Taxation and Resentment Andrea Louise Campbell, 2025-06-10

Why Americans favor progressive taxation in principle but not in practice Most Americans support progressive taxation in principle and want the rich to pay

more But the specific tax policies that most favor are more regressive than progressive What is behind such a disconnect In this book Andrea Louise Campbell examines public opinion on taxation exploring why what Americans favor in principle differs from what they accept in practice Campbell shows that since the federal income tax began a century ago the rich have fought for lower taxes through reduced rates and a complicated system of tax breaks The resulting complexity leaves the public confused about who benefits from the convoluted tax code and leads to tax preferences that are driven by factors other than principles or interests Campbell argues that tax attitudes vary little by income or by party as some Democrats more Republicans and even more independents want most taxes decreased Instead white opinion on nearly every tax is racialized Many do not realize the rich benefit the most from tax breaks attitudes toward which are racialized too And among Black and Hispanic Americans long subject to government coercion greater support for government spending is not matched by greater support for taxation Everyone has a reason to dislike taxes which helps antitax Republicans win votes and helps the rich in their long campaign to get their own taxes reduced and undermine progressivity Technical Bulletin ,1999
