Science among the Ottomans Miri Shefer-Mossensohn,2015-10-15 Scholars have long thought that following the Muslim Golden Age of the medieval era the Ottoman Empire grew culturally and technologically isolated losing interest in innovation and placing the empire on a path toward stagnation and decline Science among the Ottomans challenges this widely accepted Western image of the nineteenth and early twentieth century Ottomans as backward and impoverished In the first book on this topic in English in over sixty years Miri Shefer Mossensohn contends that Ottoman society and culture created a fertile environment that fostered diverse scientific activity She demonstrates that the Ottomans excelled in adapting the inventions of others to their own needs and improving them For example in 1877 the Ottoman Empire boasted the seventh longest electric telegraph system in the world indeed the Ottomans were among the era's most advanced nations with regard to modern communication infrastructure To

The Neo-Aramaic Oral Heritage of the Jews of Zakho Oz Aloni, 2022-02-10 In 1951 the secluded Neo Aramaic speaking Jewish community of Zakho migrated collectively to Israel It carried with it its unique language culture and customs many of which bore resemblance to those found in classical rabbinic literature Like others in Kurdistan for example the Jews of Zakho retained a vibrant tradition of creating and performing songs based on embellishing biblical stories with Aggadic traditions Despite the recent growth of scholarly interest into Neo Aramaic communities however studies have to this point almost exclusively focused on the linguistic analysis of their critically endangered dialects and little attention has been paid to the sociological historical and literary analysis of the cultural output of the diverse and isolated Neo Aramaic communities of Kurdistan In this innovative book Oz Aloni seeks to redress this balance Aloni focuses on three genres of the Zakho community s oral heritage the proverb the enriched biblical narrative and the folktale Each chapter draws on the author s own fieldwork among members of the Zakho community now living in Jerusalem He examines the proverb in its performative context the rewritten biblical narrative of Ruth Naomi and King David and a folktale with the unusual theme of magical gender transformation Insightfully breaking down these examples with analysis drawn from a variety of conceptual fields Aloni succeeds in his mission to put the speakers of the language and their culture on equal footing with their speech The Martin Buber Society of Fellows at the Hebrew University of Jerusalem have kindly supported the publication of this volume
