**Peace—Love—Joy—Gratitude** Jean Maalouf,2019-08-09 Humankind is at the present time reaching a critical point in history A disaster of apocalyptic proportions could erupt at any time I know not with what weapons World War III will be fought predicted Albert Einstein but World War IV will be fought with sticks and stones What we are to do in order to prevent such catastrophic events We are to change the way we think insists philosopher Maalouf We are to see people and things in different ways We are to see with God s eyes We are to witness the birth of a new consciousness For philosopher Jean Maalouf who holds two Ph D s and who has published more than forty books one needs to go beyond the symptoms he affirms and find the root causes of our crises His new book Awakening to the Power of Peace Love Joy Gratitude goes straight to the very core of our crises and points the way to their solutions The truth is that the battlefield is not primarily on the land where people confront and kill each other The true battlefield is where decisions are made in the people s minds hearts and souls This is also where solutions should be found Dr Maalouf invites us to change the way we perceive reality so that a new way of living can emerge If we don t learn to love one another and to live together in peace we will continue to kill each other and we will perish together We are interconnected We are interdependent What we think about how we see things and what we say and do and the way we live our life matter greatly We ly all of us together we should live in peace love joy and gratitude

proposed by Pope Francis and the Synod on the family on such contested issues as same sex relations divorce and remarriage and reception and denial of Holy Communion in the church among other divisive issues These important essays and commentaries show the strengths and weaknesses of this papal commentary and point out the missing link in the global conversation on marriage family and same sex relations Their argument for the inclusion of African perspectives and moral traditions in the search for a third way in finding an inclusive and integrated pastoral art of accompaniment is very compelling The authors here also call for the inclusion of Africa s own unique challenges like polygamy childless marriages and the impact of migration civil conflict diseases ecological and population crises and the rights of African women in the global discussion on marriage and family life They also challenge uncritical clichés in world Christianity that Africa s opposition to same sex marriages or Western propaganda about population or birth control and contraception are conservative while showing diverse African conversations on these topics in the search for abundant life on this beautiful continent
