dark imagination sensing gaps and creative critical imagination metaphors as the language of the imagination and empathy as social imagination All of these ideas are then incorporated in a curriculum of imagination that is envisioned through Joseph Schwab s four commonplaces of curriculum followed by a discussion of emerging tensions issues and possibilities for praxis and scholarship in present and future inquiry

Laughter in Occupied Palestine Chrisoula Lionis, 2016-02-24 Though the current political

situation in Palestine is more serious than ever contemporary Palestinian art and film is becoming paradoxically increasingly funny In *Laughter in Occupied Palestine* Chrisoula Lionis analyses both the impetus behind this shift toward laughter and its consequences arguing that laughter comes as a response to political uncertainty and the decline in nationalist hope Revealing the crucial role of laughter in responding to the failure of the peace process and ongoing occupation she unearths the potential of humour to facilitate understanding and empathy in a time of division This is the first book to provide a combined overview of Palestinian art and film showing the ways in which both art forms have developed in response to critical moments in Palestinian history over the last century These key moments Lionis argues have radically transformed contemporary Palestinian collective identity and in turn Palestinian cultural output Mapping these critical junctions beginning with the Balfour Declaration of 1917 to the Oslo Accords in 1993 she explores the historical trajectory of Palestinian art and film and explains how to the failure of the peace process has led to the present proliferation of humour in Palestinian visual culture

Secularism and Cosmopolitanism Étienne Balibar, 2018-06-19 What is the relationship between cosmopolitanism and secularism the worldwide and the worldly While cosmopolitan politics may seem inherently secular existing forms of secularism risk undermining the universality of cosmopolitanism because they privilege the European tradition over all others and transform particular historical norms into enunciations of truth valid for all cultures and all epochs In this book the noted philosopher Étienne Balibar explores the tensions lurking at this troubled nexus in order to advance a truly democratic and emancipatory cosmopolitanism which requires a secularization of secularism itself Balibar argues for the idea of the universal against its particular dominant institutions He questions the assumptions that underlie popular ideas of secularism and religion and outlines the importance of a new critique for the contemporary world Balibar holds that conflicts between religious and secular discourses need to be reframed from a point of view that takes into account the cultural hybridization migration and mobility and transformation of borders that have reshaped the postcolonial age Among the topics discussed are the uses and misuses of the category of religion and the religious the paradoxical genealogy of monotheism French laïcité's identitarian turn and the implications of the responses to the Charlie Hebdo attacks for an extended definition of free speech Going beyond circumscribed notions of religion and the public sphere *Secularism and Cosmopolitanism* is a profound rethinking of identity and difference that seeks to make room for a renewed political imagination

Education at War Arshad Imtiaz Ali, 2018-04-10 *Education at War The Fight for Students of Color in America's Public Schools* attempts to shape educational research and practice to more explicitly consider the relationship between education capitalism and war and more specifically its impact on students of color The authors as a whole contend that the contemporary specter of war has become a central way that racism and materialism become manifested and practiced within education In particular this collection asserts that the contemporary neoliberal characterization of education and school based reform is situated within the global political economy that has facilitated a growth in the prison and military industrial

complex and simultaneous divestment in education domestically within the U S Education at War attempts to make research relevant by bringing the tensions within young people s lives to the fore The heavy shadow cast by recent U S led wars reorganizes the sites of learning and teaching nationally as well as differentially within specific sites and upon particular communities Nonetheless the examination of this context is not enough Rather we consider how such a contemporary context can facilitate educational spaces for communities and youth to grow their vision for a different and hopefully a more humanizing future Thus the book contributors will collectively explore how resistance can produce the opportunity for rich diverse and transformative learning for marginalized students and communities The lives of People of Color are the forefront of Education at War The Fight for Students of Color in America s Public Schools Whereas there are many attempts to theorize about the global implications of war less attention is paid to the ways that war shapes young lives in the U S particularly in an educational context The book addresses the absence of youth centered discussions regarding education during a political context of neoliberalism and war and provides important perspectives on which to ground critical discussions among students and families education scholars and practitioners and policymakers **Contested Spaces,**

Counter-Narratives, and Culture from Below in Canada Roxanne Rimstead, Domenico A. Beneventi, 2019-02-28

Contested Spaces Counter narratives and Culture from Below in Canada and Quebec explores strategies for reading space and conflict in Canadian and Quebecois literature and cultural performances posing questions such as how do these texts and performances produce and contest spatial practices What are the roles of the nation city community and individual subject in reproducing space particularly in times of global hegemony and neocolonialism And in what ways do marginalized individuals and communities represent contest or appropriate spaces through counter narratives and expressions of culture from below Focusing on discord rather than harmony and consensus this collection disturbs the idealized space of Canadian multicultural pluralism to carry literary analysis and cultural studies into spaces often undetected and unforeseen including flophouses and slums shantytowns and urban alleyways underground spaces and peep shows and inner city urban parks as they are experienced by minorities and other marginalized groups These essays are the products of sustained high level collaboration across French and English academic communities in Canada to facilitate theoretical exchange on the topic of space and contestation uncover geographies of exclusion and generate new spaces of hope in the spirit of pioneering works by Henri Lefebvre Michel Foucault Michel de Certeau Doreen Massey David Harvey and other prominent theorists of space
