Windows to the Word Rhonda K. Kindig, 2019-06-04 Have you ever noticed that particular images such as bread or breath seem to recur throughout the Bible The more you read the Bible the more you hear these echoes Windows to the Word explores seven Biblical metaphors based on the I am the sayings in John's Gospel I am the bread of life I am the light of the world I am the gate for the sheep I am the good shepherd I am the resurrection and the life I am the way the truth and the life I am the vine When compared to the full scope of scripture we find that these metaphors have long been used to explain the mystery of the Divine Windows to the Word will provide structure and insights to these symbols to give you fresh perspective for your own understanding of the Divine Two additional essays explore the great marriage metaphor that also pervades the Bible and the possibility that John's Gospel was an early catechism or teaching text for Followers of the Way

nineteenth century **Windows to the Soul** M.J. Spickett, **Supertall: How the World's Tallest Buildings Are Reshaping Our Cities and Our Lives** Stefan Al, 2022-04-12 A thoughtful inquiry into the new generations of skyscrapers There is a lot of rich history here well and concisely told Paul Goldberger New York Times Book Review The global boom in skyscrapers why it s happening now how they re made and what they do to cities and people We are living in a new urban age and its most tangible expression is the supertall megastructures that are dramatically bigger higher and more ambitious than any in history Cities around the world are racing to build the first mile high building stretching the limits of engineering and design as never before In this fascinating work of urban history and design TED resident Stefan Al himself an experienced architect explores the factors that have led to this worldwide boom He reveals the marvelous and underappreciated feats of engineering that make today s supertalls a reality from double decker elevators that silently move up to 50 miles per hour to the sophisticated blend of polymers and steel fibers that enables concrete to withstand 8 000 tons of pressure per square meter Taking readers behind the scenes of the building and design of remarkable megastructures both from the past the Empire State Building St Paul s Cathedral the Eiffel Tower and the present Dubai s Burj Khalifa London s Shard Shanghai Tower Al demonstrates the impact of these innovations Yet while the supertall is undoubtedly a testament to great technological victories it can come at an environmental and social cost Focusing on four global cities London New York Hong Kong and Singapore Al examines the risks of wealth inequality carbon emissions and contagion that stem from supertalls And he uncovers the latest innovations in sustainable building from skyscrapers made of wood to tree covered buildings that promise to yield a better urban future Featuring more than thirty architectural drawings Supertall is both a fascinating exploration of our greatest accomplishments and a powerful argument for a more equitable way forward

A Window to the Divine Zachary Hayes, 2009 This new edition of A Window to the Divine presents a summary of developments on a number of basic questions pertaining to creation theology and what a synthesis might look like at this time It is based on the premise that contemporary believers can sense a remarkably rich communication of the divine mystery through the insights of science and that the sciences may open even richer and more challenging possibilities to the understanding of our tradition Our tradition is rooted in the belief that however the universe may look empirically it is precisely this universe described to us at the empirical level by the sciences that our faith holds to be the fruit of God s creative knowledge and love It is my hope that these reflections may help us discover in what sense this universe may truly be seen as a window to the mystery of the divine from the preface to A Window to the Divine *The Complete Home Learning Sourcebook* Rebecca Rupp, 1998 Lists all the resources needed to create a balanced curriculum for homeschooling from preschool to high school level **Windows to the Womb** David Chamberlain, 2013-01-15 A pioneering birth psychologist combines a lifetime s worth of research with new findings to provide a fascinating look inside the minds of unborn children In the past the invisible physical processes of fetal development were mysterious and largely unexplainable

But thanks to breakthroughs in embryology interuterine photography ultrasound and other sensitive instruments of measurement we can now make systematic observations inside the womb and can see that fetuses are fully sentient aware beings In this new climate of appreciation for the surprising dimensions of fetal behavior sensitivity and intelligence Windows to the Womb brings a host of new information to light about the transformative journey each one of us undergoes in the womb Birth psychologist Dr David Chamberlain describes the amazing construction of our physical bodies the ultimate architecture and draws parallels with the expansion of our minds as our brains and senses develop and grow He also details new discoveries in embryonic and fetal research that support his own findings on the impact of the mother s emotional and physical state during pregnancy the importance of bonding at the earliest stages and the steps that expectant parents can take to ensure the most nurturing start in life for their children

The Teacher and the World David T. Hansen,2017-07-20 Winner of the 2013 American Educational Studies Association s 2013 Critics Choice Award Teachers the world over are seeking creative ways to respond to the problems and possibilities generated by globalization Many of them work with children and youth from increasingly varied backgrounds with diverse needs and capabilities Others work with homogeneous populations and yet are aware that their students will encounter many cultural changes in their lifetimes All struggle with the contemporary conditions of teaching endless top down measures to manipulate what they do rapid economic turns and inequality in supportive resources that affect their lives

and those of their students a torrent of media stimuli that distract educational focus and growth as well as shifts in population In *The Teacher and the World* David T Hansen provides teachers with a way to reconstruct their philosophies of education in light of these conditions He describes an orientation toward education that can help them to address both the challenges and opportunities thrown their way by a globalized world Hansen builds his approach around cosmopolitanism an ancient idea with an ever present and ever beautiful meaning for educators The idea pivots around educating for what the author calls reflective openness to new people and new ideas and reflective loyalty toward local values interests and commitments The book shows how this orientation applies to teachers at all levels of the system from primary through university Hansen deploys many examples to illustrate how its core value a balance of reflective openness to the new and reflective loyalty to the known can be cultivated while teaching different subjects in different kinds of settings The author draws widely on the work of educators scholars in the humanities and social sciences novelists artists travellers and others from both the present and past as well as from around the world These diverse figures illuminate the promise in a cosmopolitan outlook on education in our time In this pioneering book Hansen has provided teachers heads of school teacher educators researchers and policy makers a generative way to respond creatively to the pressure and the promise of a globalizing world
