Mad The Bad And The Different Essays In Honor Of Simon Dinitz:

The Mad, the Bad, and the Different Israel L. Barak-Glantz, C. Ronald Huff, 1981 **The Mad the Bad and the Different. Essays in Honour of Simon Dinitz** Israel L. Barak-glantz, 1981 **Political Psychology** John T. Jost, Jim Sidanius, 2004 First Published in 2004 Routledge is an imprint of Taylor Francis an informa company **Social Cohesion and Legal Coercion** Leon Shaskolsky Sheleff, 2021-11-15 The book is a critical analysis of the work of Max Weber Emile Durkheim and Karl Marx It focuses on their separate analyses of the role of law in society pointing out their faults and errors and the resultant impact on modern social science The author takes issue with Weber s work on rationality with Durkheim s work on repressive and restitutive law and with Marx s work on social justice and law as part of the super structure In each section of the book he shows the implications that flow from a re assessment and re interpretation of their work for an understanding of society The book is multi disciplinary making ample reference to law sociology anthropology history religion ecology criminology philosophy and economics Its various chapters discuss a wide range of themes including rationality tradition science political authority conflict resolution community justice and altruism *International Handbook of White-Collar and Corporate Crime* Henry N. Pontell, Gilbert L. Geis, 2010-05-27 Insider trading Savings and loan scandals Enron Corporate crimes were once thought of as victimless offenses but now with billions of dollars and an increasingly global economy at stake this is understood to be far from the truth The International Handbook of White Collar and Corporate Crime explores the complex interplay of factors involved when corporate cultures normalize lawbreaking and when organizational behavior is pushed to unethical and sometimes inhumane limits Featuring original contributions from a panel of experts representing North America Asia Europe and Australia this timely volume presents multidisciplinary views on recent corporate wrongdoing affecting economic and social conditions worldwide Criminal liability and intent Stock market and financial crime Bribery and extortion Computer and identity fraud Health care fraud Crime in the professions Industrial pollution Political corruption War crimes and genocide Contributors offer case studies historical and sociopolitical analyses theoretical and legal perspectives and comparative studies featuring examples as varied as NASA Parmalat the Italian government and Watergate Criminal justice responses to these phenomena the role of the media in exposing or minimizing them prevention regulation and self policing strategies and larger global issues emerging from economic crime are also featured Richly diverse in its coverage The International Handbook of White Collar and Corporate Crime is stimulating reading for students academics and professionals in a wide range of fields from criminology and criminal justice to business and economics psychology to social policy to ethics This powerful information is certain to change many of our deeply held views on criminal behavior **Understanding Islamist Terrorism in Europe** Lewis Herrington, 2021-07-22 This book argues that guilt shame and remorse associated with a history of substance abuse explain why a minority of Islamist extremists carried out suicide terrorism in Europe between 2001 and 2018 Since 9 11 Islamist terrorism has dominated the European security

landscape but there has been little systematic analysis of either the attacks or the men responsible This book addresses that gap drawing on terrorist discourse court transcripts elite interviews government reports and three years of ethnography to provide an exhaustive account of how and why Islamist terrorism has occurred in Europe Making a detailed analysis of 48 terrorist attacks carried out by 80 suicide terrorists the book introduces two new theories The first argues that most of these men first engaged in Islamist extremism as an alternative to substance abuse The second contends that following a five stage process of radicalisation cognitive dissonance triggered guilt shame and remorse over previous misconduct From this emotional distress suicide terrorism emerged as a rational choice ahead of either suicide or a return to active addiction This book argues that the root cause of suicide terrorism in Europe is not so much politics or religion but is more about personal crisis and a search for redemption This book will be of great interest to students of terrorism counterterrorism de radicalisation political Islam and security studies in general The ^AThree Pillars of Radicalization Arie W.

Kruglanski,Jocelyn J. Bélanger,Rohan Gunaratna,2019-04-15 Arie W Kruglanski Jocelyn J B langer and Rohan Gunaratna present a new model of radicalization that takes into account factors that activate the individual s quest for significance Synthesizing varied empirical evidence this volume reinterprets prior theories of radicalization and examines major issues in deradicalization and recidivism which will only become more relevant as communities continue to negotiate the threat of extremism **Terrorists, Victims and Society** Andrew Silke,2003-11-14 In today s climate there is a powerful need for a balanced expert and accessible account of the psychology of terrorists and terrorism Written by an expert team of psychologists and psychiatrists these contributors have direct experience of working with terrorists victims and those tasked with the enormous responsibility of attempting to combat terrorism The first section focuses on terrorists as individuals and as groups and provides a balanced and objective insight into the psychology of terrorists what their motivations are and what keeps them involved in terrorist groups The second section explores the huge question of the impact of terrorism the direct and indirect affect on victims how societies respond and how political leaders handle the threat and consequences of terrorism The final section focuses on the question of how to respond to terrorist threat The most up to date account of our understanding of terrorists their psychology and the impact they have on the world around them Written by leading world experts on terrorist psychology A complete view of terrorism looks at the terrorists themselves their victims and society as a whole **Critique and Radical Discourses on Crime** George Pavlich,2019-07-12 This title was first published in 2000

