Misreading England Raphaël Ingelbien, 2021-11-01 In *Misreading England Poetry and Nationhood Since the Second World War* Raphaël Ingelbien examines how issues of nationhood have affected the works and the reception of several English and Irish poets Philip Larkin Ted Hughes Geoffrey Hill and Seamus Heaney This study explores the interactions between post war English poets and the ways in which they transformed or misread earlier poetic visions of England Romantic Georgian Modernist It also traces often neglected but crucial links between their troubled poetics of Englishness and Seamus Heaney's poetry of Irish nationhood This radically intertextual approach takes issue with influential accounts of post war poetry that have drawn on postcolonialism Instead of being made to reflect contemporary agendas the poetics of nationhood are here considered in all their textual and ideological complexity and restored to the historical intellectual and literary contexts which postcolonial emphases on identity often play down or simplify Whereas critics in post devolution Britain increasingly use texts to debunk or promote specific versions of national identity this study interrogates the very terms in which the debate has been conducted Its metacritical analyses expose the contradictions of identity politics and its intertextual readings help re draw the map of post war poetry in Britain and Ireland

Identities John Harris, 2016-03-23 The role of both sport and tourism in the re-creation and re-presentation of national identities is well established yet relatively little work has critically explored the inter-relationship between sport tourism and the creation and maintenance of national identities Despite the advances of globalization the nation continues to be an important part of both sport and tourism discourse and offers fertile ground for the exploration of identities in postmodern society The chapters in this collection consider the significance of important sports events and how this is understood in relation to the collective identities of some countries Authors outline some of the ways in which the nation matters and consider how and why national identities are important in contemporary sport tourism This book was originally published as a special issue of the *Journal of Sport Tourism* **Philip Larkin** Robert C.
