Rock Rabbit And The Rainbow:

The Rock Rabbit and The Rainbow Robert Hinshaw, 1998 The Black Madonna Fred Gustafson, It is not easy to quickly or simply answer the question of what the Black Madonna actually represents One answer leads to more questions which in turn demand more explanations A possible reason for this turmoil lies in the difficulty our culture has always had in consciously integrating the feminine side of life and especially its dark side Another reason is the nature of the dark feminine itself which defies attempts to give eternally fixed limits to what she represents Still she reflects herself in our personal and collective lives and gives intimations of her most essential meaning through images myths dreams and fantasies If we are willing to receive and be open to such phenomena we stand a chance of not only knowing in part what she might represent but more so experiencing the healing force she embodies in our time This darker aspect of the feminine has throughout history been both feared and sought after both hated and admired The Black Madonna of Einsiedeln stands among the many Black Virgins that seem to imagistically express this dark side of the feminine in a creative transformational manner for both the individual and the collective Beginning with a history of the Einsiedeln Madonna Dr Gustafson broadens his analysis into a psychological and historical examination of the Black Madonna from her roots in the pagan deity Lilith and the archetype of the Great Mother to her resurgence as the Virgin in the Middle Ages to her life today as the unheeded unconscious archetype of the feminine The Girl who Made Stars Wilhelm Heinrich Immanuel Bleek, Lucy Lloyd, 2001 These beautiful and timeless stories from the African Bush were gathered more than a century ago and have touched thousands of readers ever since The South African born author Sir Laurens van der Post revered them and helped to make them known throughout the world For this special new edition Gregory McNamee has adapted the original nineteenth century English translations to create modern versions of the stories for readers without a prior knowledge of the Bushman ways of life The stories in this book carry universal observations and truths and with their historical and ethnographic roots in the African Bushman culture they are fascinating and educational for readers and listeners of all ages They bear powerful testimony to a desert people living at one with Nature *A Psychological Interpretation of Ruth* Yehezkel Kluger, 1999 The biblical Book of Ruth is a love story apparently personal and simple of love between women and between man and woman told in poetic imagery and style Barely hiding within this immediate beauty are the archetypal depths which reveal nothing less than the eternal mystery of a love which brings about redemption and individuation both personal and transcendent human and divine Dr Kluger wrote the original interpretation as part of the requirements of the first graduating class of the Jung Institute in Zurich He later updated his work but the thesis remains the same the return of the feminine principle in the Bible To this end he examines the fate and role of the feminine as she travels from ancient times through various goddesses to the person of Ruth and her destiny as restoring the original totality of masculine and feminine in equal interacting balance In counterpoint to the scholarly style of her father while in unison with his interpretations Nomi Kluger Nash has written a woman's subjective reactions to the story

of Ruth Naomi and Orpah To this associative style she brings further amplifications from Kabbalah into the meaning of these women who carry aspects both light and dark of the Shekhinah the feminine presence of God

Florence 98, Destruction and Creation Personal and Cultural Transformation Mary Ann Mattoon, 1999 The Fourteenth Congress for Analytical Psychology was held August 23-28 1998 in the ancient city of Florence Italy The theme Destruction and Creation Personal and Cultural Transformations is especially appropriate to the Italian setting with that nation's history of destruction both from nature and from human activity and its tradition especially in Florence of creative individuals and institutions The theme is fitting also to the context of Jungian psychology with its emphasis on these and other pairs of opposites with their integral role in psychic wholeness Acknowledging also that destruction is indispensable to creation some Jungians prefer the term creative unconscious to the traditional collective unconscious