Critique and Radical Discourses on Crime develops a unique line of thought in contemporary criminology re examining an under researched dimension of radical discourse In particular it focuses attention on the distinguishing feature of radical discourses their allegiance to various visions of critique The book reassesses the genres of critique evident in previous forms of radical criminology formulates a different genre of critique appropriate to the uncertainties of postmodern conditions and shows how these genres can be articulated to differently conceived radical discourses on crime **Jihad in the West**

Frazer Egerton,2011-03-17 Militant Salafism is one of the most significant movements in politics today Unfortunately its significance has not been matched by understanding To begin to address this knowledge deficit this book argues that rather than the largely unhelpful pursuit of individual root causes offered in much of the literature we would be better served by looking at the factors that have enabled and facilitated a particular political imaginary That political imaginary is one that allows individuals to conceive of themselves as integral members of a global battle waged between the forces of Islam and the West something that lies at the heart of militant Salafism Frazer Egerton shows how the ubiquity of modern media and the prevalence of movement have allowed for a transformation of existing beliefs into an ideology supportive of militant Salafism against the West amongst Western Muslims The Motivated Mind Arie Professor Kruglanski,2018-02-02 In the World Library of Psychologists series international experts themselves present career long collections of what they judge to be their finest pieces extracts from books key articles salient research findings and their major practical theoretical contributions In this volume Arie Kruglanski reflects on the development throughout his distinguished career of his wide ranging research covering radicalisation human judgement and belief formation group and intergroup processes and motivated cognition This collection offers an invaluable insight into the key works behind the formation of Kruglanski s seminal theory of lay epistemics as well as his important input into a diverse range of fields of social psychology A specially written introduction gives an intimate overview of this career and contextualises the selection in relation to changes in the field during this time With continuing relevance today and of vast historical importance this collection is essential reading for anyone with an interest in goals belief formation group processes and social psychology in general **The Origins of American Criminology** Francis T. Cullen,Cheryl Lero Jonson,Andrew J. Myer,Freda Adler,2017-09-08 The Origins of American Criminology is an invaluable resource Both separately and together these essays capture the stories behind the invention of criminology s major theoretical perspectives They preserve information that otherwise would have been lost There is urgency to embark on this reflective task given that the generation that defined the field for the past decades is heading into retirement This fine volume insures that their life experiences will not be forgotten The volume shows criminology to be a human enterprise Ideas are not driven primarily and often not at all by data Theories are not invented solely as part of the scientific process they are not inevitable American criminology s great theories most often precede the collection of data they guide and produce empirical inquiry not vice versa Theoretical paradigms are shaped by a host of factors scholars assumptions about the world drawn from their social constructs disciplinary content and ideology cognitive environments found in specific universities and the field s scholarly networks and quirks in a person s biography The volume demonstrates that humanity is what makes theory possible Diverse experiences when we were born where we have lived the unique trajectories of our personal life courses the disciplines and academic places we have ended up allow individual scholars to see the world differently **Exclusion and Extremism** Andrew H. Hales,Kipling D. Williams,2024-05-23

Explore social exclusion's link to extremism and find prevention and deradicalization strategies through evidence based research

The Routledge Handbook on Radicalisation and Countering Radicalisation Joel Busher, Leena Malkki, Sarah Marsden, 2023-11-28 This handbook provides a theoretical and methodological exploration of the research on radicalisation and counter radicalisation one of the most influential concepts in Security Studies International Relations and Peace and Conflict Studies Sitting at the heart of high profile research and policy agendas on preventing and countering violent extremism CVE radicalisation as a concept has transformed the way researchers policymakers and societies think about how to counter terrorism and political violence Deliberations about radicalisation and countering radicalisation have become further embedded as efforts to prevent and counter violent extremism have been mainstreamed into other areas of public policy and practice such as education gender relations health peacebuilding aid and development Theoretically and methodologically pluralistic this handbook addresses radicalisation and countering radicalisation as they relate to a wide range of groups and milieus articulating diverse ideological positions drawing together insight and experience from multiple geographic and institutional settings integrating global perspectives and including scholarship focused on a range of policy fields This book will be an essential reference point for anybody working on radicalisation countering radicalisation or terrorism and political violence more broadly The insight that it provides will be relevant for both academics and members of relevant policy and practitioner communities

