Radicalism and Education Reform in 20th-Century China Suzanne Pepper, 2000-07-10 The first comprehensive book to cover the whole sweep of twentieth century Chinese education **The Politics of the Chinese Cultural Revolution** Hong Yung Lee, 1980-01-01 **Reform and Cultural Revolution** David Aers, Sarah Beckwith, 2005 *The Unknown Cultural Revolution* Dongping Han, 2008-12-01 The Unknown Cultural Revolution challenges the established narrative of China's Cultural Revolution which assumes that this period of great social upheaval led to economic disaster the persecution of intellectuals and senseless violence Dongping Han offers a powerful account of the dramatic improvements in the living conditions infrastructure and agricultural practices of China's rural population that emerged in this period Drawing on extensive local interviews and records in rural Jimo County in Shandong Province Han shows that the Cultural Revolution helped overthrow local hierarchies establish participatory democracy and economic planning in the communes and expand education and public services especially for the elderly Han lucidly illustrates how these changes fostered dramatic economic development in rural China The Unknown Revolution documents a neglected side of China's Cultural Revolution demonstrating the potential of mass education and empowerment for radical political and economic transformation It is a bold and provocative work which demands the attention not only of students of contemporary Chinese history but of all who are concerned with poverty and inequality in the world today **Collective Killings in Rural China during the Cultural Revolution** Yang Su, 2011-02-21 The violence of Mao's China is well known but its extreme form is not In 1967 and 1968 during the Cultural Revolution collective killings were widespread in rural China in the form of public execution Victims included women children and the elderly This book is the first to systematically document and analyze these atrocities drawing data from local archives government documents and interviews with survivors in two southern provinces This book extracts from the Chinese case lessons that challenge the prevailing models of genocide and mass killings and contributes to the historiography of the Cultural Revolution in which scholarship has mainly focused on events in urban areas Living with Reform Timothy Cheek, 2013-07-04 China is huge China is growing more powerful Yet China remains a great mystery to most people in the West This contemporary history based on the latest scholarly research offers a balanced perspective of the

continuing legacy of Maoism in the lives not only of China's leaders but China's working people. It outlines the ambitious economic reforms taken since the 1980s and shows the complex responses to the consequences of reform in China today. Cheek shows the domestic concerns and social forces that shape the foreign policy of one of the world's great powers. His analysis will equip the reader to judge media reports independently and to consider the experience and values not only of the Chinese government but China's workers, women and minorities.

Victims of the Cultural Revolution

Wang, 2023-02-23 Between 500,000 to 2 million people died in the Cultural Revolution. Yet a silence remains as to why. Over eleven years in Mao's China an all-out assault on class enemies took place. Teenagers smashed their teachers' skulls. Doctors were tortured in jail as foreign spies. Ordinary people condemned counter-revolutionaries to execution and then went home and ate their dinner. This was less than fifty years ago. But the victims are being forgotten already. Wang Youqin unmasks the true brutality of the Cultural Revolution. Documenting the deaths of over six hundred individuals, *Victims of the Cultural Revolution* calls on us to remember the evil ideological fanaticism wreaks and pays tribute to all those who suffered.

Listening to China's Cultural Revolution Laikwan Pang, Paul Clark, Tsan-Huang Tsai, 2016-01-26 Bringing together the most recent research on the Cultural Revolution in China, musicologists, historians, literary scholars and others discuss the music and its political implications. Combined, these chapters paint a vibrant picture of the long-lasting impact that the musical revolution had on ordinary citizens as well as political leaders.

Liu Shaoqi and the Chinese Cultural Revolution

Lowell Dittmer, 2015-02-12 By addressing the issues that decimated China's monolithic elite in the late 1960s, this text illuminates not only the life and fate of Liu Shaoqi but also the policy-making process of a revolutionary state facing the diverting exigencies of economic modernization and political development.

China in the Era of Deng Xiaoping: A

Decade of Reform M.Y.M. Kau, Susan H. Marsh, Michael Ying-mao Kau, 2016-09-16 This is a reference on the ten years 1978 to 1987 of Deng Xiaoping's power in China. It also offers the views of Sinologists of the time. The concluding section examines policy implications arising from Deng's rule for the four great East Asian powers.

Unstately Power: Local causes of

China's economic reforms Lynn T. White, 1998 China's dramatic reforms are usually said to have been caused by the policies of state leaders under Deng Xiaoping. This fascinating new study by one of the West's leading authorities on contemporary China shows, however, that reforms began and are maintained by local networks. They emerged first in the economy partly as unintended results of previous policies. Agricultural extension in Mao Zedong's time freed so much labor from the land in rich areas such as the Shanghai delta that peasant leaders set up rural industries to employ clients. Many of these leaders were avowed state cadres but they acted for local constituencies more than for Beijing. Their initiatives can be documented in the early 1970s long before the 1978 proclamation of new enterprises which the central bureaucracy could not monitor, taking materials and markets away from state industries. This caused socialist control of input prices and commodity flows to collapse by the mid-1980s. As a result, shortages and inflation bedeviled the economy; the state ran deficits.
