Mad Love Lamour Fou French Modernist Library:

Amour Fou André Breton, 1988-10-01 Mad Love has been acknowledged an undisputed classic of the surrealist movement since its first publication in France in 1937 Its adulation of love as both mystery and revelation places it in the most abiding of literary traditions but its stormy history and technical difficulty have prevented it from being translated into English until now There has never been any forbidden fruit Only temptation is divine writes Andr Breton leader of the surrealists in Paris in the 1920s and 30s Mad Love is dedicated to defying the widespread opinion that love wears out like the diamond in its own dust Celebrating breton s own love and lover the book unveils the marvelous in everyday encounters and the hidden depths of ordinary things

Architectural Robotics Keith Evan Green, 2016-02-10 How a built environment that is robotic and interactive becomes an apt home to our restless dynamic and increasingly digital society The relationship of humans to computers can no longer be represented as one person in a chair and one computer on a desk Today computing finds its way into our pockets our cars our appliances it is ubiquitous an inescapable part of our everyday lives Computing is even expanding beyond our devices sensors microcontrollers and actuators are increasingly embedded into the built environment In Architectural Robotics Keith Evan Green looks toward the next frontier in computing interactive partly intelligent meticulously designed physical environments Green examines how these architectural robotic systems will support and augment us at work school and home as we roam interconnect and age Green tells the stories of three projects from his research lab that exemplify the reconfigurable distributed and transfigurative environments of architectural robotics The Animated Work Environment is a robotic work environment of shape shifting physical space that responds dynamically to the working life of the people within it home is a suite of networked distributed robotic furnishings integrated into existing domestic and healthcare environments and LIT ROOM offers a simulated environment in which the physical space of a room merges with the imaginary space of a book becoming a portal to elsewhere How far beyond workstations furniture and rooms can the environments of architectural robotics stretch Green imagines scaled up neighborhoods villages and metropolises composed of physical bits digital bytes living things and their hybrids Not global but local architectural robotics grounds computing in a capacious cyber physical home

Collection Thinking Jason Camlot, Martha Langford, Linda M. Morra, 2022-09-07 Collection Thinking is a volume of essays that thinks across and beyond critical frameworks from library archival and museum studies to understand the meaning of collection as an entity and as an act It offers new models for understanding how collections have been imagined and defined assembled created and used as cultural phenomena Featuring over 70 illustrations and 21 original chapters that explore cases from a wide range of fields including library and archival studies literary studies art history media studies sound studies folklore studies game studies and education Collection Thinking builds on the important scholarly works produced on the topic of the archive over the past two decades and contributes to ongoing debates on the historical status of memory institutions The volume illustrates how the concept of

collection bridges these institutional and structural categories and generates discussions of cultural activities involving artifactual arrangement preservation curation and circulation in both the private and the public spheres Edited and introduced collaboratively by three senior scholars with expertise in the fields of literature art history archives and museums Collection Thinking is designed to stimulate interdisciplinary reflection and conversation This book will be of interest to scholars and practitioners interested in how we organize materials for research across disciplines of the humanities and social sciences With case studies that range from collecting Barbie dolls to medieval embroideries and with contributions from practitioners on record collecting the creation of sub culture archives and collection as artistic practice this volume will appeal to anyone who has ever wondered about why and how collections are made **San Francisco Review of Books**

,1987 **Encyclopedia of Modern French Thought** Christopher John Murray,2013-01-11 In this wide ranging guide to twentieth century French thought leading scholars offer an authoritative multi disciplinary analysis of one of the most distinctive and influential traditions in modern thought Unlike any other existing work this important work covers not only philosophy but also all the other major disciplines including literary theory sociology linguistics political thought theology and more Juana of Castile María A. Gómez,Santiago Juan-Navarro,Phyllis Zatlin,2008 Focusing on pictorial literary screen and operatic representations of Juana of Castile this is the first interdisciplinary book that incorporates both sides of the coin history and myth fact and fiction that shaped the enigmatic image of this much maligned Spanish queen Even though the fictional reinvention of Juana of Castile has been the subject of sporadic articles this is the first time that an English language reader has access to a book that takes an in depth look at the panorama of literary pictorial musical and cinematic recreations of this historical character The editors aim is to incorporate works of authors from different countries Spain Mexico the Dominican Republic France and an entire spectrum of literary genres narrative poetry theater essay as well as opera and the visual arts From publisher s description **The Publishers Weekly** ,1988 *French Twentieth Bibliography* Douglas W.