Evil, Terrorism & Psychiatry Donatella Marazziti, Stephen M. Stahl, 2019-03-21 Evil Terrorism and Psychiatry offers a new conceptualization of terrorism within a neuroscientific domain

Criminology Gennaro F. Vito, Ronald M. Holmes, 1994 Focusing on pure criminology not criminal justice systems topics this book takes a broad approach to criminological theory incorporating sociology psychology biology and ecology The text blends the theoretical and applied aspects of criminology incorporating timely topics such as gang violence substance abuse serial murder and satanic cults Writing from a social sciences perspective the authors explore why and how crime occurs and how this knowledge can guide policy development The authors show the interplay of theory research and public policy throughout the text

Terrorists' Target Selection C. Drake, 1998-08-26 The author examines the factors which influence terrorists target selection In particular he looks at the influence of the ideologies strategies and tactics of terrorist groups and describes how these are restricted by the terrorists resources by protective and anti terrorist measures by the society within which the terrorists operate and by the nature of the terrorists and their supporters He concludes that terrorists target selection is often both explicable and logical

Understanding Terrorism and Political Violence Dipak K. Gupta, 2008-03-25 This book explains the lifecycle of terrorist organizations from an innovative theoretical perspective combining economics with social psychology It provides a new approach to understanding human behaviour in organized society and then uses this to analyze the forces shaping the lifecycle of violent political movements Economic and rational choice theorists assume that human beings are motivated only by self utility yet terrorism is ultimately an altruistic act in the

eyes of its participants This book highlights the importance of the desire to belong to a group as a motivating factor and argues that all of us face an eternal trade off between selfishness and community concern This hypothesis is explored through four key groups the IRA in Northern Ireland Al Qaeda Hamas and the Naxalites in India Through this the book analyzes the birth growth transformation and demise of violent political movements and ends with an analysis of the conditions which determine the outcome of the war against terrorism Understanding Terrorism and Political Violence will be essential reading for advanced students of terrorism studies and political science and of great interest to students of social psychology and sociology

Forensic Psychology and Neuropsychology for Criminal and Civil Cases Harold V. Hall, 2007-11-19 Greater Understanding Better Evaluations Today's increasingly sophisticated psychological and neuropsychological assessments allow for greater understanding and evaluations in forensic psychology By integrating discussions of modern psychological and neuropsychological tests with extant civil and criminal cases this book presents a uni

The Ivory Tower of Babel David Demers, 2011 Mainstream social science has come under fierce criticism in recent decades for failing to have more impact on public policy Critics say the social sciences are incapable of generating knowledge that can solve social problems Others contend that partisan politics and university administrations are the problem Politicians are more concerned about special interests than scientific research and administrators care more about scholarly publications than solving social problems Are the social sciences failing to live up to their promises Have they outlived their usefulness Have they become an Ivory Tower of Babel Like the Babylonians who built the infamous Tower of Babel social scientists for the past two centuries have been building a tower of sorts only this time it's composed of knowledge rather than bricks The primary goal of these scholars anthropologists communication scholars economists political scientists sociologists and social psychologists has been to solve problems of social integration The Babylonian tower was designed in part to unite people to one geographical area Similarly social scientists see their tower of knowledge as a means for solving social problems such as poverty crime drug abuse inequality unemployment abuse of power that alienate people and groups from modern society The Babylonians failed because of divine intervention according to the Bible The social scientists aren't finished building their tower But according to critics the results so far look less like a tower of knowledge for solving social problems than an Ivory Tower of Babel one in which social scientists routinely dispute each other's theories and data and even uncontested or well supported findings rarely influence public policy Disputes over the nature of truth and knowledge are so commonplace in the social sciences that many scholars believe a social science which uses methods from the natural sciences is incapable of generating knowledge that can solve social problems This book examines the history and philosophy of the social sciences and theoretical and empirical research on the impact of social science Suggestions are offered at the end for enhancing the impact of the social sciences A number of scientific articles and books have been written about the impact or lack thereof of the social sciences on public policy but none has been written specifically to appeal to both

academics and a broader market composed of the general public and students in both undergraduate and graduate level courses The author takes the reader on a journey inside one of the best kept secrets in higher education that much if not most of the research conducted in the social sciences has very little impact on public policy or on solving social problems Are taxpayers getting their money s worth
