Rodeo An Anthropologist Looks At The Wild And The Tame:

Rodeo, an Anthropologist Looks at the Wild and the Tame Elizabeth A. Lawrence, **Rodeo** Elizabeth Atwood Lawrence, 1984-05-15 Rodeo people call their sport more a way of life than a way to make a living Rodeo is in fact a rite that not only expresses a way of life but perpetuates it reaffirming in a ritual contest between man and animal the values of American ranching society Elizabeth Atwood Lawrence uses an interpretive approach to analyze rodeo as a symbolic pageant that reenacts the winning of the West and as a stylized expression of frontier attitudes toward man and nature Rodeo contestants are the modern counterparts of the rugged and individualistic cowboys and the ethos they inherited is marked by ambivalence they admire the wild and the free yet desire to tame and conquer Based on extensive field work and drawing on comparative materials from other stock tending societies Rodeo is a major contribution to an understanding of the role of performance in society the culturally constructed view of man's place in nature and the structure and meaning of social relationships and their representations *Gender, Whiteness, and Power in Rodeo* Tracey Owens Patton, Sally M. Schedlock, 2012-08-31 The lure of cowgirls and cowboys has hooked the American imagination with the lure of freedom and adventure since the turn of the twentieth century The cowboy and cowgirl played in the imagination and made rodeo into a symbolic representation of the Western United States As a sport that is emblematic of all things Western rodeo is a phenomenon that has since transcended into popular culture Rodeo's attraction has even spanned oceans and lives in the imaginations of many around the world From the modest start of this fantastic sport in open fields to celebrate the end of a long cattle drive or to settle a friendly who's the best bet between neighboring ranches rodeo truly has grown into an edge of the seat money drawing and crowd cheering favorite pastime However rodeo has diverse history that largely remains unaccounted for unexamined and silenced In *Gender Whiteness and Power in Rodeo* Tracey Owens Patton and Sally M. Schedlock visually explore how race gender and other issues of identity complicate the mythic historical narrative of the West The authors examine the experiences of ethnic minorities specifically Latinos American Indians and African Americans and women who have continued to be marginalized in rodeo Throughout the book Patton and Schedlock questioned the binary divisions in rodeo that exists between women and men and between ethnic minorities and Whites divisions that have become naturalized in rodeo and in the mind of the general public Using iconic visual images along with the voices of the marginalized Patton and Schedlock enter into the sometimes acrimonious debate of cowgirls and ethnic minorities in rodeo Animals and the Law Jordan Curnutt, 2001-11-02 Offers a comprehensive overview of the legislation and legal issues surrounding animals Written by Jordan Curnutt *Animals and the Law* covers everything from the Silver Spring monkeys subjects in the first U.S. lab raided by police where criminal charges were filed against a scientist conducting federally funded research to sex with animals Among the subjects reviewed are kosher and Halal food restrictions mad cow disease and cattle cannibalism animals in laboratories and as entertainment in circuses zoos rodeos horse racing cockfighting and

more Also included are appendixes of animal organizations cases statutes and regulations and an extensive bibliography

Reversible America Frédéric Saumade, Jean-Baptiste Maudet, 2024-07-01 Rodeo cattle ranching and bullfighting converge in the arenas of race gender and ethics in Reversible America In Southwestern California these sports manifest in spectacular expressions of transcultural interactions that continue to develop through border crossings Using an interdisciplinary scope this unique look into the subculture negotiates the paradoxes and connections between the popular American performances Iberian bullfighting and Native American hunting methods along with the relationship between human and non human beings and systems of value across borders

Sport and Its Female Fans Kim Toffoletti, Peter Mewett, 2012-10-12 Why do women follow sports How do they participate from the sidelines and what is the significance of this contribution What can female fandom tell us about gender relations in sport This book explores these and related questions by bringing together the varied strands of research being conducted internationally across the social sciences and humanities on this emerging and topical field While sports spectatorship is a popular and well respected site of analysis no book length scholarly contribution documents women s experiences of sports fandom For this reason there is an obvious need for a book that offers researchers students and non professional readers an authoritative introduction to women s modes of sport support Sport and Its Female Fans will be a landmark contribution in the field of sport research and in studies of sports fandom making an original contribution to the growing yet under researched area of female sports spectators

on the relations between humans and domesticated animals in U S society illuminating how these relations were integral to key developments of the long nineteenth century A first section explores the role of domesticated animals in what for most of the nineteenth century remained a predominantly agrarian world albeit one undergoing significant change focussing on the labour and products that could be extracted from animal bodies the education of working animals contemporary attempts at improving animal breeds to increase agricultural productivity and market value the rise of veterinary medicine and other topics The second section demonstrates that the transportation revolution of the antebellum decades notwithstanding animals remained essential for moving around goods and people in both rural areas and the growing U S cityscapes where horses powered everything from carriages to streetcars as well as in other nineteenth century contexts that relied on equine bovine and sometimes canine traction A third and final section is centred on domesticated animals in entertainment and competitive settings ranging from the prestigious if embattled sport of Thoroughbred horse racing to pigeon fancying and the brutal spectacles of dog and cockfighting which quickly became the target of a spirited post Civil War anticruelty movement
