more accurately with their unquenchable desire for financial security While the church has developed diverse responses to the problems of poverty it is often silent on what seems almost as straightforward a biblical principle that wealth too is a problem By considering the particular context of the recent economic history of Ireland this book explores how the parables of Jesus can be the key to unlocking what it might mean to follow Christ as wealthy people without diluting our dilemma or denying the tension Through an engagement with contemporary economic and political thought aided by the work of Karl Barth and William T Cavanaugh this book represents a unique and innovative intervention to a discussion that applies to every Christian in the Western world *Mystery House* Fran Johnson,2008-12 **You, Improved** Martha

*Institutions in Crisis* David Howden, 2011 An important and timely contribution David Howden has brought together an excellent collection of essays which go beyond the theoretical discussion of Austrian business cycle theory exploring instead its empirical relevance to one of the most serious financial crises in modern European history Mark Pennington Queen Mary University of London UK This is an important and refreshing book which provides an approach of current problems quite different from what is too often written In my opinion it is the only correct analysis of the economic crisis and of European problems In spite of the diversity both of contributors and topics a common and rigorous intellectual foundation gives unity and strength to this book It offers the clues for the best understanding of present and future economic problems Pascal Salin Emeritus Professor of Economics University Paris Dauphine France The current European recession is being offered as an excuse for a wider more expansive centralized Europe Failure to recognize the true causes of the recession failed institutions that have plagued Europe for years and will continue to do so if permitted to continue will prolong the current malaise and hold Europe back from its new future Let us hope that the current volume does much to bring this new Europe to us From the foreword by Jes s Huerta de Soto This critical and thought provoking book explores the causes and consequences of Europe's failed political and economic institutions Europe's recession has created new challenges as market turmoil has shaken the foundations of the twin pillars of the new drive for European integration political and monetary unions This book critically assesses the patchwork solutions continually offered to hold the troubled unions together Failed political policies from the prodigious Common Agricultural Policy to ever more common fiscal stimulus packages are shown to have bred less than stellar results in the past and to have devastating implications for future European growth The contributors outline the manner through which European monetary union has subsidized and continues to exacerbate the burgeoning debt crisis Most strikingly the interplay between Europe's political and economic realms is exposed as the boondoggle it is with increasingly bureaucratic institutions plaguing the continent and endangering future potential Combining political and economic analysis this comprehensive book will prove essential for researchers and students in international business and macroeconomics Educated laymen wanting a keener perspective on Europe's recession will also find this book to be invaluable
