Schneider,Jeffrey P. Williams,2010-03-04 This is the first ever volume to compile sociolinguistic and historical information on lesser known and relatively ignored native varieties of English around the world Exploring areas as diverse as the Pacific South America the South Atlantic and West Africa it shows how these varieties are as much part of the big picture as major varieties and that their analysis is essential for addressing some truly important issues in linguistic theory such as dialect obsolescence and death language birth dialect typology and genetic classification patterns of diffusion and transplantation and contact induced language change It also shows how close interwoven fields such as social history contact linguistics and variationist sociolinguistics are in accounting for their formation and maintenance providing a thorough description of the lesser known varieties of English and their relevance for language spread and change      **Creole Composition** Vivette Milson-Whyte,Raymond Oenbring,2019-08-13 Creole Composition is a collection featuring essays by scholars and teachers researchers working with students in from the Anglophone Caribbean Arising from a need to define what writing instruction in the Caribbean means Creole Composition expands the existing body of research literature about the teaching of writing at the postsecondary level in the Caribbean region To this end it speaks to critical disciplinary conversations of rhetoric and

composition and academic literacies while addressing specific issues with teaching academic writing to Anglophone Caribbean students. It features chapters addressing language approaches to teaching, assessing writing administration and research in postsecondary education as well as professionalization of writing instructors in the region. Some chapters reflect traditional Caribbean attitudes to postsecondary writing instruction; other chapters seek to reform these traditional practices. Some chapters' interventions emerge from discussions in writing studies while other chapters reflect their authors' primary training in other fields such as applied linguistics, education and literary studies. Additionally, the chapters use a variety of styles and methods ranging from highly personal reflective essays to theoretical pieces and empirical studies following IMRaD format. *Creole Composition*, the first of its kind in the region, provides much needed knowledge to the community of teacher-researchers in the Anglophone Caribbean and elsewhere in the fields of rhetoric and composition, writing studies and academic literacies. In suggesting frameworks around which to build and further institutionalize and professionalize writing studies in the region, the collection advances the broader field of writing studies beyond national boundaries. Contributors include Tyrone Ali, Annife Campbell, Tresecka Campbell Dawes, Valerie Combie, Jacob Dyer Spiegel, Brianne Jaquette, Carmeneta Jones, Clover Jones, McKenzie Beverley, Josephs Christine E, Kozikowski Vivette, Milson Whyte, Kendra L Mitchell, Raymond Oenbring, Heather M Robinson, Daidrah Smith and Michelle Stewart McKoy. *The Americas and the Caribbean* Edgar W. Schneider, 2008-12-10. This volume gives a detailed overview of the varieties of English spoken in the Americas and the Caribbean, including regional social and ethnic dialects such as Southern US, Canadian or Chicano English as well as Caribbean creoles from the Bahamas to Suriname. The chapters, written by widely acclaimed specialists, provide concise and comprehensive information on the phonological, morphological and syntactic characteristics of each variety discussed. The articles are followed by exercises and study questions. The exercises are geared towards students and can be used for classroom assignments as well as for self-study in preparation for exams. Instructors can use the exercises, sound samples and interactive maps to enhance their classroom presentations and to highlight important language features. *Sacral Grooves, Limbo Gateways* Keith Cartwright, 2013. We're seeing people that we didn't know exist: the director of FEMA acknowledged in the wake of Hurricane Katrina. *Sacral Grooves, Limbo Gateways* offers a corrective to some of America's institutionalized invisibilities by delving into the submerged networks of ritual performance, writing, intercultural history and migration that have linked the coastal U.S. South with the Caribbean and the wider Atlantic world. This interdisciplinary study slips beneath the bar of rigid national and literary periods, embarking upon deeper, more rhythmic and embodied signatures of time. It swings low through ecologies and symbolic orders of creolized space. And it reappraises pluralistic modes of knowledge, kinship and authority that have sustained vital forms of agency such as jazz amid abysses of racialized trauma. Drawing from Haitian Vodou and New Orleanian Voodoo and from Cuban and South Floridian Santería as well as from Afro-Baptist Caribbean, Geechee and Bahamian models of encounters with otherness, this book reemplaces deep southern texts within the

counterclockwise ring stepping of a long Afro Atlantic modernity Turning to an orphan girl's West African initiation tale to follow a remarkably traveled body of feminine rites and writing in works by Paule Marshall Zora Neale Hurston Lydia Cabrera William Faulkner James Weldon Johnson and LeAnne Howe among others Cartwright argues that only in holistic form emergent from gulfs of cross cultural witness can literary and humanistic authority find legitimacy Without such grounding he contends our educational institutions blind and even poison students bringing them to swallow lye like the grandson of Phoenix Jackson in Eudora Welty's *A Worn Path* Here literary study may open pathways to alternative medicines fetched by tenacious avatars like Phoenix or an orphan Kumba or a shell shaking Turtle to remedy the lies our partial histories have made us swallow
