### **Worship and Congregational Singing**

David Neu,2016-06-30 This book constitutes the author s effort to provide a biblical foundation for answers to questions regarding congregational singing The present work is broader in scope than the author s smaller book *Volumes of Praise for a Vanishing God* and unlike the earlier volume contains full documentation and end notes many of which pursue topics of interest that are mentioned only briefly in the text proper Each chapter of this book ends with a brief list of questions to spur further study and discussion It is hoped that this book may be useful as a text for a seminary course on congregational singing a course that the author believes to be great need for the church of the twenty first century Special attention is given to the issues raised in the music wars of the past fifty years
