**Waterpower in Lowell** Patrick M. Malone, 2009-09-22 Patrick M Malone demonstrates how innovative engineering helped make Lowell Massachusetts a potent symbol of American industrial prowess in the 19th century Waterpower spurred the industrialization of the early United States and was the principal power for textile manufacturing until well after the Civil War Industrial cities therefore grew alongside many of America s major waterways Ideally located at Pawtucket Falls on the Merrimack River Lowell was one such city a rural village rapidly transformed into a booming center for textile production and machine building Malone explains how engineers created a complex canal and lock system in Lowell which harnessed the river and powered mills throughout the city James B Francis arguably the finest engineer in 19th century America played a key role in the history of Lowell s urban industrial development An English immigrant who came to

work for Lowell's Proprietors of Locks and Canals as a young man Francis rose to become both the company's chief engineer and its managing executive Linking Francis's life and career with the larger story of waterpower in Lowell Malone offers the only complete history of the design construction and operation of the Lowell canal system Waterpower in Lowell informs broader understanding of urban industrial development American scientific engineering and the environmental impacts of technology Its clear and instructional discussions of hydraulic technology and engineering principles make it a useful resource for a range of courses including the history of technology urban history and American business history *Lowell Then and Now* Charles Parrott, Gretchen Sanders Joy, 1995 IA, 1997 **Department of the Interior and related agencies appropriations for 1990** United States. **Our Paper**, 1896 **Why Antislavery Poetry Matters Now** Brian Yothers, 2023 This book is a history of the nineteenth century poetry of slavery and freedom framed as an argument about the nature of poetry itself why we write it why we read it how it interacts with history The poetry of the transatlantic abolitionist movement represented a powerful alliance across racial and religious boundaries today it challenges the demarcation in literary studies between cultural and aesthetic approaches Now is a particularly apt moment for its study This book is a history of the nineteenth century poetry of slavery and freedom framed as an argument about the nature of poetry itself why we write it why we read it how it interacts with history Poetry that speaks to a broad cross section of society with moral authority intellectual ambition and artistic complexity mattered in the fraught years of the mid nineteenth century Brian Yothers argues that it can and must matter today Yothers examines antislavery poetry in light of recent work by historians scholars in literary cultural and rhetorical studies African Americanists scholars of race and gender studies and theorists of poetics That interdisciplinary sweep is mirrored by the range of writers he considers from the canonical Whitman Barrett Browning Beecher Stowe DuBois Melville to those whose influence has faded Longfellow Lydia Huntley Sigourney John Pierpont John Greenleaf Whittier James Russell Lowell to African American writers whose work has been recovered in recent decades James M Whitfield William Wells Brown George Moses Horton Frances E W Harper *The Poetry Circuit* Peter B. Howarth, 2024-09-17 Live performance has changed poetry more than anything else in the last hundred years it has given poets new audiences and a new economy and it has generated new styles from Imagism to confessional to contemporary Spoken Word But the creative impact that public reading had right through the twentieth century has not been well understood Mixing close listening to archive performances with intimate histories of modernist venues and promoters *The Poetry Circuit* tells the story of how poets met their audience again and how the feedback loops between their voices the venues and the occasions turned poems into running dramas

between poet and listener A nervous T S Eliot reveals himself to be anything but impersonal while Marianne Moore's accident prone readings become subtle ways of keeping her poems in constant re draft Robert Frost used his poems to spar with his fans and rivals while Langston Hughes wrote Ask Your Mama to expose the prejudice circulating in the room as he spoke it The Poetry Circuit also shows how the post war reading boom made new kinds of poetry involving their audience and setting in the performance such as John Ashbery's anti charismatic Poets Theatre Amiri Baraka's documentary soundtracks of the streets or the confessional readings of Allen Ginsberg which shame the listeners more than the poet Covering the first seventy years of the poetry reading The Poetry Circuit demonstrates that there never were page and stage poets the reading simply changed what every modern poet could do
