Essays charting the diverse works of renowned conceptual artist Dan Graham Digital Image Systems Claus Gunti,2020-01-07 In *Digital Image Systems* Claus Gunti examines the antagonizing reactions to digital technologies in photography While Thomas Ruff Andreas Gursky and J rg Sasse have gradually adopted digital imaging tools in the early 1990s other photographers from the D sseldorf School have remained faithful to film based technologies By evaluating the aesthetic and discursive preconditions of this situation and by extensively analyzing the digital work of these three photographers this book shows that the digital turn in photography was anticipated by the conceptualization of images within systems and thus offers new perspectives for understanding the digital revolution *Service* John Tottenham,2025-05-06 A darkly comic novel set on the lower slopes of the Los Angeles literary world I stepped out to behold a crimson streaked sky that would soon be adorning ten thousand Instagram posts and walked down the sleepy residential streets suffused with a soft and forgiving evening light to the main drag It felt like the end here both sanctuary and termination a soft place of harsh realities where a sun that once meant something barely brushed against the world The perfect spring evening was blighted only by the citizenry A journalist in his late forties having lost his job as a consequence of the death of print media finds himself working at a bookstore in a rapidly gentrifying Los Angeles neighborhood where he is thrown into the company of a younger generation with whom he has little in common Embittered by his lowly position at this late stage of what had once been a promising career he collapses his longtime ambition of writing a novel into a hilariously cathartic litany of contempt for his present circumstances *Service* examines the plight of the unrepentant artistic outsider in an unforgiving day and age It alternates between passages that painstakingly describe the protagonist s fraught attempts to write his novel and such scenes of service work as wrapping children s books for Silver Lake moms and being pilloried by dunces on Yelp As his writing process stalls in a stale ceremony of indolence and self doubt these unfamiliar humiliations become a toxic wellspring for his irascible observations With his notoriously dry wit John Tottenham s debut novel reflects on a farrago of contemporary afflictions gentrification debt friendship aging gracelessly self medication male vanity professional jealousy the perils of political correctness and the role of literature in the digital era Eventually after endlessly agonizing about matters of form and style he finds that despite himself he has actually written a book **Beckett's Breath** Goudouna Sozita

Goudouna,2018-01-15 Examines the intersection of Samuel Beckett s thirty second playlet *Breath* with the visual arts Samuel Beckett one of the most prominent playwrights of the twentieth century wrote a thirty second playlet for the stage that does not include actors text characters or drama but only stage directions *Breath* 1969 is the focus and the only theatrical text examined in this study which demonstrates how the piece became emblematic of the interdisciplinary exchanges that occur in Beckett s later writings and of the cross fertilisation of the theatre with the visual arts The book attends to fifty breath

related artworks including sculpture painting new media sound art performance art and contextualises Beckett's *Breath* within the intermedial and high modernist discourse thereby contributing to the expanding field of intermedial Beckett criticism Key Features Examines Beckett's ultimate venture to define the borders between a theatrical performance and purely visual representation Juxtaposes Beckett's *Breath* with breath related artworks by prominent visual artists who investigate the far reaching potential of the representation of respiration by challenging modernist essentialism The focus on this primary human physiological function and its relation to arts and culture is highly pertinent to studies of human performance the nature of embodiment and its relation to cultural expression Facilitates new intermedial discourses around the nature and aesthetic possibilities of breath the minimum condition of existence at the interface between the visual arts and performance practices and their relation to questions of spectacle objecthood and materiality Multi-media Nick Kaye, 2007-03-16 Multi media charts the development of multi media video installation and performance in a unique dialogue between theoretical analysis and specially commissioned documentations by some of the world's foremost artists Nick Kaye explores the interdisciplinary history and character of experimental practices shaped in exchanges between music installation theatre performance art conceptual art sculpture and video The book sets out key themes and concerns in multi media practice addressing time space the resurgence of ephemerality liveness and aura These chapters are interspersed with documentary artwork and essays by artists whose work continues to shape the field including new articles from Vito Acconci The Builders Association John Jesurun Pipilotti Rist Fiona Templeton Multi media also reintroduces a major documentary essay by Paolo Rosa of Studio Azzurro in a new fully illustrated form This book combines sophisticated scholarly analysis and fascinating original work to present a refreshing and creative investigation of current multi media arts practice

Capital since the 1980s Bill Roberts, 2019-08-02 This book examines artists' engagements with design and architecture since the 1980s and asks what they reveal about contemporary capitalist production and social life. Setting recent practices in historical relief and exploring the work of Dan Graham, Rita McBride, Tobias Rehberger, and Liam Gillick, Bill Roberts argues that design is a singularly valuable lens through which artists evoke, trace, and critique the forces and relations of production that underpin everyday experience in advanced capitalist economies. **The Essay Film After Fact and Fiction** Nora M. Alter, 2018-01-02 Nora M. Alter reveals the essay film to be a hybrid genre that fuses the categories of feature art and documentary film. Like its literary predecessor, the essay film draws on a variety of forms and approaches; in the process, it fundamentally alters the shape of cinema. *The Essay Film After Fact and Fiction* locates the genre's origins in early silent cinema and follows its transformation with the advent of sound, its legitimation in the postwar period, and its multifaceted development at the turn of the millennium. In addition to exploring the broader history of the essay film, Alter addresses the innovative ways contemporary artists such as Martha Rosler, Isaac Julien, Harun Farocki, John Akomfrah, and Hito Steyerl have taken up the essay film in their work. *Art Index Retrospective*, 1995 *Syntax of Landscape* Udo Weilacher, 2007-10-05 Peter Latz and Partners specialize in a contemporary, intelligent use of alternative technologies and the regeneration of industrial wastelands. The trademark of the works of the firm, which was founded in 1968, is its ability to express ecological and social concerns in a strong aesthetic language. **Emscherkunstweg** Vera Battis-Reese, Karola Geiß-Netthöfel, Uli Paetz, Britta Peters, 2024-02-26 The Emscherkunstweg Emscher Art Trail currently comprises 23 works of public art on the banks of the Emscher River in the heart of the Ruhr region in western Germany. Once the most polluted river in Europe, the Emscher has been dramatically transformed from a drainage system into a natural river landscape. Between 2010 and 2016, three Emscher art exhibitions accompanied this ecological tour de force. Since 2019, the permanent works of art resulting from these exhibitions have formed the starting point for the expansion into the Emscher Art Trail. This volume is the first to offer an overview of all the works; in particular, the new works by Julius von Bismarck, Marta Dyachenko, David Jablonowski, Markus Jeschke, Sofie T. Boas, and Nicole Wermers. It also addresses questions surrounding the preservation and potential of art in public space and its relationship to the region's industrial culture. The book is an ideal travel companion and reference work for discovering art on over 100 kilometers of cycle paths. **Artbibliographies Modern**, 1999
