Kilbourn, 2023-08-24 Feminist Posthumanism and feminist theory into dialogue with contemporary science fiction film and media This essay collection is intimately invested in the debates around the posthuman and the critical posthumanities within a feminist critical theoretical framework In this posthumanist light science fiction as a genre allows for new imaginings of human technological relations while it can also be the site of a critique of human exceptionalism and essentialism In this way science fiction affords unique opportunities for the scholarly investigation of the relevance and relative applicability of specific posthumanist themes and questions in a particularly rich and wide ranging popular cultural field of production One of the reasons for this suitability is the genre's historically longstanding relationship with the critical investigation of gender specifically the position and relative empowerment of women The original analyses presented here pay close attention to audiovisual style including game mechanics facilitating the critical interrogation of the issues and questions around posthumanism Where typically the mention of SF in the posthumanist context calls to mind a whole set of often clichéd tropes the cyborg technologically augmented bodies AI subjectivities etc this volume's thirteen chapters analyze specific examples of contemporary SF cinema that engage in meaningful ways with the burgeoning field of critical posthumanism and that utilize such films to interrogate posthumanist and feminist as well as humanistic ideas **Books in Print**, 1991 Miracles of Love Nora Martin Peterson, 2021-11-12 Before children's stories came to exemplify the French fairy tale early modern audiences read the works of women writers known as conteuses From the late seventeenth century through the Revolution the conteuses published rich complex tales that were popular in literary salons and elite courtly settings These unpredictable works feature candid representations of female desire strong support for the education of women and surprising twists on the fairy tale formulas familiar to readers of Charles Perrault Not only witty and entertaining the tales also comment on the unfair treatment of

women that the authors saw in society history and myth Brief biographies introduce to new audiences writers who challenged social conventions won popular and critical acclaim and defined the fairy tale genre in their own time **Family and Relationships in Ian McEwan's Fiction** Tomasz Dobrogoszcz, 2018-02-23 The book provides a lucid analysis of all Ian McEwan fiction published to date from his 1975 debut short stories up to the 2016 novel *Nutshell* spanning forty years of his literary career Apart from a general discussion of McEwan's works the study offers a uniform focal point it concentrates on one of the key issues taken up by the writer the aspect of relationships between partners and between family members As the book demonstrates the novelist employs interpersonal relations to establish a pertinent context in which he can dramatically portray the process of identity formation in his characters Throughout his fiction McEwan consistently uses references to psychoanalysis either veiled or direct The proposed book investigates the novelist's oeuvre through the lens of the psychoanalytic theory developed by Jacques Lacan The approach used makes the book useful both for readers well familiar with this apparatus and for those who need introduction to Lacanian psychoanalysis and such of his concepts as desire fantasy the symbolic order or the Name of the Father *Contemporary Novelists* Noelle Watson, 1991 Contains entries for each author with a biography a list of separately published books and an essay *Saturday Review of Literature*, 1926
